Jerryll Habegger, Joseph H. Osman

Furniture Index ,1919

American Furniture, 1620 to the Present Jonathan L. Fairbanks,Elizabeth Bidwell Bates,1981

Meant for both connoisseur and amateur, this is the definitive book in its field. During ten years of research, the authors examined furniture from coast to coast, in museums and private collections. American Furniture has a running text along with its identification captions, which places furniture in its social and historical context. In its 100 color pictures and 1300 black-and-white photos, the book frequently presents furniture in the rooms they were made for. There is extensive coverage of the masterpieces from the seventeenth century to the present, many of them newly photographed for this book, but coverage is by no means restricted to these pieces. This is the first book to encompass furniture away from the mainstream--Pieces made away from the furniture centers of New York, New England, and Pennsylvania. Thus, there is discussion of the furniture of the Southwest; furniture made in Dutch, Spanish, French, and Norwegian settlements; and furniture made in religious enclaves or as part of social or aesthetic reform movements. Also, line drawings reveal how antique furniture was made--and therefore how to tell a genuine antique from a forgery.--From publisher description.

Arranged by type of furniture or fixture, each illustration is accompanied by the essential details of the design: date, the name of the designer, model name or number, manufacturer, materials, and physical dimensions. A complete list of suppliers and indexes of designers, model names, and manufacturers are included for ready reference. From the 1870 Corbusier dining chair designed by Gebruder Thonet and used extensively in early Corbusier interiors, to the latest works of Ron Arad, Nanna Ditzel, Richard Meier, and Philippe Starck in the 1990s, the Sourcebook provides an overview of this century's milestones - essential reference material for interior designers, architects, decorators, collectors, and anyone interested in the history of design.
