Prose Comprehension Beyond the Word A.C. Graesser, 2013-11-11 When individuals read or listen to prose they try to understand what it means. This is quite obvious. However, the cognitive mechanisms that participate in prose comprehension are far from obvious. Even simple stories involve complexities that have stymied many cognitive scientists. Why is prose comprehension so difficult to study? Perhaps because comprehension is guided by so many domains of knowledge. Perhaps because some critical mysteries of prose comprehension reside between the lines-in the mind of the comprehender. Ten years ago very few psychologists were willing to dig beyond the surface of explicit code in their studies of discourse processing. Tacit knowledge, world knowledge, inferences, and expectations were slippery notions that experimental psychologists managed to circumvent rather than understand. In many scientific circles it was taboo to investigate mechanisms and phenomena that are not directly governed by the physical stimulus. Fortunately, times have changed. Cognitive scientists are now vigorously exploring the puzzles of comprehension that lie beyond the word. The study of discourse processing is currently growing at a frenetic pace.

Male Idols and Branding in Chinese Luxury Amanda Sikarskie, Lan Lan, Peng Liu, 2022-12-29 Challenging the Western view of idols as objects of worship, this book explores the role that male idols play in fashion and cosmetics brand marketing in mainland China, Hong Kong, and Macau; including the role of the female gaze. It examines idols in the more modern, pan-Asian sense of the word - as objects of social devotion, worshipped by the adoring masses and, in China and Korea, as objects of social and moral uplift. The contemporary idol wields great power - the power to influence taste, and to sell - and Male Idols and Branding in Chinese Luxury focuses on their ability to arouse the consumer appetite to buy. In China, popular culture idols play a vital role in the luxury fashion and cosmetics industries as brand ambassadors and this volume fills a critical gap in the English-language literature on this key element of the marketing industry, bringing together authors from the United States and China, and featuring case studies on idols Wang Yibo and Xiao Zhan. Through considering the subtleties of branding and marketing in China, Korea, and Japan, and the relationship of Chinese idols to fans and consumers in other Asian countries, the authors delve into brand-idol collaborations, particularly through lenses of brand image and toxic fan culture.

Mobile Media and Social Intimacies in Asia Jason Vincent A. Cabañes, Cecilia S. Uy-Tioco, 2020-01-09 This edited volume brings together cutting-edge studies from emerging scholars of East/Southeast Asia who explore the role of mobile media in the contemporary transformation of the region's social intimacies, from the romantic to the familial to the communal. By providing a regional and transnational overview of such studies, it affords new insights into how these mobile technologies have contributed to the rise of 'glocal intimacies'. This pertains to the normalisation and intensification of how people's relationships of closeness are entangled in the ever-shifting and constantly negotiated flows between global modernity and local everyday life. In providing case studies of mobile media and glocal intimacies, the chapters in the volume attend to a broad range of countries that include China, Korea, Malaysia, the Philippines, Singapore, Vietnam, and Taiwan. This illustrates the differing ways in which mobile media might be embedded in the region's divergent articulations of social intimacies, which reflect the ongoing tensions between Western and Asian imaginaries of modernity. The chapters also discuss a wide array of mobile media that people use, from social media platforms like Facebook and Instagram, to messaging apps like KakaoTalk and WhatsApp, to dating apps like Tinder and Blued. This allows for a mapping out of the different levels of impact that mobile media might have on social intimacies in a region that contains some of the most technologically advanced as well as the most technologically behind societies in the world. In summary, this book allows readers to take a comparative approach to understanding the complexity of the glocal intimacies that are emerging from the ways people in Asia use mobile media to reconfigure their local ties and to enact global relationships. This volume will benefit students, academics, and researchers who are keen in media and communication, cultural studies, sociology, anthropology, and Asian studies. "This exciting and much-needed book will greatly advance our efforts to decolonise media and communications research. The chapters offer empirically rich and nuanced accounts that challenge the dominant paradigms about mediated intimacy." Mirca Madianou, Goldsmiths, University of London "This collection develops the original concept of 'glocal intimacies' to describe how mobile media have become a crucial site where new social intimacies are enacted, reinforced and transformed in Asia. It introduces fresh empirical research from emerging scholars to furnish deep theoretical insights into these imaginaries and practices." Audrey Yue, National University of Singapore

Bullying and Violence in South Korea Trent Bax, 2017-02-10 This book provides a fully-contextualised, multidisciplinary examination of bullying and violence in South Korean society. Bullying and violence has been a pressing societal issue since 2011, having been labelled as a 'social evil' to be eradicated by the government. However, the issue has been incorrectly confined to schools when in fact it is widespread in society and in professional settings, as Bax argues in this original new text. Through twenty in-depth case studies and original case material from a Juvenile Detention Centre, Bax examines the historical, cultural, political and social contexts of bullying and violence to better understand the nature of these crimes, the perpetrators, and how they come together in the broader cultural landscape within which the individual, the family, the school and the community are embedded.

A K-pop Live Suk-Young Kim, 2018-08-07 "A glittering glimpse into a pure realization of late capitalism, and . . . our collective future . . . uncovers why K-pop is the global cultural phenomenon." —Carol Vernallis, author of *Unruly Media: YouTube, Music Video, and the New Digital Cinema* 1990s South Korea saw the transition from a military dictatorship to a civilian government, from a manufacturing economy to a postindustrial hub, and from a cloistered society to a more dynamic transnational juncture. In *K-pop Live*, Suk-Young Kim investigates the ascent of Korean popular music in relation to the rise of personal technology and social media. Based on in-depth interviews with K-pop industry personnel, media experts, critics, and fans, as well as archival research, *K-pop Live* explores how the industry has managed the tough sell of live music in a marketplace in which virtually everything is available online. Teasing out digital media's courtship of liveness in the production and consumption of K-pop, Kim investigates the nuances of the affective mode in which human subjects interact with one another in the digital age. Observing performances online, in concert, and even through the use of holographic performers, Kim offers readers a step-by-step guide through the K-pop industry's variegated efforts to diversify media

platforms as a way of reaching a wider global network of music consumers. In an era when digital technology inserts itself into nearly all social relationships, Kim reveals how what is live becomes a question of how we exist as increasingly mediated subjects. “Lively insights into the complexities of the artistry and the commerce, the manufactured and the impromptu, the virtual and the somatic, and the local and the global that propel the production [and] consumption of Korean popular music today.” —Hyung-Gu Lynn, University of British Columbia
