High G Flight David Newman, 2016-03-09 This book provides a unique, authoritative and detailed examination of the physiological and clinical consequences of human exposure to high G forces. Pilots of military fast jets, civilian aerobatic pilots and astronauts during the launch and re-entry phases of spaceflight are frequently and repetitively exposed to high G forces, for which the human body is not fundamentally designed. The book examines not only

the nature of the high G environment, but the physiological effects of exposure to high G on the various systems of the human body. In particular, the susceptibility of the human cardiovascular system to high G is considered in detail, since G-Induced Loss of Consciousness (G-LOC) is a serious hazard for high G pilots. Additionally, the factors that influence tolerance to G and the emerging scientific evidence of physiological adaptation to high G are examined, as are the various countermeasures and techniques that have been developed over the years to protect pilots from the potentially adverse consequences of high G flight, such as the G-suit and positive pressure breathing. The accumulated knowledge of human exposure to high G is drawn together within High G Flight, resulting in a definitive volume on the physiological effects of high G and their countermeasures.

Growth: Discover how spiritual practices can bring you closer to the heart of God. Groups: Experience an authentic community where you will learn what it means to know and be known—to have real and intimate friendships throughout your life. The Force of Fantasy Ernest G. Bormann, 2001 In this book, first published in 1985, Ernest G. Bormann explores mass persuasion in America from 1620 to 1860, examining closely four rhetorical communities: the revivals of 1739-1740, the hot gospel of the postrevolutionary period, the evangelical revival and reform of the 1830s, and the Free Soil and Republican parties. Each community varies greatly, but Bormann asserts that each succeeding community shares a rhetorical vision of restoring the American Dream that is essentially a modification of the previous visions. Thus, they form a family of rhetorical visions that constitutes a rhetorical tradition of importance in nineteenth-century American popular culture.
