Making Japanese Heritage Christoph Brumann, Rupert A. Cox, 2009-12-16 This book examines the making of heritage in contemporary Japan, investigating the ways in which particular objects, practices and institutions are ascribed public recognition and political significance. Through detailed ethnographic and historical case studies, it analyses the social, economic, and even global political dimensions of cultural heritage. It shows how claims to heritage status in Japan stress different material qualities of objects, places and people - based upon their ages, originality and usage. Following on an introduction that thoroughly assesses the field, the ethnographic and historiographic case studies range from geisha; noh masks; and the tea ceremony; urban architecture; automata; a utopian commune and the sites of Mitsubishi company history. They examine how their heritage value is made and re-made, and appraise the construction of heritage in cases where the heritage value resides in the very substance of the object's material composition - for example, in architecture, landscapes and designs - and show how the heritage industry adds values to existing assets: such as sacredness, urban charm or architectural and ethnic distinctiveness. The book questions the interpretation of material heritage as an enduring expression of social relations, aesthetic values and authenticity which, once conferred, undergoes no subsequent change, and standard dismissals of heritage as merely a tool for enshrining the nation; supporting the powerful; fostering nostalgic escapism; or advancing capitalist exploitation. Finally, it considers the role of people as agents of heritage production, and analyses the complexity of the relationships between people and objects. This book is a rigorous assessment of how conceptions of Japanese heritage have been forged, and provides a wealth of evidence that questions established assumptions on the nature and social roles of heritage.

Masterpieces of Japanese Puppetry, Sculptured Heads of the Bunraku Theater "Bunraku Kashira no Meisaku" Kankōkai, 1958

The Kabuki Theatre of Japan Adolphe Clarence Scott, 1999-01-01 One of the most comprehensive handbooks available on Kabuki theatre. Text describes the theater's development in the context of Japanese history, with detailed analyses of actors' techniques, music and dance, plays and playwrights, the playhouse's design evolution, and six representative Kabuki plays. Includes glossary of Japanese terms. Highly recommended. — Library Journal.

1000 [i.e. Mille] anni di teatro giapponese Japan Cultural Institute in Rome, 1972

Japanese Reading for Beginners Arthur Rose-Innes, 1923

Puppets of Nostalgia Jane Marie Law, 2015-03-08 Puppets of Nostalgia is the first major work in any Western language to examine the ritual origins and religious dimensions of puppetry in Japan. In a lucid and engaging style accessible to the general reader, Jane Marie Law describes the life, death, and rebirth of awaji ningyo shibai, the unique form of puppet theater of Awaji Island that has existed since the sixteenth century. Puppetry rites on Awaji helped to maintain rigid ritual purity codes and to keep dangerous spiritual forces properly channeled and appeased. Law conducted fieldwork on Awaji, located in Japan's Inland Sea, over a ten-year period. In addition to being a detailed history and ethnography of this ritual tradition, Law's work is, at a theoretical level, a study of the process and meaning of tradition formation, reformation, invention, and revitalization. It will interest scholars in a number of fields, including the history of religions, anthropology, cultural studies, ritual and theater studies, Japanese studies, and social history. Focusing on the puppetry tradition of Awaji Island, Puppets of Nostalgia describes the activities of the island's ritual puppeteers and includes the first English translation of their performance texts and detailed descriptions of their rites. Because the author has lived on Awaji during extended periods of research, the work includes fine attention to local detail and nuanced readings of religious currents in Japan that affect

fact appeared inside the woodblock image. Woodblock prints of actors were also an important aspect of the culture of kabuki drama. A major feature of this anthology is the inclusion of over 200 woodblock prints that accompanied the original texts and drama.

Aseptolin Cyrus Edson,1896

Circles of Fantasy C. Andrew Gerstle,1986 The vibrant merchant culture of Tokugawa Japan gave rise to many new forms of art, none more fascinating than the puppet theater, Jōruri, created chiefly by Chikamatsu Monzaemon, the foremost playwright of popular Japanese drama. In this analysis of Chikamatsu's artistry, Dr. Gerstle focuses on features hitherto neglected by Western scholars the musical structure of Jōruri, integral to the form, mood, and movement of the drama. For extensive translations from the various types of Chikamatsu's dramas, Gerstle supplies the musical notations, which illuminate the sophisticated conventions of this unique and timeless artistic form. Chikamatsu's art, combining puppets, text, samisen music, and chanting/narration, encompasses three major types of drama--history, contemporary-life, and love-suicide plays--each with distinct structural features. Gerstle shows how the music of Jōruri, a mixture of the samisen and chanting/narration, supplements the texts and expresses a dramatized action or emotion through complex changes in pitch, tempo, and style of delivery. Richly illustrated with woodblock prints, this is a fascinating study, which will be welcomed by scholars of Japanese culture, literature, and musicology.

A Kabuki Reader: History and Performance Samuel L. Leiter,2015-02-12 Unique in any Western language, this is an invaluable resource for the study of one of the world's great theatrical forms. It includes essays by established experts on Kabuki as well as younger scholars now entering the field, and provides a comprehensive survey of the history of Kabuki; how it is written, produced, staged, and performed; and its place in world theater. Compiled by the editor of the influential Asian Theater Journal, the book covers four essential areas - history, performance, theaters, and plays - and includes a translation of one Kabuki play as an illustration of Kabuki techniques.
