Views of Mt. Fuji Katsushika Hokusai, 2013 Katsushika Hokusai was among the foremost ukiyo-e artists of his generation, and his Thirty-six Views of Mt. Fuji ranks among the best-known series of Japanese woodblock prints. This edition presents a full-color reprint of that enduring masterpiece, plus the artist's later black-and-white series, One Hundred Views of Mt. Fuji. A must for all lovers of Japanese art.

**Swimming Home** Judy Cotton, 2022-05-31 Introducing a major new Australian literary voice – an unforgettable memoir of the complicated love between a mother and daughter 'Easily the most vivid memoir I have ever read' -Sebastian Smee I am sitting at my father's desk, waiting to call intensive care . . . It is September, the wattle is flowering, and it smells like napalm. In this stunning memoir, full of black humour and razor-sharp observations, visual artist Judy Cotton captures the intricacies of family relationships and the push-pull of home. Her mother, Eve, was a brilliant but exacting woman, a gifted pianist whose perfectionism cut her career short. After marrying, she established a successful stud farm for sheep in the Blue Mountains while supporting her husband's political career. Judy's charismatic father, Bob, was a federal minister and ambassador to the United States, with traditional ideas about who Judy should become. Sent to boarding school from the age of four, Judy yearned for her parents but found them increasingly controlling. Her desire for freedom eventually took her overseas, to Korea and Japan in the late 1960s, and later to New York, where she finally discovered belonging in the art scene. But the undertow of home was impossible to escape. In dazzling prose and with an artist's eye for landscape, *Swimming Home* is a powerful meditation on loss and longing, freedom and connection.

*The Influence of Japanese Art on Design* Hannah Sigur, 2008 During America's Gilded Age (dates), the country was swept by a mania for all things Japanese. It spread from coast to coast, enticed everyone from robber barons to street vendors with its allure, and touched every aspect of life from patent medicines to wallpaper. Americans of the time found in Japanese art every design language: modernism or tradition, abstraction or realism, technical virtuosity or unfettered naturalism, craft or art, romance or functionalism. The art of Japan had a huge influence on American art and design. Title compares juxtapositions of American glass, silver and metal arts, ceramics, textiles, furniture, jewelry, advertising, and packaging with a spectrum of Japanese material ranging from expensive one-of-a-kind art crafts to mass-produced ephemera. Beginning in the Aesthetic movement, this book continues through the Arts & Crafts era and ends in Frank Lloyd Wright's vision, showing the

reader how that model became transformed from Japanese to American in design and concept.

Hannah Sigur is an art historian, writer, and editor with eight years' residence and study in East and Southeast Asia. She has a master's degree from the Institute of Fine Arts, New York University, and is completing a PhD in the arts of Japan. Her writings include co-authoring *A Master Guide to the Art of Floral Design* (Timber Press, 2002), which is listed in *The Best Books of 2002* by *The Christian Science Monitor* and is now in its second edition; and *The Golden Ideal: Chinese Landscape Themes in Japanese Art*, in *Lotus Leaves, A Master Guide to the Art of Floral Design* (2001). She lives in Berkeley.

**Hokusai 36 Views of Mount Fuji** Cristina Berna, Eric Thomsen, 2023-11-24 The beauty of art is necessary for happiness. In everyday life the arts give that extra dimension to life that makes it a great adventure. The art and design in buildings, city planning, gardens and parks, roads, bridges, everything that we use daily contributes to a happy and fulfilling life. Ugly buildings, sloppy design, poor quality workmanship, littering and defacing contributes to a miserable life. Why would you want a miserable life? Why would you want to impose a miserable life on others? Hokusai was not only a truly great artist. He also sent a message to common people, who could afford to buy his low cost prints. He conveyed the beauty of majesty, the mount Fujijama, in life. He conveyed the beauty of scenery, he said to people, look around you and see and enjoy the beauty of the scenery. He conveyed the beauty of a good human life, the craftsmanship in making the timber, building the boat, fishing, growing tea, enjoying tea with the scenery. The 36 Views of Mt Fuji are religious prints. But different from the typical Christian religious motif the humans are not shown focused on the deity all the time, even if Mt Fuji is shown to have a pervading influence on their lives. The admiration and worship of Mt Fuji is often shown as incidental a single traveler of the group casting a glance at the majestic mountain while the others are busy with the many other things to do. In other words a very realistic rendition on how the divine is taking part in everyday life.

Hokusai Edmond de Goncourt, 2015-09-15 Without a doubt, Katsushika Hokusai is the most famous Japanese artist since the middle of the nineteenth century whose art is known to the Western world. Reflecting the artistic expression of an isolated civilisation, the works of Hokusai - one of the first Japanese artists to emerge in Europe - greatly influenced the Impressionist and Post-Impressionist painters, such as Vincent van Gogh. Considered during his life as a living Ukiyo-e master, Hokusai fascinates us with the variety and the significance of his work, which spanned almost ninety years and is presented here in all its breadth and diversity.

Paradoxical Japaneseness Andrew Dorman, 2016-11-22 This book offers insightful analysis of cultural representation in Japanese cinema of the early 21st century. The impact of transnational production practices on films such as *Dolls* (2002), *Sukiyaki Western Django* (2007), *Tetsuo: The Bullet Man* (2009), and *13 Assassins* (2010) is considered through textual and empirical analysis. The author discusses contradictory forms of cultural representation – cultural concealment and cultural performance – and their relationship to both changing practices in the Japanese film industry and the global film market. Case studies take into account popular genres such as J Horror and jidaigeki period films, as well as the work of renowned filmmakers Takeshi Kitano, Takashi Miike, Shinya Tsukamoto and Kiyoshi Kurosawa.

**Modern Japanese Drama** Ted T. Takaya, 1979 Home to the New York Yankees, the Bronx Zoo, and the Grand Concourse, the Bronx was at one time a haven for upwardly mobile second-generation immigrants eager to leave the crowded tenements of Manhattan in pursuit of the American dream. Once hailed as a wonder borough of beautiful homes, parks, and universities, the Bronx became--during the 1960s and 1970s--a national symbol of urban deterioration. Thriving neighborhoods that had long been home to generations of families dissolved under waves of arson, crime, and housing abandonment, turning blocks of apartment buildings into gutted, graffiti-covered shells and empty, trash-filled lots. In this revealing history of the Bronx, Evelyn Gonzalez describes how the once-infamous New York City borough underwent one of the most successful and inspiring community revivals in American history. From its earliest beginnings as a loose cluster of commuter villages to its current status as a densely populated home for New York's growing and increasingly more diverse African American and Hispanic populations, this book shows how the Bronx interacted with and was affected by the rest of New York City as it grew from a small colony on the tip of Manhattan into a sprawling metropolis. This is the story of the clattering of elevated subways and the cacophony of crowded neighborhoods, the heady optimism of industrial progress and the despair of economic

recession, and the vibrancy of ethnic cultures and the resilience of local grassroots coalitions crucial to the borough's rejuvenation. In recounting the varied and extreme transformations this remarkable community has undergone, Evelyn Gonzalez argues that it was not racial discrimination, rampant crime, postwar liberalism, or big government that was to blame for the urban crisis that assailed the Bronx during the late 1960s. Rather, the decline was inextricably connected to the same kinds of social initiatives, economic transactions, political decisions, and simple human choices that had once been central to the development and vitality of the borough. Although the history of the Bronx is unquestionably a success story, crime, poverty, and substandard housing still afflict the community today. Yet the process of building and rebuilding carries on, and the revitalization of neighborhoods and a resurgence of economic growth continue to offer hope for the future.

**Deleuze and Asia** Ronald Bogue, Hanping Chiu, Yu-lin Lee, 2014-10-16 Interest in the French philosopher Gilles Deleuze has grown exponentially over the last two decades, and, in recent years, Asian scholars have come to see rich possibilities for developing his thought within an Asian context. In this, the first collection devoted to Deleuze and Asia, several Asian and Western scholars explore Deleuzian themes and concepts in areas ranging from philosophy and religion to new media studies, cultural studies, theater, architecture, painting, film, and literature. Topics addressed include: onto-aesthetics in Deleuze and Taoism; Deleuzian univocity of being and the Original Enlightenment Thought of Mahāyāna Buddhism; Leibnizian and Bergsonian influences in Deleuze and the Japanese philosopher Nishida; Deleuze's theater of philosophy and its parallels in Beijing Opera, Kathakali Dance Drama and Noh Theater; Deleuze's concept of the fold and sonic space in Asian architecture; the fold and visual space in Hokusai's "Thirty Six Views of Mount Fuji"; the Walkman, contemporary Japanese anomie and Deleuzian nomadism; Deleuzian "faciality" and the cultural politics of facial images in Korean beauty pageants; the 2011 Taiwanese film *Warriors of the Rainbow: Seediq Bale* and the Deleuzian concepts of the minor and the people to come; Deleuzian haecceities, affects and fragmented spaces in the films of Lou Ye and Wong Kar-wai; the Nu Shu writing system – the only writing system developed exclusively by women – and the formation of a female people to come; and Deleuzian minor literature and its relationship to globalization, nationalism and regionalism in Asian literature. These essays map new directions in East-West research that promise to invigorate Asian studies and disclose hitherto unrecognized dimensions of Deleuze's thought.

**Hokusai's Project** David Bell, 2007 This important new study on the great ukiyo-e artist Katsushika

Hokusai is an in-depth appreciation, involving close examination of some forty-four Hokusai prints, of why his works appear in the way they do and how he evolved his own unique artistic style. In addition to a select bibliography, the book is supported by a valuable glossary of artistic terms.

One Hundred Views of Mt. Fuji Hokusai Katsushika, 1988 Considered Hokusai's masterpiece, this series of images -- which first appeared in the 1830s in three small volumes -- captures the simple, elegant shape of Mount Fuji from every angle and in every context.
