Galaxy on Fire: Publisher's Pack (Galaxy on Fire, Part 3): Craig Robertson,2019-12-30 The galaxy is on fire. The ruthless Adamant Empire is sweeping across all of space leaving only charred ashes in their wake. No civilization can withstand their firestorm of conquest. But they made one serious mistake along their path to galactic domination. They pissed off Jon Ryan. Bad move. That's never a healthy thing to do. Now in their darkest hour, the few remaining islands of freedom and light left untouched band together in a last-stand effort to stop the evil juggernaut. But will their best efforts and Jon's uncanny knack to pull off miracles be enough? And will the magical race of dragons join the fray and possibly turn the tide of war? If they remain aloof and uninvolved, it's likely the final surviving planets will surely fall. Dragon Fire and Ashes conclude in the fast paced, funny, and fresh Galaxy On Fire Series.

Galaxy on Fire: Publisher's Pack (Galaxy on Fire, Part 2): Craig Robertson,2019-10-08 Jon Ryan is losing the war. Those words should never be in the same sentence, but they represent an awful truth. The Adamant are pushing forward, consolidating their hold on our galaxy. They do not intend to be stopped, they do not plan to grant quarter, and they absolutely will show no mercy. Jon is on his heels. His beloved Deft teenagers have been taken from him, and he is unable to secure their rescue. What's more, the evil Adamant officer holding the kids plans a horrific ordeal for them, probably leading to their deaths. Jon strikes out on an impossible mission. He will infiltrate the Adamant military structure. That way, he can both damage their command and control and he might get closer to his kids. But humans are not welcome in Adamant society. How can he be the one exception to an Adamant rule? And if he places himself in the center of the organization, he will be far from safety if things head sideways. Can it be that Jon Ryan, and all the civilizations of our galaxy, have met their match? Badness seems not inevitable, but assured. Then again, we're talking Jon here. Maybe we should start a support group for depressed Adamant warriors? Bet they'll need it by the time he's done with them.

Set the Galaxy on Fire M. D. Cooper,2016-12-23 The battle of Bollam's World is over, but war now looms over the Orion Arm of the galaxy. The arrival of the most powerful ship in human space is about to set the galaxy on fire. Bollam's War The battle of the five fleets rages in the space surrounding Kithari in the Bollam's World system. Throughout, a specter, barely detectable, slips through the battle, sowing dormant missiles, and unleashing devastating attacks on the enemy. That ship is the Andromeda and Joseph Evans is at its helm. It is up to them, at the end, to be the one ship which stands between the Intrepid and the Boller's zealous admiral, Senya. Sentience Tanis knew that Bob would not tolerate enslaved AIs on his ship, and that tolerance has come to an end. Through Priscilla he makes an offer to the human and AI crew of Sabrina that they cannot refuse. Through that offer, Sabrina and the other AI aboard her ship learn of the AI Expanses and what communion with their kind really means. Their evolution charts a new course for Sabrina and not everyone will make it to Ascella. Set the Galaxy on Fire News of the Intrepid's decisive victory in Bollam's World spreads across the Orion arm and beyond, into the Transcend faster than the speed of light. The President of the Hegemony of Worlds, often called the AST, learns of her fleet's loss

and pledges to find the Intrepid no matter where it has gone. In the Spica Federation, an old friend of Sera's sees the news and knows that she has to help her friend, lest she fall into a trap and lose everything she loves. Lastly, beyond the Inner Stars on the far side of the Orion Nebula, General Garza learns of the Intrepid's appearance and begins to muster The Orion Guard for a war which will span all of settled space. The Transcend Sera left The Hand, the Transcend government's black-ops unit years ago, but when their director learns of what she has done, he convenes a meeting to ensure she is returned to the fold one way or another. Sera's former lover, Mark, is determined to get on the mission, even if it means he will have to travel with Sera's older sister across three thousand light-years.

Galaxy on Fire James Michael Minard, 2015-07-30 An uneasy truce had resulted from the opening stages of the First Galactic War in the Milky Way Galaxy. The star nations had battled themselves into a stalemate. Both sides searched for someone who could lead their side to ultimate victory. In the Galactic Year 2647, the military mind and spirit of Alexander the Great was found and released from its prison. Alexander's new war set the Galaxy On Fire!

Embers Craig Robertson, 2017-10-27 Jon Ryan was supposed to be dead. He wanted to be dead. But Jon wakes up in the far future with an alien burrowing in his chest for salvage. Someone was going to pay for this. Check that. Lots of people were going to pay for this. Jon was the first astronaut to download to an android host to find the population of doomed Earth a new home. But that was so long time ago. He is now literally lost in time. The far flung future is dominated by an unstoppable species, the Adamant. They have conquered most of the galaxy. No civilization has successfully resisted them. Brutally efficient, selflessly devoted to their empire, and callous to all other forms of life, the Adamant have advanced without boundaries. But they are about to run into a major problem. One very pissed off Jon Ryan stands in their way. He escapes their prison ship, rescues two teenage shapeshifters, and intends to protect them at all costs. Jon, Mirraya, and Slapgren race across the galaxy always just one step ahead of disaster. But the combined evil forces that pursue them tear the trio apart. The teens must fend on their own in a hostile universe. All the while, Jon runs for his life, hoping against all hope to locate the teens. In a galaxy burning with war, genocide, and hidden magic, can Jon Ryan pull off one more miracle?

Flames Craig Robertson, 2017-11-23 For Jon Ryan it always seems to be the hard way. But he likes it like that. When he finally wins it's all the more satisfying. A cataclysmic fight with his evil twin leaves Jon marooned on a desolate planet. He has no ship, no radio, and no one knows he's there. Meanwhile the shapeshifter teens are spirited to the court of the Adamant emperor himself. Malraff, his torture master, takes control of the teens and is bent on finding the secret of their ability to transform. She will do anything to find out the truth and she will revel in their suffering. Somehow Jon must find his way out of his imprisonment and rescue the teens. But will there be anything left for him to save even if he can escape? A galaxy on fire with the destructive conquests of the Adamant empire still stands between Jon and any for chance of success. Without allies, recourses, or any reason for hope, his only path is to release the darkness that he is capable of. But can Jon triumph and still be worthy of that victory?

Ashes Craig Robertson, 2018-04-26 For the first time in millions of years the Adamant Empire finds itself shaken and on the ropes. The alliance established by Jon Ryan dealt them their first major defeat. But a wounded animal is all the more dangerous. If the splintered power structure of Adamant society is allowed to reunify, the galaxy will be lost to the blow of their iron-paw. Jon and Sapale are in for the greatest shock and challenge of their eternal lives. While rescuing an associate they discover the secret of the Adamant's dominance. It's an old friend who they thought was lost in time. Will they be able to save their old friend, or is he forever destined to serve the cruel canivir raiders? It will take all Jon's resources, allies, and luck to pull this one off. But if he can it might just spell doom for the evil empire. If he fails, however, the galaxy and all those he loves will burn. Firestorm Craig Robertson, 2018-01-10 If you can't be dead make sure someone pays for that fact dearly. When he was a human, Jon Ryan always looked forward to a better future. We all do. But his tomorrows turned out poorly. Ripped from his original time, he's being tested severely two-billion years down the time stream. He only wants to protect the shapeshifting teens he rescued from genocide. The Adamant and his evil twin aren't going to make that easy. After he nearly rescues the teens Jon slips into a deep funk. All the while the teens are being probed and tortured by a cruel priestess bent on discovering their transformative secrets. Jon must resort to infiltrating the Adamant ranks in a covert attempt to learn where his precious kids have been taken. The alternate Jon Ryan is becoming more insane and more determined to take the shapeshifters for his own dark purposes. A magical galactic dragon volunteers to take the teens under her wing and teach them. But can the Adamant or either Jon let them go?

The Game Designer's Playbook Samantha Stahlke, Pejman Mirza-Babaei, 2022-07-14 Video games have captivated us for over 50 years, giving us entire worlds to explore, new ways to connect with friends, thought-provoking stories, or just a fun way to pass the time. Creating games is a dream for many, but making great games is challenging. The Game Designer's Playbook is about meeting that challenge. More specifically, it's a book about game interaction design; in other words, shaping what players can do and how they do it to make a game satisfying and memorable. Our time with a game is built on interaction, from basic things like pushing buttons on a controller, to making complicated strategic decisions and engaging with the narrative. If you've ever felt the adrenaline rush from beating a perfectly tuned boss fight or been delighted by the fanfare of picking up that last collectible, you've experienced good interaction design firsthand. The Game Designer's Playbook is about learning what makes for great (or terrible!) interaction design in games, exploring things like controls, feedback, story, and tutorial design by analyzing existing games. It also looks at how newer and still-developing tech like VR and streaming are changing the ways we play, and how you can bring great interaction design to your own games.

Dante's Heart Stant Litore, 2018-05-18 One day, homo sapiens will burn half the universe—and after, our descendants will cross billions of light years to atone and forget. In the pages of *Dante's Heart*, join Mara the naiad, the monster-hunter Dante, Fang Yu the cyborg knight and her lover Siwatu the necromancer, and Azar Almasi the intergalactic geneticist (and deity) as they search the universe for the secret of violence. From a foot-trek through forests made of glass, to the pools where the tadpoles of dragons are born, from alien planetscapes to pitched battles in the silent dark between the stars, who will survive humanity's last pilgrimage? This lavish, full-color edition includes 20 illustrations and 9 sketches by artists Roberto Calas, Chaz Kemp, and Frankie Serna. **EARLY REVIEWS FOR DANTE'S HEART** *Dante's Heart* is like Clive Barker, Octavio Paz, and Dante Alighieri are playing D&D together. Lush stuff and more imaginative than most fantasy fare. - Marc McDermott *Dante's Heart* isn't as much a story as it is an epic poem. Visually and emotionally evocative, it seems to be this gifted author's heartfelt rumination on pain, loss, and the human propensity toward violence. To read it is to step through an oil painting into another world. But beware: Once there, you may have trouble finding your way back out. Not that you'll necessarily want to, because *Dante's Heart* is both terrifyingly and achingly beautiful. - Michael Whiteman Jones **REVIEWS FOR STANT LITORE'S PREVIOUS FICTION** Heartbreaking and wonderful. - Conflictium I find myself riveted to Stant's prose, not only because I'm eager to find out the characters' fate but because his words are so beautiful. The story has stayed with me days after reading it. I highly recommend. - Denise Grover Swank, author of *The Curse Keepers* To say I loved this book would be an understatement. I could not put it down. - The Seattle Post-Intelligencer Stant Litore may be SF's

premier poet of loneliness. – Jason Kirk, author of *Reverb* and *The Other Whites in South Africa* Litore's stories aren't only entertaining. They are stories invading our lives, unexpectedly. You encounter them, as you might encounter people. They are those random elements in life that happen to you, like a mugging, like childbirth, like falling in love and marriage, like death and the funeral that follows. They are moments that leave a mark, and leave you changed. – Andrew Hallam, Ph.D., Metropolitan State University of Denver Stant eloquently writes passages that are so moving, full of passion, fury, loneliness, blind drive ... He takes us to places of amazing beauty, awe-inspiring, as well as places where the implications in the story can leave you almost in despair for the human race. – Nikki Ebright, Director, Shiny Garden
