The House of Bonmati Claudio Hernández, 2017-09-09 The body dies but the souls live on the places where there is death. And they drive you crazy. The family consists of Pedro, Antonia, Juan and Pili, and they are about to become the new tenants of the House of Bonmati. Mr. Valenti and his sister Angels, the last living owners, have proposed their new tenants a good deal: If they take care of the house and the land surrounding it, and they keep it clean and tidy, they will be allowed to live there, rent-free. The house of Bonmati is a 100-year-old house, and Mr. Valenti will share its history with them gradually, like throwing petals in the wind. But he doesn't tell them the whole truth. Pili realizes there are strange faces and silhouettes all around the house, but she is the only one who can see them, and nobody believes her when she tries to tell them. Although the couple's marriage is on the rocks, Pili is the apple of Pedro's eye, and Juan is Antonia's perfect son. But things change soon. There are ghosts everywhere, Juan can see them now, and the eerie sounds are continuously heard at all times and locations. When he enters room six, Juan is stunned by the odd woman who asks him to kiss her so as to keep safe. Eventually, the strange voices start whispering in his father's head and he starts behaving bizarrely, with a crazy look in his eyes. Then the storm breaks out, leading them to a tragic ending.

Enlightenment and Ecology Tarinski Yavor Tarinski, 2021-02-20 Throughout his life, prophetic American philosopher Murray Bookchin created social ecology as a comprehensive social program for the challenges of our present era. Through tireless teaching, speaking, organizing, and writing, Bookchin presented a humanist vision of ecology based on community, direct democracy, and the better promises of the Enlightenment, showing how we could transform our society into one that is free and egalitarian. Enlightenment and Ecology is an international collection of commemorative essays by scholars and activists who have each incorporated the ideas of social ecology into their own work. This book also examines how the Kurdish freedom movement is using the Bookchin's utopian ideas. In a time of urgent need for radical change, these essays provide both precious historical lessons and a transformative road map.

Religion in Cultural Imaginary Daria Pezzoli-Olgiati, 2015-07-15 Das vielschichtige Konzept des Imaginären erweist sich als weiterführende Kategorie, um die Präsenz und Diffusion religiöser Symbole, Weltbilder und Narrative in verschiedenen Medien und gesellschaftlichen Bereichen wie Politik, Wirtschaft, Kunst und Populärkultur einzufangen. Eingesetzt, um die Rezeption und Transformation religiöser Referenzen durch Zeit und Kulturen zu fassen, kann das Imaginäre verstanden werden als geteilter Fundus von mentalen Bildern und materiellen Gegenständen, von Ideen, Symbolen, Werten und Praktiken, die zur Produktion von Bedeutung und dem gesellschaftlichen Zusammenhalt beitragen. Im Schnittbereich von soziologischen, politisch-philosophischen und kulturwissenschaftlichen Zugängen zu Religion bietet die interdisziplinäre Studie einen intensiven Austausch zwischen theoretischer Diskussion und reichhaltigen empirischen Analysen. Mit Beiträgen von Daria Pezzoli-Olgiati, Ann Jeffers, Anna-Katharina Höpflinger, Paola von Wyss-Giacosa, Natasha O'Hear, Davide Zordan, Natalie Fritz, Marie-Therese Mäder, Sean Ryan, Stefanie Knauss, Alexander D. World Soul - Anima Mundi Christoph Helmig, 2020-01-20 From Plato's Timaeus onwards, the world or cosmos has been conceived of as a living, rational organism. Most notably in German Idealism, philosophers still talked of a 'Weltseele' (Schelling) or 'Weltgeist' (Hegel). This volume is

the first collection of essays on the origin of the notion of the world soul (anima mundi) in Antiquity and beyond. It contains 14 original contributions by specialists in the field of ancient philosophy, the Platonic tradition and the history of theology. The topics range from the 'obscure' Presocratic Heraclitus, to Plato and his ancient readers in Middle and Neoplatonism (including the Stoics), to the reception of the idea of a world soul in the history of natural science. A general introduction highlights the fundamental steps in the development of the Platonic notion throughout late Antiquity and early Christian philosophy. Accessible to Classicists, historians of philosophy, theologians and invaluable to specialists in ancient philosophy, the book provides an overview of the fascinating discussions surrounding a conception that had a long-lasting effect on the history of Western thought.

The Mediterranean Passage Russell King, 2001-01-01 During the last two decades of the twentieth century, southern Europe became a key destination for global migration. Countries which had been important source countries for emigration, mainly to northern Europe, quickly became targets for international migrants coming from an extraordinary range of source countries. Today, the management of immigration is complex with countries torn between the need to satisfy the rules of Schengen and 'fortress Europe' on the one hand, and the economic benefits of cheap and flexible labour supplies on the other. This book brings together a variety of detailed studies recording the 'cultural encounters' of these migrants. Most of the chapters are based on detailed research in locations such as Lisbon, the Algarve, Barcelona, Turin, Bologna, Sicily and Athens, as well as in source countries such as Morocco, Tunisia, Albania and the Philippines. What emerges is a scenario diverse and rapidly evolving, with cultural encounters which are both enriching and depressing, yet always fascinating.

America in Italian Culture Guido Bonsaver, 2024-02-15 When America began to emerge as a world power at the end of the nineteenth century, Italy was a young nation, recently unified. The technological advances brought about by electricity and the combustion engine were vastly speeding up the capacity of news, ideas, and artefacts to travel internationally. Furthermore, improved literacy and social reforms had produced an Italian working class with increased time, money, and education. At the turn of the century, if Italy's ruling elite continued the tradition of viewing Paris as a model of sophistication and good taste, millions of lowly-educated Italians began to dream of America, and many bought a transatlantic ticket to migrate there. By the 1920s, Italians were encountering America through Hollywood films and, thanks to illustrated magazines, they were mesmerised by the sight of Manhattan's futuristic skyline and by news of American lifestyle. The USA offered a model of modernity which flouted national borders and spoke to all. It could be snubbed, adored, or transformed for one's personal use, but it could not be ignored. Perversely, Italy was by then in the hands of a totalitarian dictatorship, Mussolini's Fascism. What were the effects of the nationalistic policies and campaigns aimed at protecting Italians from this supposedly pernicious foreign influence? What did Mussolini think of America? Why were jazz, American literature, and comics so popular, even as the USA became Italy's political enemy? *America in Italian Culture* provides a scholarly and captivating narrative of this epochal shift in Italian culture.

On Modern Poetry Guido Mazzoni, 2022-04-19 An incisive, unified account of modern poetry in the Western tradition, arguing that the emergence of the lyric as a dominant verse style is emblematic of the age of the individual. Between the end of the eighteenth century and the beginning of the twentieth, poetry in the West was transformed. The now-common idea that poetry mostly corresponds with the lyric in the modern sense—a genre in which a first-person speaker talks self-referentially—was foreign to ancient, medieval, and Renaissance poetics. Yet in a relatively short time, age-old habits gave way. Poets acquired unprecedented freedom to write obscurely about private experiences, break rules of meter and

syntax, use new vocabulary, and entangle first-person speakers with their own real-life identities. Poetry thus became the most subjective genre of modern literature. *On Modern Poetry* reconstructs this metamorphosis, combining theoretical reflections with literary history and close readings of poets from Giacomo Leopardi to Louise Glück. Guido Mazzoni shows that the evolution of modern poetry involved significant changes in the way poetry was perceived, encouraged the construction of first-person poetic personas, and dramatically altered verse style. He interprets these developments as symptoms of profound historical and cultural shifts in the modern period: the crisis of tradition, the rise of individualism, the privileging of self-expression and its paradoxes. Mazzoni also reflects on the place of poetry in mass culture today, when its role has been largely assumed by popular music. The result is a rich history of literary modernity and a bold new account of poetry's transformations across centuries and national traditions.

Italy in the Second Half of the 19th Century: Bridging New Cultures Francesca Cadel, Paola Nastri, 2024-01-24 A period of turmoil, uncertainty, and fears, the second half of the nineteenth century in Italy is also characterized by resilience, creativity, courageous discussions on the emancipation of women, and a variety of cultural products that are instrumental for the birth of a new and modern culture that will lead to the achievements of the twentieth century. Contributing to and expanding on recent scholarships on Italian literature of the nineteenth century, the book presents a series of literary, interdisciplinary and intercultural case studies. These case studies explore the social and cultural dimensions of the period, investigating the historical, literary, artistic, cultural, and social events of the time while probing their significance and relevance in bridging new Italian cultures.

A Critical and Historical Corpus of Florentine Painting Richard Offner, Miklós Boskovits, Klara Steinweg, Mina Gregori, Martina Ingendaay Rodio, 2001 This new volume proposes, in similar format but with recent photographs, illustrating the painting in their present state, the new edition of the book dedicated by Richard Offner in 1947 to the workshop of Bernardo Daddi, artist very much in demand in the first half of the 14th century. To some 70 pictures catalogued by Offner with entries which are now updated with new data on state and history as well as with bibliography, ten further, hitherto unpublished or little known items are given in this edition. The survey offered here makes the circle of Daddi, where several of chief figures of the Florentine painting in the second half of the Trecento were formed, one of the better known areas of the history of Italian painting of the Middle Age and early Renaissance.

Space, Time and Language in Plutarch Aristoula Georgiadou, Katerina Oikonomopoulou, 2017-10-10 'Space and time' have been key concepts of investigation in the humanities in recent years. In the field of Classics in particular, they have led to the fresh appraisal of genres such as epic, historiography, the novel and biography, by enabling a close focus on how ancient texts invest their representations of space and time with a variety of symbolic and cultural meanings. This collection of essays by a team of international scholars seeks to make a contribution to this rich interdisciplinary field, by exploring how space and time are perceived, linguistically codified and portrayed in the biographical and philosophical work of Plutarch of Chaeronea (1st-2nd centuries CE). The volume's aim is to show how philological approaches, in conjunction with socio-cultural readings, can shed light on Plutarch's spatial terminology and clarify his conceptions of time, especially in terms of the ways in which he situates himself in his era's fascination with the past. The volume's intended readership includes Classicists, intellectual and cultural historians and scholars whose field of expertise embraces theoretical study of space and time, along with the linguistic strategies used to portray them in literary or historical texts.
