Becoming a Parent Jackie Ganley,2005-01-14 An emotional survival guide to pregnancy and childbirth Like the other volumes in the Family Matters series, this authoritative new book provides expert advice to ordinary people struggling with everyday challenges-in this case, the emotional trials of new mothers. Enduring the stresses of pregnancy and giving birth are only half of what it takes to become a parent. The other half involves adjusting emotionally to the reality of a newborn. With tips on getting outside help and discussion points useful in self-therapy, *Becoming a Parent* offers real-life solutions, based on actual cases, to every sort of difficulty new parents might expect. Jackie Ganley (London, UK) works for Britain's National Health Service.

Cigars Colin Ganley,2011 For the men and women who appreciate the finer things in life, *The Le Snobs* are your guides to the work of skilled artisans, culinary connoisseurs and inspired designers from around the world. Impeccably stylish and beautifully understated, these handbooks will appeal to anyone seeking perfection and, importantly, ensure you always know more than everyone else. Witty, assured and informative, these books are the perfect foil for your passion for the finer things in life. Evocative and richly appointed with

little-known facts, this book is about savouring the world's most sophisticated tobacco products to the full. It celebrates the fine distinctions between brand, place, tradition and taste that elevate cigar appreciation to an art in itself. *Le Snob: Cigars* reaches across the Caribbean from the powerful tobaccos of Central America, through Cuba's rich aromas, to the Dominican Republic's finesse to show you the finest cigars available today, and why it is worth being a snob about the cigars you choose to smoke. With the cachet knowledge every expert must possess, plus authentic insights into the lives and skills of cigar producers, *Le Snob: Cigars* offers impeccable advice on all aspects of this traditional, from pronunciation to professional tasting techniques. The book also features an authoritative directory of rare and prestige cigars to help you explore the very finest international styles in greater depth.

Japan Albert C. Ganley, 1989 The text is well-written and comprehensive narrative is interspersed throughout with direct sources, allowing high school students to formulate sound generalizations about the Japanese experience and to test those currently popular in Western society.

The Exploding Political Power of Personal Media Gladys D. Ganley,1992

Penang Trams, Trolleybuses & Railways Ric Francis,Colin Ganley,2006 Which city once had the smallest trolley-bus in the world? Where do you find the first funicular railway in Southeast Asia? How do you recognize a trolley-bus pole? Where is Tramway Road? With over 100 old photographs, maps and illustrations, this book gives an overview of the various forms of public transport used in George Town from 1880s to 1963, and the role this transport played in the development of the growth of George Town and Penang. Penang was one of the first urban centres in Southeast Asia to operate steam trams, horse trams, electric trams and trolleybuses. When the Municipal Commission established its own electric supply, it took over the tram service and started the electric trams in George Town in 1906. This gave the local population excellent public transport around George Town, with one line going up to Ayer Itam. In the late 1920s, the Municipality replaced trams with trolley-buses, experimenting for a while with re-conditioned double-deckers from London Transport! The Municipality also operated two railways - firstly, the Penang Hill Railway which was considered an engineering marvel when it was first built, and secondly, the electric railway which transported

supplies and tin ingots for Penang's foremost smelting works.--BOOK JACKET.

Ribbon Societies in Nineteenth-Century Ireland and Its Diaspora Kyle Hughes,Donald M. MacRaild,2018 This is the first full-length study of Irish Ribbonism, tracing the development of the movement from its origins in the Defender movement of the 1790s to the latter part of the century when the remnants of the Ribbon tradition found solace in a new movement: the quasi-constitutional affinities of the Ancient Order of Hibernians. Placing Ribbonism firmly within Ireland's long tradition of collective action and protest, this book shows that, owing to its diversity and adaptability, it shared similarities, but also stood apart from, the many rural redresser groups of the period and showed remarkable longevity not matched by its

contemporaries. The book describes the wider context of Catholic struggles for improved standing, explores traditions and networks for association, and it describes external impressions. Drawing on rich archives in the form of state surveillance records, 'show trial' proceedings and press reportage, the book shows that Ribbonism was a sophisticated and durable underground network drawing together various strands of the rural and urban Catholic populace in Ireland and Britain. Ribbon Societies in Nineteenth-Century Ireland and its Diaspora is a fascinating study that demonstrates Ribbonism operated more widely than previous studies have revealed.

The Long Road to School Maree Ganley, 2020-10-21 This book traces the history of a convent boarding school St Ursula's founded in 1917 in Yeppoon on the central Coast of Queensland, Australia. Through oral histories the life and experiences of children living in remote regions of Central Queensland are woven into the bigger story of the contribution of boarding schools to the educational, social and cultural progress of remote regions of Australia.

Unglued Empire Gladys D. Ganley, 1996 . . . Ganley has marshaled an extraordinary range and volume of information and presents the story with both clarity and drama. Unglued Empire offers a gold mine of case-study data for scholars analyzing the interplay of politics and modern communication technology. . . . Technology and Culture There is no doubt that the growing availability of television and its technology, which made it possible to

report scenes instantly, did have an impact on the collapse of the Soviet Union. Mikhail Gorbachev decided that his country needed a dose of openness or Glasnost to modernize society and make the people more supportive of his efforts. In the end, more information about the outside world as well as the inside world helped to bring down the communist party and the Soviet government. This book documents this process, showing how the media's ready availability became such a divisive force in the Soviet Union. Instead of creating a more structured, rigid regime, it did just the opposite. The Soviet Union may well have collapsed of its own weight sooner or later, but there is no doubt that the media, technology and communications accelerated the process, a form of uskoreniie that Gorbachev never intended. Many of the events described in this study have application to other researchers and government officials. The study makes it possible to understand some of the new challenges that regimes wary of criticism will have to face in the future.
