**Gardens Aflame** Maleea Acker, 2012

Accustomed to the dark, dripping stands of Douglas-fir, spruce and hemlock that blanketed the Hudson's Bay Company outposts on the remote western coast of the new World the first Europeans were surely startled to see the wide-open landscapes of the Garry oak meadows they encountered on Southern Vancouver Island --- landscapes that might have reminded any explorers who had ventured into the African savannahs of what they had seen there. Though slow in comprehending what they had stumbled upon, the Europeans immediately recognized the deep, rich deposits of black soil that extended many feet below the surface, and James Douglas chose the site as the ideal location for the HBC's new fort, and settlement. What the newcomers failed to appreciate is that these meadows were not the work of nature alone, but of the Coast Salish peoples who had been living in these parts for millennia. With the construction of the fort of Victoria began an encroachment on these Garry oak meadows, built up over centuries if not millennia, a process that continues today. In *Gardens Aflame*, Victoria writer and environmentalist Maleea Acker tells us about this unique and vanishing ecosystem, and the people who have made it their life's work to save the Garry oak and the environment --- including the human environment --- it depends on. Acker tells us about the Garry oak species and its unique habits and requirements, including its unusual summer dormancy period, when all the surrounding plants are coursing with life. We learn something about the scientists, arborists, and Garry oak-loving volunteers who have dedicated themselves to this tree; and about Theophrastus, Humboldt, and their other forebearers who are still reshaping our notions of nature and humans' place in it. And in the course of Acker's

story, we see her fall under the spell of the strange beauty woven by these magnificent trees, and the ecosystems they tower over --- until, in the final act, she decides to turn her own front yard into her own version of a Garry oak meadow, defying City Hall and the neighbours, and bringing to a head in 2011 all the issues raised 150 years ago when Europeans first saw the open meadows of Southern Vancouver Island. Gardens Aflame is number 21 in the Transmontanus series.

*Haunted Gary* Ursula Bielski,2015-10-05 “Highlights the most infamous and spine-tingling haunted places scattered throughout Northwest Indiana” (The Times of Northwest Indiana). In 2014, the story of Gary’s “Demon House” shocked the world, drawing millions into the terrifying tale of a contemporary exorcism. For many residents, however, ghosts are just part of the community. From the haunting of the Jackson Five to the ghost ship Flying Cloud, local legends abound. Ghostly echoes may linger from a fiery 1918 train wreck that claimed the lives of eighty-six circus performers. A young murderess, said to have drowned her children in the Little Calumet River, reportedly haunts the Cline Avenue freeway. And the spirit of Alice Gray, the most famous of myriad recluses, is said to remain in Duneland. Meet these and other eternal inhabitants of “America’s Ghost Town” with author Ursula Bielski. Includes photos!

**The Colonial Shadow** Kira Celeste,2023-02-24 The Colonial Shadow examines the colonial psychology that has shaped what is now known as Canada. This psychology has perpetrated devastating harm over the last half a millennium and continues to oppress Indigenous people and degrade the environment. This book is inspired by the tenet of depth psychology that stories and myths from one's own ancestry can bring about transformation and deep changes in perspective. As such, it investigates how an alchemical way of imagining into white settler colonial consciousness might contribute to its accountability and psychological healing today. The Colonial Shadow will be an invaluable resource for professionals, academics and students of Jungian and post-Jungian ideas, settler-colonial and First Nations studies, sociology, anthropology, and cultural studies as well as for anyone interested in addressing the colonial complex.

Click to Play David Handler,2024-03-12 The Edgar

Award-winning author of the Stewart Hoag mysteries delivers a “fast-paced, frantic, and head spinning” crime thriller (Booklist). In the summer of 1972, the country was rocked by the Bagley Bunch murders—a killing spree that targeted America’s favorite TV sitcom family. A survivor of the slaughter, former child star Tim Ferris, is now dying of cancer. With only weeks to live, he needs the truth to come out. But the secrets he’s kept for a lifetime could bring down the presidential campaign of the front-running Christian conservative candidate, his former co-star on the series. Ferris reaches out to Pulitzer Prize-winning journalist and muckraker Hunt Lieblich to tell his story. Having been blacklisted by a media mogul, Lieblich has struggled to stay relevant, but Ferris’s explosive tell-all is sure to put him back on top—and expose a powerful cabal that won’t go down without a fight. As people around him are violently killed, Lieblich goes from respected reporter to America’s most wanted, trapped in the never-ending nightmare from that long-ago summer . . . Praise for the thrillers of David Handler “One of my all-time favorite series!” —Harlan Coben on the Stewart Hoag Mystery series “Handler once again delivers a top-notch tale of crime and intrigue.” —Publishers Weekly on *The Sweet Golden Parachute*

**The Signature of God** Jaan Ranne, 2021-09-20 Traces of beauty and structure permeate all corners of the living world. What would you see if you took the time to look more closely? In *The Signature of God*, Jaan Ranne guides us through the wonders of creation from a Biblical view. This tour of the natural world mirrors God's first six days of creation. Day by day, we are introduced to the marvellous variety, detail, and power of light, air, land, seas, plants, outer space, and animals of all kinds. The *Signature of God* invites an appreciation of the incredible diversity found in nature, and Ranne urges his readers to think critically about the science behind a creationist view. This investigation is a testament to God's infinite wisdom and power, but it is also a lighthearted and accessible learning resource for budding biologists. Covering everything from orchids to Noah's flood, *The Signature of God* unearths traces of the divine in every corner of the natural world.

*Twilight Rails* H. Roger Grant, 2010 By the start of the twentieth century railroads crisscrossed the nation, yet there were still those who believed that the railroad network in the United States was far from complete. Residents of small towns lacking rail access lobbied hard for steam and electric roads to serve their communities, and investors eagerly started new ventures that would fill the gaps in the railway map. While some of these roads enjoyed a degree of success, most of them were financial flops even before the rise of the highway system made them obsolete. In *Twilight Rails*, H. Roger Grant—one of the leading railroad historians working today—documents the stories of eight Midwestern carriers that appeared at the end of the railroad building craze. When historians have reflected on these “twilight” carriers, they have suggested that they were relevant only as examples of unwise business ventures. Grant finds that even the weakest

railroads were important to the communities they served; the arrival of the railroad was cause for great celebration as residents were finally connected to the outside world. A railroad's construction pumped money into local economies, farmers and manufacturers gained access to better markets, and the excitement generated by a new line often increased land values and inspired expansion of local businesses. Even the least financially successful carriers, Grant argues, managed to significantly improve their local economies. This thorough and highly accessible history provides a fascinating look at the motivations, accomplishments, and failures of the twilight carriers, granting a new breath of life to this neglected aspect of American railway history.
