Archinesia 06 Imelda Akmal, 2014-01-01 Craftmanship Within the History of Architecture in Indonesia. In the sixth edition of ARCHINESIA Bookgazine we explore what the Indonesian team of curators does in the 14th International Architecture Exhibition in Venice, Italy that is still going until November 16, 2014. In response to the biennale's title, "Fundamentals", with the theme pitched by Rem Koolhaas to all participants about "Absorbing Modernity: 1914-2014", the Indonesian team presents a historical record of the influence of craftsmanship and materials in the course of modern Indonesian architecture. This perspective was not widely discussed, although given the region's many similarities it would not be a surprise that craftsmanship and materials also play a significant role in other Southeast Asian countries besides Indonesia. It may be that the topic is a reflection of what is happening in cognate countries. Dynamics of Industrial Revolution 4.0: Digital Technology Transformation and Cultural Evolution Ratri Wulandari, Idhar Resmadi, Vika Haristianti, Rahmiati Aulia, Riky Taufik Afif, Gema Ari Prahara, Aulia Ibrahim Yeru, 2021-08-25 The 7th Bandung Creative Movement conference presented the theme Dynamics of Industrial Revolution 4.0 which discussed how the digital world and connectivity changed human culture in various aspects of life, and transformed in accordance to human needs and social culture. Digital technology has transformed society to serve people from manufacturing needs to smart cities, from network connectivity to people connectivity. The application of information technology has helped in improving live quality and environmental sustainability. Digital transformation is revolutionizing how businesses and workers interconnect to be more productive and efficient. The result is improved collaboration, faster processes and time-to-market, lower costs and better products. Devices are getting smarter, meaning they are able to perform more and more tasks without human intervention; moreover, these devices generate data that provide insights to further improve processes and gain greater efficiencies. Moreover, with the Internet of Things (IoT), all these smart devices are interconnected in ways that not only help make them even smarter, but also enhances the intelligence of the overall system. Digital technology is a formidable driver for the transformation of a highly carbon-dependent world into one that is more ecologically 'smart.' We are entering a new era of environmental innovation that is driving better alignment between technology and environmental goals. Since its first announcement in 2011, industrial revolution 4.0 has dynamically changed and transformed to adjust itself to the human needs and to serve more efficiency and effectiveness of everyday life as well as environmental enhancement. The 7th Bandung Creative Movement has brought forward discussions on dynamic changes, ups and downs, innovations, relations of industrial revolution of the internet of thing, data, automation, to human physical world, new art and aesthetic, business, product innovation, built environment, and education.

A Gecko for Luck Horst H. Geerken, 2015-05-05 The large house gecko, called tokek, is regarded as a lucky talisman by the Indonesians. When its 'Toke' resounds in the night, they count how many times it calls, both in town and in the country, and this number determines how lucky the call is. Only an odd number is lucky: seven is already quite good, but nine promises the peak of success and good fortune. The author has spent 18 years in Indonesia and helped the young independent country in its development and construction on the sectors of telecommunications, electrotechnical and solar power engineering. Amusing and interesting events from his private and professional life during those years make this book historically interesting and also humorous reading for

anyone who is interested in getting to know Indonesia off the beaten tourist track. The author and his family had tokens in both their house in Jakarta and their weekend home in Carita. He often has heard nine successive calls, and the prophecy was fulfilled: Indonesia has brought the author luck and happiness.
