Star Wars®: Episode III: Revenge of the Sith Patricia C. Wrede, George Lucas, 2012-04-01 Award-winning author Patricia C. Wrede tells the final chapter of the Star Wars saga, in this incredible novel based on one of the most eagerly awaited movies of all time. The circle will now be complete: the final

installment of the Star Wars saga, showing the emergence of Darth Vader, the downfall of the Jedi, and the revenge of the Sith.

Labyrinth of Evil: Star Wars Legends James Luceno, 2005-09-27 The war that erupted in Star Wars: Episode II Attack of the Clones is nearing its boiling point, as the dauntless Separatist forces continue their assault on the teetering Republic—and the diabolical triumvirate of Count Dooku, General Grievous, and their Master, Darth Sidious, fine-tune their strategy for conquest. In Episode III Revenge of the Sith the fates of key players on both sides of the conflict will be sealed. But first, crucial events that pave the way to that time of reckoning unfold in a labyrinth of evil. . . . Capturing Trade Federation Viceroy—and Separatist Councilmember—Nute Gunray is the mission that brings Jedi Knights Obi-Wan Kenobi and Anakin Skywalker, with a squad of clones in tow, to Neimoidia. But the treacherous ally of the Sith proves as slippery as ever, evading his Jedi pursuers even as they narrowly avoid deadly disaster. Still, their daring efforts yield an unexpected prize: a unique holotransceiver that bears intelligence capable of leading the Republic forces to their ultimate quarry, the ever-elusive Darth

Sidious. Swiftly taking up the chase, Anakin and Obi-Wan follow clues from the droid factories of Charros IV to the far-flung worlds of the Outer Rim . . . every step bringing them closer to pinpointing the location of the Sith Lord—whom they suspect has been manipulating every aspect of the Separatist rebellion. Yet somehow, in the escalating galaxy-wide chess game of strikes, counterstrikes, ambushes, sabotage, and retaliations, Sidious stays constantly one move ahead. Then the trail takes a shocking turn. For Sidious and his minions have set in motion a ruthlessly orchestrated campaign to divide and overwhelm the Jedi forces—and bring the Republic to its knees.

Star Wars Origami , 2012-08-07 Kids love origami—and what could be cooler than transforming a piece of paper into Boba Fett, Princess Leia, Yoda, or R2-D2? And not just any paper, but custom-designed paper illustrated with art from the movies. Star Wars® Origami marries the fun of paper folding with the obsession of Star Wars. Like *The Joy of Origami* and *Origami on the Go*, this book puts an original spin on an ancient art. And like *Star Wars® Scanimation®* and *Star Wars® Fandex®*,

it's a fresh take on Star Wars mania. Chris Alexander is a master folder and founder of the popular website StarWarsOrigami.com, and here are 36 models, clearly explained, that range in difficulty from Youngling (easy) to Padawan (medium), Jedi Knight (difficult), and Jedi Master (tricky!). A front section introduces origami definitions and basic folds. Bound in the back is the book's unique folding paper, two sheets for each figure. Illustrated with original art, it makes each creation—the essential lightsabers, the Death Star, and much more—true to the movies. Star Wars Origami includes a foreword by Tom Angleberger, author of the New York Times bestsellers *The Strange Case of Origami Yoda* and *Darth Paper Strikes Back*, and is scheduled to be published at the same time as Angleberger's upcoming book, *The Secret of the Fortune Wookiee*.

Vector Prime: Star Wars Legends R.A. Salvatore, 2003-06-03 An exciting new era of Star Wars history is about to begin--as fantasy and science fiction's most acclaimed authors propel the legendary epic into the next millennium, introducing us to a rich cast of characters that features old favorites-- Luke Skywalker, Han Solo, and Leia Organa Solo--along with the next generation of Jedi and never-before seen creatures, droids, and deadly agents of darkness. In Vector Prime, the launch novel for this thrilling new saga, New York Times bestselling author R. A. Salvatore takes the Star Wars universe to previously unscaled heights of action and imagination, expanding the beloved story of a

galaxy far, far away . . . Twenty-one years have passed since the heroes of the Rebel Alliance destroyed the Death Star, breaking the power of the Emperor. Since then, the New Republic has valiantly struggled to maintain peace and prosperity among the peoples of the galaxy. But unrest has begun to spread; tensions erupt in outbreaks of rebellion that, if unchecked, threaten to destroy the Republic's tenuous reign. Into this volatile atmosphere comes Nom Anor, a charismatic firebrand who heats passions to the boiling point, sowing seeds of dissent for his own dark motives. In an effort to avert a catastrophic civil war, Leia travels with her daughter Jaina, her sister-in-law Mara Jade Skywalker, and the loyal protocol droid C-3PO, to conduct face-to-face diplomatic negotiations with Nom Anor. But he proves resistant to Leia's entreaties--and, far more inexplicably, within the Force, where a being should be, was . . . blank space. Meanwhile, Luke is plagued by reports of rogue Jedi Knights who are taking the law into their own hands. And so he wrestles with a dilemma: Should he attempt, in this climate of mistrust, to reestablish the legendary Jedi Council? As the Jedi and the Republic focus on internal struggles, a new threat surfaces, unnoticed, beyond the farthest reaches of

the Outer Rim. An enemy appears from outside known space, bearing weapons and technology unlike anything New Republic scientists have ever seen. Suddenly Luke, Mara, Leia, Han Solo, and Chewbacca--along with the Solo children--are thrust again into battle, to defend the freedom so many have fought and died for. But this time, all their courage, sacrifice, and even the power of the Force itself may not be enough. . . . Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

Grievous J. M. Darhower,2017-02-05 Once upon a time, there was a girl who stopped believing in fairy tales after her innocence was stolen. Morgan Myers is tired. So damn tired. Most people either push her around or brush her off, and she's not putting up with it anymore. Determined to reclaim the life that had been stolen from her, she puts her trust in the last person she ever expected to: the notorious Scar. Morgan sees a side of him that few people seem to know--the man, not the myth. Lorenzo. And what she sees, she likes, a lot more than she thought she would. But fairy tales aren't

real, as life likes to remind her. Some dragons, you just can't slay, no matter how hard you fight them. And when hers comes back around, breathing fire, she's forced to face some unimaginable horrors. But lucky for Morgan, there's a white knight in combat boots out there that isn't afraid of monsters. You see, it's impossible to be afraid of something you face every day in the mirror.

After the Event Stephan Feuchtwang, 2011-04-30 Two of the most destructive moments of state violence in the twentieth century occurred in Europe between 1933 and 1945 and in China between 1959 and 1961 (the Great Leap famine). This is the first book to bring the two histories together in order to examine their differences and to understand if there are any similar processes of transmission at work. The author expertly ties in the Taiwanese civil war between Nationalists and Communists, which included the White Terror from 1947 to 1987, a less well-known but equally revealing part of twentieth-century history. Personal and family stories are told, often in the individual's own words, and then compared with the public accounts of the same events as found in official histories, commemorations, school textbooks and other forms of public memory. The author presents innovative

and constructive criticisms of social memory theories in order to make sense both of what happened and how what happened is transmitted.

Praise for *Art2-D2's Guide to Folding and Doodling* Once again, Angleberger's humor, which presents itself in the text through characters from the series, in both human and origami form, connects with middle-grade readers. 'Art2' and the other 'Origami Yoda' books are the ultimate example of the by-a-fan/for-the-fans format, which succeeds if executed properly. This did he. --Florida Times-Union Excellent activity-book offshoot of Angleberger's bestselling Origami Yoda series... The banter and tongue-and-cheek humor of the previous books is present, along with encouragement. --Publishers Weekly The presentation's offbeat attitude, ingenuity, and wit, many libraries will want to stock this high interest book... --Booklist Fans (and nonfans, if there are any) of the Origami Yoda

series (Abrams) and website will find new opportunities aplenty for foolery in this spinoff compendium of progressively challenging hands-on instructions for drawing, folding, and goofing around with (mostly) Star Wars characters. --School Library Journal
