**Community Leadership in Maryland, 1790-1840** Whitman H. Ridgway,2018-07-11 American democracy has fascinated generations of historians. They have probed its philosophical foundations and the structure of its institutions, but their studies reveal little about those who really wielded power in the formative years of the republic. Employing a sophisticated research design, Whitman Ridgway examines the changing leadership patterns in four diverse communities in Maryland from 1790 to 1840. The results indicate clearly the need to study the American democratic process at the local level. Ridgway selected Baltimore City, Frederick, St. Marys, and Talbot counties -- representing the underlying economic and cultural diversity of one political culture, Maryland -- to evaluate who governed, how these patterns differed from one community to another, and how such patterns changed over time. The research design defines the scope of the study. Ridgway uses the decisional method of analysis, determining who actually made decisions, in order to identify the political leaders. His extensive research in manuscript and newspaper collections, tax and census data, and religious and genealogical records gathered information on some 1,300 persons. This study of community power illuminates facets of a democratic society which perplexed Alexis de Tocqueville over a century ago. Ridgway demonstrates that, despite the expansion of popular participation in political affairs, the influence of the wealthy continued to be significant. He shows also how leaders without benefit of wealth or social ties to the oligarchies were able to enter community decision making. In a more modern context, this important book adds to the literature in several ways. Its greatest contribution is methodological -- no longer can historians talk about power relationships without studying them directly. The work also compares two important periods, the first and second party eras, normally treated in isolation; and through this comparison it reveals much about democracy, egalitarianism, and power. *Lloyd's Register Rules and Regulations* 1934-1935 Lloyd's Register Foundation,1934-01-01 Lloyd's Register has published the Rules and Regulations for the Classification of Ships, to which all Lloyd's Register classed ships must conform, since 1834. Between 1834 and 1870 the Rules were bound within the Lloyd's Register of Ships. Since 1870 they have been published separately. Today, the Lloyd's Register Rules and Regulations are still recognised as one of the most comprehensive and respected sets of standards in the maritime industry. They are still regularly updated to reflect the advances in technology and changes in regulatory requirements, and still function as a trusted companion to surveyors, shipowners, shipyards and regulatory bodies around the world.

Letters Henry James,1974 This volume, the conclusion of Leon Edel's splendid edition, rounds off a half century of work on James by the noted biographer-critic. In the letters of the novelist's last twenty years a new Henry James is revealed. Edel's generous selection shows us, as he says, a looser, less formal, less distant personality, a man writing with greater candor and with more emotional freedom, who has at last opened himself up to the physical things of life. The decade embracing the turn of the century is the most productive period of James's career. Happily settled in an English country house and now dictating to a typist, he is able to write *The Ambassadors*, *The Wings of the Dove*, and *The Golden Bowl* in three years. The letters show clearly how his fiction turned from his world-famous tales of international society to the life of passion in his last novels. His new friends and correspondents include Conrad, H. G. Wells, Stephen Crane, Edith Wharton, and several young men to whom he writes curious, half-inhibited love letters. Mrs. Wharton, with her chauffered chariot of fire, introduces him to the thrill of motoring and welcomes him into her cosmopolitan circle; to him she embodies the affluence and driving energy of the America of the Gilded Age. For the first time in over twenty years he revisits his homeland, traveling not only in the East but through the South to Florida and west to California. He is dismayed by the materialism he finds and the changed ways of life. Back in England, he plunges into several projects; for the New York edition of his works he revises the early novels and writes his famous prefaces. His relations with agents and publishers as well as family and friends are fully documented in the letters, as are his trips to the Continent and visits with Edith Wharton in Paris. His last years are darkened by a long siege of nervous ill health and by the death of his beloved brother William. But he carries on, moves back to London, and continues to work. Among the most eloquent of all his letters are those describing his anguished reaction to the Great War. To show his allegiance to the Allied cause, he becomes a British citizen, six months before his death. The volume concludes with his final and fading words dictated on his deathbed.
