Fuzzy Systems and Data Mining VI A.J. Tallón-

Ballesteros, 2020-11-13 The interdisciplinary field of fuzzy logic encompass applications in the electrical, industrial, chemical and engineering realms as well as in areas of management and environmental issues, while data mining covers new approaches to big data, massive data, and scalable, parallel and distributed algorithms. This book presents papers from the 6th International Conference on Fuzzy Systems and Data Mining (FSDM 2020). The conference was originally due to be held from 13-16 November 2020 in Xiamen, China, but was changed to an online conference held on the same dates due to ongoing restrictions connected with the COVID-19 pandemic. The annual FSDM conference provides a platform for knowledge exchange between international experts, researchers academics and delegates from industry. This year, the committee received 316 submissions, of which 76 papers were selected for inclusion in the conference; an acceptance rate of 24%. The conference covers four main areas: fuzzy theory; algorithms and systems, which includes topics like stability; foundations and control; and fuzzy applications, which are widely used and cover various types of processing as well as hardware and architecture for big data and time series. Providing a current overview of research and developments in fuzzy logic and data mining, the book will be of interest to all those working in the field of data science.

Pokemon Tagashi Takashima, 2017-02-16 He is fat, he is hungry... and he will turn everything into chaos! This Snorlax has a huge appetite, but that's okay as long as he can take his yearlong nap, or, in other words, hibernate after storing all the food he devoured. Snorlax is happy when he fills his tummy with goodies from the supermarket, but when he goes to sleep, his slumber gets interrupted by a bunch of loud kids. He wakes up and won't stop eating. He steals food, goes island-hopping, and doesn't slow down one bit! Will Ash and Misty succeed in bringing him to the laboratory, so Professor Oak can take a look at this gigantic Pokémon? Don't miss the fun, action-packed, somewhat humorous storytelling in this Pikachu diary series!

Totem Tales Finniotis Barackage, 2015-05-31 Second graders studied Native American art in the Baden Academy Calliope program. Students learned about Totem Poles carved from trees that feature human and animal characters from a Native American story. Each story begins with the character at the base of the totem pole and continues up toward the top. The students wrote their own story, focusing on the importance of sequencing, and also drew and colored character faces that were attached to cardboard tubes to create their own totem poles. Students then typed their stories learning to use basic keyboarding skills. Teachers and students had a great time bringing you these wonderful tales.
