Mad Scientists, gifted with the Spark of genius, unleash insane inventions on an unprepared Europe. At Transylvania Polygnostic University, Agatha Clay dreams of being a scientist herself, but her trouble concentrating dooms her to be a lowly minion at best. When her locket, a family heirloom, is stolen, Agatha shows signs of having the Spark in a spectacular, destructive fashion and captures the attention of the Baron—and the Baron's handsome young son, Gilgamesh. Swept up to the Baron's Airship City, Agatha finds herself in the midst of the greatest minds of her generation, as well as palace intrigue, dashing heroes, and an imperial cat. Agatha may be the most brilliant mind of her generation and the key to control of the continent, but first, she just has to survive.

It's so easy to feel overwhelmed by the mixed messages of what it means to live well. Kendra Adachi, the creator of the Lazy Genius movement, invites you to live well by your own definition and equips you to be a genius about what matters and lazy about what doesn't. Everything from your morning routine to napping without guilt falls into place with Kendra's thirteen Lazy Genius principles, including: • Decide once • Start small • Ask the Magic Question • Go in the right order • Schedule rest Discover a better way to approach your relationships, work, and piles of mail. Be who you are without the complication of everyone else's "shoulds." Do what matters, skip the rest, and be a person again.

Girl Logic Iliza Shlesinger, 2017-11-07 From breakout stand-up comedian Iliza Shlesinger comes a subversively funny collection of essays and observations on the secret genius of irrational behavior. Have you ever been pissed because you're not pretty enough, and then gotten even more pissed that someone didn't find you as pretty as you think you are? Have you ever obsessed over the size of your thighs while eating dessert, all the while saying you'll work out extra tomorrow? Or spent endless hours wondering why you have to bear the brunt of other people's insecurities? I mean, after all, I'm pretty great. Why cope with insecurities I don't already have? That last one's just me? All right, then.

But if the rest sounds familiar, you are experiencing Girl Logic: a characteristically female way of thinking that appears contradictory and circuitous but is actually a complicated and highly evolved way of looking at the world. You end up considering every repercussion of every choice (about dating, career, clothes, lunch) before making a move toward what you really want. And why do we attempt these mental hurdles? Well, that's what this book is all about. The fact is, whether you're obsessing over his last text or the most important meeting of your career, your Girl Logic serves a purpose: It helps push you, question what you want, and clarify what will make you a happier, better person. Girl Logic can be every confident woman's secret weapon, and this book shows you how to wield it.
