U.S. Marine Corps Scout-sniper Peter R. Senich,1993 The advent of jungle warfare in the South Pacific in 1942 opened an entirely new chapter in the art of fieldcraft and mark-manship for the U.S. Marine Corps. To eliminate the Japanese jungle fighter, the Corps had to formulate innovative tactics even more efficient than those successfully implemented by the scouts, observers and snipers of World War I. The Corps set about training and fielding a new breed of combat specialist: the U.S. Marine Corps scout-sniper. Now, after more than two decades of research, Peter Senich has written what is undoubtedly the most thorough and accurate account ever of the training, equipment and combat experiences of this important facet of the history of Marine Corps sniping. Contains rare combat and training photos of scout-snipers in action.

World War II Snipers Gary Yee,2022-05-04 Gary Yee takes what is already a well-researched deep dive into the specifics of sniper training, employment and equipment to a new level. - American Rifleman Magazine Thousands of volumes have been published about World War II but relatively little attention has been given to the sniper. Drawing from memoirs, government documents and interviews, *World War II Snipers* incorporates eyewitness accounts to weave a comprehensive narrative of snipers in World War II. While certain common traits were shared among belligerents, each had its unique methodology for selecting and training snipers and, as casualties were high, their replacements. Drawn from hunters, competitive shooters, natural marksmen, outdoorsmen, city dwellers, farmers and veteran soldiers, they fought to assert local battlefield dominance and instill among their enemy a paralyzing fear. Sometimes admired and other times reviled by their own comrades because of the retaliation they drew, they were always too few in number. Their battlefield role, their victories and their defeats are retold here from neglected or forgotten sources. The scope of *World War II Snipers* is extensive with three chapters each on the major theaters of the war including Western Europe, Eastern Europe and the Pacific. This is supported by a lengthy chapter on the sniper rifles used by the snipers and their equipment.

Long-Range Precision Rifle Anthony Cirincione II,2013-07-01 Anthony Cirincione was an amazing teacher while helping me get ready for sniper school. His knowledge and meticulous rifle setup techniques were instrumental to my success. As a U.S. Army Sniper School instructor, I have been able to pass on everything he taught me to students and further help the sniper community. -SSG Dustin Campbell, U.S. Army Sniper School, Ft. Benning, GA This book is a great tool for anyone who is interested in long-range shooting and handloading for their rifle. It lays out a system that anyone can follow to successfully develop a precision rifle setup for hunting, target, or competition shooting. Stop being the guy who looks at your box of ammo for your drop and then uses Kentucky windage, only to miss your prize animal or target. Be the guy who smoothly pulls the trigger at any distance with knowledge of where your bullet is going and confidence in a first-round hit.-Brandon Connell, civilian shooter, Memphis, TN This detailed guide puts extreme accuracy at long range with a precision rifle within the reach of any shooter. But what exactly is a precision rifle? Author Anthony Cirincione II defines it as a rifle that consistently prints 1.047 inches or smaller at 100 yards. If that's the kind of shooting that you think is beyond your capability, think again. A U.S. Army sniper and avid precision rifle and long-range rifle shooter, competitor, and enthusiast, Cirincione has 26 months' worth of combat deployments in Iraq and Afghanistan, and has trained multiple groups of squad-designated marksmen for his battalion. In this book, he lays out an easily understood method for getting the most out of whatever rifle you are using. After discussing rifle, ammunition, and optic selection, he reveals his tried-and-true methods of gathering and recording data. He takes you step-by-step through the process of discovering how to make your rifle perform at its peak with every shot. In this book you will also learn how to adjust for environmental factors and obstructions that lie between you and your target, and discover why hand loading and building your own precision cartridges is an extra step well worth taking. Whether you are a civilian or in the military or law enforcement, all shooting sports using long guns become more rewarding and enjoyable when the shooter gains a useful understanding of the external ballistics of his rifle.

Lady Death Lyudmila Mykhailvna Pavlichenko,2018-09-05 Arguably the finest account of sniping during World War II. – Adrian Gilbert, author of Challenge of Battle. Undoubtedly literature’s most remarkable account of sniper action. – Charles W. Sasser, former US Army Special Forces soldier and author of One Shot–One Kill Lyudmila Pavlichenko was one of the most successful – and feared – female snipers of all time. When Hitler launched Operation Barbarossa in June 1941 she left her university studies to join the Red Army. Ignoring offers of positions as a nurse she became part of Soviet Russia’s elite group of female snipers. Within a year she had 309 confirmed kills, including 29 enemy sniper kills. Renowned as the scourge of German soldiers, she was regarded as a key heroic figure for the war effort and, in 1942, on Stalin’s personal orders, she travelled as part of a Soviet delegation to the West, fundraising in Canada, Great Britain and the USA. Dubbed ‘Lady Death’, she spoke out about gender equality in the Red Army and made the case for the USA to continue the fight against the Nazis in Europe. The folk singer Woody Guthrie wrote a song about her exploits – ‘Miss Pavlichenko’ – and she visited the White House, where she formed an unlikely but long-lasting friendship with Eleanor Roosevelt. In November 1942 she visited Coventry and accepted donations of £4,516 from Coventry workers to pay for three X-ray units for the Red Army. She also visited a Birmingham factory as part of her fundraising tour.

A Sniper in the Arizona John Culbertson,2008-12-30 Morning was always a welcome sight to us. It meant two things. The first was that we were still alive. . . . In 1967, death was the constant companion of the Marines of Hotel Company, 2/5, as they patrolled the paddy dikes, mud, and mountains of the Arizona Territory southwest of Da Nang. But John Culbertson and most of the rest of Hotel Company were the same lean, fighting Marines who had survived the carnage of Operation Tuscaloosa. Hotel's grunts walked over the enemy, not around him. In graphic terms, John Culbertson describes the daily, dangerous life of a soldier fighting in a country where the enemy was frequently indistinguishable from the allies, fought tenaciously, and thought nothing of using civilians as a shield. Though he was one of the top marksmen in 1st Marine Division Sniper School in Da Nang in March 1967--a class of just eighteen, chosen from the division's twenty thousand Marines--Culbertson knew that against the VC and the NVA, good training and experience could carry you just so far. But his company's mission was to find and engage the enemy, whatever the price. This riveting, bloody first-person account offers a stark testimony to the stuff U.S. Marines are made of.
