Holy Bible Recovery Version Living Stream Ministry, Throughout the centuries, translations of the Bible have steadily improved. In general, each new translation inherits from previous ones and opens the way for later ones. While a new translation derives help from its predecessors, it should go further. The Recovery Version of the New Testament, following the precedent set by the major authoritative English versions and taking these versions as reference, not only incorporates lessons learned from an examination of others' practices but also attempts to avoid biases and inaccurate judgments. This version, frequently guided by other versions, attempts to provide the best utterance for the revelation in the divine Word, that it may be expressed in the English language with the greatest accuracy. Translating the Bible depends not only on an adequate comprehension of the original language but also on a proper understanding of the divine revelation in the holy Word. Throughout the centuries the understanding of the divine revelation possessed by the saints has always been based upon the light they received, and this understanding has progressed steadily. The consummation of this understanding forms the basis of this translation and its footnotes. Hence, this translation and the accompanying footnotes could be called the "crystallization" of the understanding of the divine revelation which the saints everywhere have attained to in the past two thousand years. It is our hope that the Recovery Version will carry on the heritage that it has received and will pave the way for future generations. As with any New

Testament translation, the determination of the original Greek text, based upon the available manuscripts, forms the basis for the text of the Recovery Version of the New Testament. The Recovery Version follows, for the most part, the Nestle-Aland Greek text as found in Novum Testamentum Graece (26th edition). However, in determining the original form of any verse, the translators of the Recovery Version gave careful consideration to the larger context of chapter and book and to similar portions of the New Testament. The most recently discovered manuscripts or the manuscripts of oldest date are not necessarily the most accurate or reliable; hence, the determination of the text for this version was based largely upon the principle stated above. Departures from the Nestle-Aland text are sometimes indicated in the footnotes. Italicized words in the verses indicate supplied words, not found in the Greek text. Quotation marks are used to indicate close quotation from the Old Testament. The Recovery Version embodies extensive research into the meaning of the original text and attempts to express this meaning with English that is to the point, easy to understand, and readable. In those places where it is difficult to express the exact meaning of the original Greek, explanatory footnotes have been supplied. The subject provided at the beginning of each book and the outline of each book take the historical facts as their base and express the spiritual meaning in each book. The footnotes stress the revelation of the truth, the spiritual light, and the supply of life more than history, geography, and persons. The cross-references lead not only to other verses with the same expressions and facts but also to other matters related to the spiritual revelation in the divine Word.

The Formation of Genesis 1-11 David M. Carr, 2020-05-04 There is general agreement in the field of Biblical studies that study of the formation of the Pentateuch is in disarray. David M. Carr turns to the Genesis Primeval History, Genesis 1-11, to offer models for the formation of Pentateuchal texts that may have traction within this fractious context. Building on two centuries of historical study of Genesis 1-11, this book provides new support for the older theory that the bulk of Genesis 1-11 was created out of a combination of two originally separate source strata: a Priestly source and an earlier non-Priestly source that was used to supplement the Priestly framework. Though this overall approach contradicts some recent attempts to replace such source models with theories of post-Priestly scribal expansion, Carr does find evidence of multiple layers of scribal revision in the non-P and P sources, from the expansion of an early independent non-Priestly

primeval history with a flood narrative and related materials to a limited set of identifiable layers of Priestly material that culminate in the P-like redaction of the whole. This book synthesizes prior scholarship to show how both the P and non-Priestly strata of Genesis also emerged out of a complex interaction by Judean scribes with non-biblical literary traditions, particularly with Mesopotamian textual traditions about primeval origins. The Formation of Genesis 1-11 makes a significant contribution to scholarship on one of the most important texts in the Hebrew Bible and will influence models for the formation of the Hebrew Bible as a whole.

Genesis 1-11 David M. Carr, 2021-01-13 This commentary offers a synthesis of close readings of Genesis 1-11 and up-to-date study of the formation of these chapters in their ancient Near Eastern context. Each interpretation of these evocative and multilayered narratives is preceded with a new translation (with textual and philological commentary) and a concise overview of the ways in which each text bears the marks of its shaping over time. This prepares for a close reading that draws on the best of older and newer exegetical insights into these chapters, a reading that then connects to feminist, queer, ecocritical, and other contemporary approaches.

Noah and the Deluge: Chronological, Historical and Archaeological Evidence

Gerard Gertoux, 2015-10-19 Historians consider the biblical account of Noah and the Deluge as a myth. However, this famous event occurred at the earliest times of recorded history (Sumerian King List). Today scientists believe in the last ice age called Pleistocene ending in 10,000 BCE, but there is no witness of this planetary cataclysmic event and its existence is based solely on the controversial interpretation of its consequences and their dating. The existence of erratic blocks and the disappearance of mammoths are presented as evidence of the last glaciation. However, despite dating obtained by ¹⁴C (calibrated by dendrochronology) is considered absolute by most experts its confrontation with the Egyptian chronology, in which some dates are fixed by astronomy, reverses this widespread belief and shows that dates obtained by ¹⁴C increase exponentially before -2200. Thus the rate of ¹⁴C tends gradually to 0 around -3500, which implies an important consequence: before -3500, ¹⁴C dating is no longer possible.

Studies in the Reception of the *Historia Scholastica* of Peter Comestor

Maria Sherwood-Smith, 2000 The *Historia Scholastica* (circa 1170) mingles biblical narrative, Jewish legends, and commentary, and was a popular source of biblical material for authors until the Reformation. Maria Sherwood-Smith gives an introduction to the sources and transmission of the Latin work before investigating its reception in detail in two thirteenth-century German works, the *Schwarzwälder Predigten* and the *Weltchronik* of Rudolf von Ems. Briefer analyses of Jacob van Maerlant's *Scholastica* and the *Historiebijbel*

van 1360 provide further context. Looking in this way at the different functions the work fulfils for later authors, one discerns a growing awareness of the distinction between it and the text of the Bible. It is suggested that this enhances the *Historia Scholastica*'s reputation as a safeguard of orthodoxy.
