Adam Drake

Grim, the Gnoll Ted W. Wooley, 2013-10 Char'grim was a scout for the Gull Clan, the largest clan of gnolls in all of Lanzen. But, he was banished just before the clan was destroyed. Having started a new, lonely, and senseless life, Char'grim soon changes his name to Grim and wanders the land in search of purpose. Not far away, warriors from the city of Dunzen investigate a dark threat while chasing the infamous Black Ranger. When their paths collide, Grim must choose his new path in life. He must choose to be a warrior or a wanderer and whether he can be the people's hero or remain a savage monster.

The Monsters Know What They're Doing Keith Ammann, 2019-10-29 From the creator of the popular blog *The Monsters Know What They're Doing* comes a compilation of villainous battle plans for *Dungeon Masters*. In the course of a *Dungeons & Dragons* game, a *Dungeon Master* has to make one decision after another in response to player behavior—and the better the players, the more unpredictable their behavior! It's easy for even an experienced DM to get bogged down in on-the-spot decision-making or to let combat devolve into a boring slugfest, with enemies running directly at the player characters and biting, bashing, and slashing away. In *The Monsters Know What They're Doing*, Keith Ammann lightens the DM's burden by helping you understand your monsters' abilities and develop battle plans before your fifth edition D&D game session begins. Just as soldiers don't whip out their field manuals for the first time when they're already under fire, a DM shouldn't

wait until the PCs have just encountered a dozen bullywugs to figure out how they advance, fight, and retreat. Easy to read and apply, *The Monsters Know What They're Doing* is essential reading for every DM.

The Gnoll Credo J. Stanton, 2010 We are born and we die. No one cares, no one remembers, and it doesn't matter. This is why we laugh. There are no such things as gnolls, they never kill and eat people, and they can't read or write -- much less write something so stark, so raw, so beautifully bleak. Right? Because if there were, someone might have risked a violent and painful death to find them, study them, and bring back this book. Then you might read it. And then you might have a joyous and bloody and terribly strange adventure, and you might find yourself laughing with the gnolls. And then what? From a world in which *Avatar* is *Fight Club* instead of Disney's *Pocahontas*, James Tiptree, Jr. wrote *The Dice Man*, and magic doesn't work any better than it does here... ..we bring you *The Gnoll Credo*. Sell that 'enchanted' sword and come join the hyena-people. Don't wear your good clothes. You can read sample chapters at <http://www.100wattpress.com>

Frostgrave: Into the Breeding Pits Joseph A. McCullough, 2016-07-28 With this new supplement for *Frostgrave*, players can lead their warbands into the vast network of catacombs, sewers, and dungeons that run underneath the Frozen City. It was in these dark confines that the ancient wizards known as Beastcrafters experimented on living creatures, creating strange hybrids and deadly monsters, many of which still roam the

forgotten passageways. Along with a host of new scenarios, treasures, soldiers, and creatures, the book also contains rules for the traps and secret passages that are often found in the dungeons. With wonderful and rare magical treasures to be discovered, will players risk taking their warbands down into the Breeding Pits?

Mordenkainen Presents: Monsters of the Multiverse (Dungeons & Dragons Book) Dungeons & Dragons, 2022-05-17 A bestiary of wondrous friends and foes for the world's greatest roleplaying game Sparkling with the musings of the wizard Mordenkainen, this tome features a host of creatures for use in the Dungeons & Dragons roleplaying game. Compiling and updating monsters that originally appeared in previous D&D fifth edition releases, these creatures represent some of the most benevolent and malevolent forces that D&D heroes might face. The book also gathers together fantastical peoples from many different worlds. Each of these peoples represents a race option when you create your D&D character, expanding on the choices in the Player's Handbook. Includes more than 250 monsters—updates to the monsters include making spellcasters easier for Dungeon Masters to run, giving many monsters more damage and resilience, and improving the organization of the stat blocks themselves Includes more than 30 playable races—brings the game's setting-agnostic races into one book, complementing the races in the Player's Handbook A multiverse of lore—includes updates to monster lore that refocuses their stories on the D&D multiverse, rather than on any particular world

Frostgrave: Perilous Dark Joseph A.

McCullough, 2019-10-31 There are many tales of the Frozen City, and not all of them tell of battles between rival wizards. Often, the greatest adventures are those that pit a wizard and his trusty warband against the myriad perils found amidst the ruins of Felstad. This new supplement for Frostgrave presents rules for playing solo and cooperative games in which the focus shifts from the feuds of wizards to exploring the city, unlocking its mysteries... and surviving what is discovered. With guidelines for scaling game difficulty, dungeon crawls, monster generation, and more, as well as ten scenarios demonstrating these options, this volume offers players everything they need to venture alone – or with allies – into Frostgrave. Why should wizards fight amongst themselves? There is plenty of treasure for all and the Frozen City is enemy enough!

Silver, 2014-02-14 Adventure in the world of Everglow, nestled in delicate balance between the elemental planes. It is a world of magic and mystery, where the fey are in control and the humanoid races are secondary. Foremost of the fey are Ponykind, who rallied behind their Queen to form the greatest empire Everglow had ever seen. We've brought ponies, griffons, felines, and other strange creatures to life in a world all of their own, where they are the primary PCs. Don't want to run a game all about ponies? That's alright! Use our post-empire suggestions to add ponies to any other existing world. Many spells, archetypes, and bloodlines are also usable by non ponies or other settings. My life quickly morphed from one of peace, to one of pure savagery.
