*From High-Tech to High Plains* Philip May,2010-12 Born in England, Phil came to the US with his wife Tracey and two young children looking to discover America and start a new life together in the Bay Area, California. What they found was a mismanaged state, an unhealthy environment and a overly political stifling corporate culture. Join Phil as he takes you through leaving his job as a high-tech executive and sets off in an RV to discover America, himself and his family. His brutally honest approach, zanny British humor and factual information make this part autobiography and part travel/RV guide book informative, hilarious and thought provoking.

**Solder Achieved** Robert D. Hack,2011-01-21 Belief is the answer. The territory of Lan Lumen fell almost five thousand years ago to the forces of the Dark One's Lieutenant, the Dark Seneschal. A being from another realm of existence Using his Flawed, his Dark Flow, and his Bone Strippers he exterminated the Halfling race, trapped the Holys and then exterminated the Human race. Permanently unbalancing the Earth Mother and this Realm of existence. Using the conquered six Prime Races of the Dark from already conquered Lan Atriam against the remaining four Prime Races of the Light he systematically attacked and destroyed or occupied each of their Ancestral Homes crumbling their power and weakening the Earth Mother even more. The Faerie Grove was destroyed , it's Archnode sunk into the swamp. Crushing the Faerie and scattering them across the South Lands to fend for themselves. The Halfling City of Dulamar became the Dark Seneschal's capital and the Halfling Archnode was encased in stone. The City of the Gnomes ,Wiseholm Rectory was occupied and enslaved. But the Archnode was hidden and remains undiscovered to this day. The Elven Ancestral fortress of Mia Tera fought bravely but with out her allies she eventually fell. The Elven Royals were able to escape and fled to the Secluded Vale in the Barrier Mountains where they remain hidden. But Mia Tera was Occupied by the Dark Ones and her Archnode covered from the Earth Mothers Eyes. Domitable the Great Dwarven Fortress fought on for five seasons they resisted till they were betrayed from within and the fortress fell. It too is now occupied and it's Archnode hidden from the light. Of all the Ancestral Homes of the Prime Races of the Light only Atalan the Ancestral Home of the Humans remains untouched. Though not for lack of trying. Atalan is protected by Hawser and the other five Ore Guardians. when the Dark Seneschal attacked. Hawser alone defeated them in short order. The Seneschal sent his Flawed his Dark Flow and even his elite Bone Strippers, all creatures not of this realm, and Hawser defeated them. Finally the Dark Seneschal decided since there were no more Humans and the Ore Guardians had to stay near Atalan. There was no threat here and he withdrew. The Humans were gone from the realm so the Atalan Archnode dimmed and ceased to function as well. Even the Human's allies the Wolves and the Gryphons pulled back from any conflict to their strong places. The Wolves staying to their traditional hunting grounds and the Gryphons to their plateau aerie fading completely from the memory of many. The attack was efficient and succeeded. Lan Lumen became the Dark Seneschal's to do with as he pleased. But he had made one error. When he destroyed the Halflings and before the final battle with the Humans he cast a spell to trap the Holys the spiritual guide for each of the twelve Prime Races. He however mistakenly believed that because the Halflings were extinct their Holy was dead as well. His casting trapped eleven of the Holys, but there were still twelve. Since each Holy was trapped where he or she was at the time of the casting The Earth Mother, her powers dwindling, was only able to hide their location from the Dark Seneschal. He knows the are trapped but not where to find them. But he searches. For five thousand years he searches. Because he knows the killing of a Holy is an imbalance the Earth Mother can never repair. When a Holy dies she is gone forever. An Elven princess of both warrior and spiritual cast, a Faerie Swords Master and three Tarc, disgraced ones who accompany them hoping to reach achieved status and gain the honored rank of Arc, and the last Holy. These six form a team. Their task is to find and then expedite the repopulation of Lan Lumen with Humans. A realm where some animals are as intelligent as the Prime Races. Where oceans are bodies of water and seas are living things. Where creatures of legend and prehistory live. The realm of the ancient scholar Dar

*The Virtual Future* William Sims Bainbridge,2011-09-06 The newest communication technologies are profoundly changing the world's politics, economies, and cultures, but the specific implications of online game worlds remain mysterious. The Virtual Future employs theories and methods from social science to explore nine very different virtual futures: The Matrix Online, Tabula Rasa, Anarchy Online, Entropia Universe, Star Trek Online, EVE Online, Star Wars Galaxies, World of Warcraft: Burning Crusade, and The Chronicles of Riddick. Each presents a different picture of how technology and society could evolve in coming centuries, but one theme runs through all of them, the attempt to escape the Earth and seek new destinies among the stars. Four decades after the last trip to the moon, a new conception of spaceflight is emerging. Rather than rockets shooting humans across vast physical distances to sterile rocks that lack the resources to sustain life, perhaps robot space probes and orbiting telescopes will glean information about the universe, that humans can then experience inside computer-generated environments much closer to home. All nine of these fantastically rich multiplayer masterpieces have shown myriads of people that really radical alternatives to contemporary society could exist, and has served as a laboratory for examining the consequences. Each is a prototype of new social forms, a utopian subculture, and a simulation of technologies that have yet to be invented. They draw upon several different traditions of science fiction and academic philosophy, and they were created in several nations. By comparing these nine role-playing fantasies, we can better consider what kind of world we want to inhabit in the real future.

It is high time someone recorded (almost) everything they ever made, and put a date to it, so that future generations can make sense of what was happening in U.K. kitchens, in business, in industrial design and in manufacturing. The first item off the production line, the Turnover Toaster, was made by Roger Laurence and Kenneth Wood in 1947, and over a hundred separate domestic objects would follow over the next thirty years. Inside this book, you will find full-colour photographs, descriptions and original retail prices of these mixers, accessories and appliances, right up to the model A901 Chef, first launched in 1976. Among many others, this book covers the A100 Turnover Toaster, A200 Mixer, A700 Chef, A600 Activair, A701/A Chef, A724 Mk I and II Coffee Mills, A740 Juice Extractor, A500 Roto-Blend, A955 Kenmix Blender, A1212 Dishwasher, A520 Blender, A888 MatchMaker Rollers and A180 Sodastream. If you are a collector, historian, hobbyist, enthusiast, or just like looking at pictures of old domestic objects and lovely design, this book is for you. Inside: how they competed with the likes of Sunbeam, KitchenAid and Moulinex; from their origins in Woking to their current site in Havant; the expectations of women in the home from the 1950s, through the 1960s and into the 1970s; the restrictions upon food preparation and baking from the effects of rationing; the relative cost of these appliances to average earnings at the time; sexist advertisements; beautiful vintage kitchenware and kitchenalia; and much, much more!
