Cloth of Gold Thomas Bailey Aldrich,1874

The Field of Cloth of Gold Joycelyne Gledhill Russell,1969 The 1520 meeting is a last flourish in the history of Christendom undivided. The present study is based on first-hand evidence of an event which seemed at the time one of the great moments in history. Dr Russell presents the whole story as a commentary on the diplomacy, society and amusements of the time.

Gold Cloths of Sumatra Susan Rodgers,Anne Summerfield,John Summerfield,2007 Songket textiles are gleaming presige cloths created when hand-loom weavers add metal-wrapped threads to create intricate bands of geometric and botanical designs. Employing a weaving technique that is hundreds of years old in Malaysia, Sumatra, coastal Kalimantan, and east Bali and nearby idlands, songket artistry is a thriving, living, even expanding art form, as a marketable commodity, for sale as heritage textile and collectible. Susan Rodgers is professor of anthropology a the College of the Holy Cross, Worcester, Massachusetts.

The Field of Cloth of Gold Glenn Richardson,2014-01-07 "Pomp, pageantry and epic showing-off: a vivid re-creation of the 1520 peace-promoting rally between the kings of England and France."—The Sunday Times Glenn Richardson provides the first history in more than four decades of a major Tudor event: an extraordinary international gathering of Renaissance rulers unparalleled in its opulence, pageantry, controversy, and mystery. Throughout most of the late medieval period, from 1300 to 1500, England and France were bitter enemies, often at war or on the brink of it. In 1520, in an effort to bring conflict to an end, England's monarch, Henry VIII, and Francis I of France agreed to meet, surrounded by virtually their entire political nations, at "the Field of Cloth of Gold." In the midst of a spectacular festival of competition and entertainment, the rival leaders hoped to secure a permanent settlement between them, as part of a European-wide "Universal Peace." Richardson offers a bold new appraisal of this remarkable historical event, describing the preparations and execution of the magnificent gathering, exploring its ramifications, and arguing that it was far more than the extravagant elitist theater and cynical charade it historically has been considered to be. "A sparkling new account of the Field of Cloth of Gold as an extraordinary demonstration of ostentatious rivalry."—Suzannah Lipscomb, author of *A Journey Through Tudor England* "Richardson's book seeks to throw new light on what we know of the Field itself: from how it was organized, provisioned and enacted, to the reasons such a sensational junket should have mattered—and in this it undoubtedly succeeds."—London Review of Books

The Field of the Cloth of Gold Magnus Mills,2016-08-09 The Great Field lies in the bend of a broad, meandering river. Bounded on three sides by water, on the fourth side it dwindles gradually into wilderness. A handful of tents are scattered far and wide across its immensity. Their flags flutter in the warm

breeze, rich with the promise of halcyon days. But more and more people are setting up camp in the lush pastures, and with each new arrival, life becomes a little more complicated. And when a large and disciplined group arrives from across the river, emotions run so high that even a surplus of milk pudding can't soothe ruffled feathers. Change is coming; change that threatens the delicate balance of power in the Great Field. Magnus Mills's new novel takes its name from the site of a 1520 meeting between Henry VIII and Francis I of France, to improve relations between the countries as the Treaty of London deteriorated. It allegorically suggests a number of historical encounters on British soil: the coming of the Vikings, the coming of the Romans. But *The Field of the Cloth of Gold* sits firmly outside of time, a skillful and surreal fable dealing with ideas of ownership, empire, immigration, charisma, diplomacy, and bureaucracy. It cements Magnus Mills's status as one of the most original and beloved novelists writing today.

The Field of Cloth of Gold; Men and Manners in 1520 Joycelyne Gledhill Russell, 1969

Wool, Cloth, and Gold John H. A. Munro, 1972

Darnley: The Field of the Cloth of Gold George Payne Rainsford James, 2015-11-25 On the morning of the 24th day of March, 1520, a traveller was seen riding in the small, rugged cross-road which, traversing the eastern part of Kent, formed the immediate communication between Wye and Canterbury. Far be it from me to insinuate that this road pursued anything like a direct course from the one place to the other: on the contrary, it seemed, like a serpent, to get on only by twisting; and yet truly, as its track now lies pictured on the old county map before me, I can discover no possible reason

for its various contortions, inasmuch as they avoid neither ascents nor descents, but proceed alike over rough and smooth, hill and dale, appearing only to wind about for the sake of variety. I can conceive the engineer who planned it laughing in his sleeve at the consummate meanderings which he compelled his travellers to undergo. However, as at the time I speak of this was the only road through that part of the country, every traveller was obliged to content himself with it, such as it was, notwithstanding both its circumvolutions and its ruggedness. Indeed, the horseman and his beast, who on the afore-mentioned morning journeyed on together towards Canterbury, were apparently well calculated to encounter what the profane vulgar call the ups and downs of life; for never a stouter cavalier mounted horse, and never a stouter horse was mounted by cavalier; and there was something in the strong, quadrate form of each, in the bold, free movement of every limb, and in the firm, martial regularity of their pace, which spoke a habitual consciousness of tried and unfailing power. The rider was a man of about five or six-and-twenty, perhaps not so old; but the hardy exposed life which had dyed his florid cheek with a tinge of deep brown, had given also to his figure that look of set, mature strength which is not usually concomitant with youth. But strength with him had nothing of ungracefulness, for the very vigour of his limbs gave them ease of motion. Yet there was something more in his aspect and in his carriage than can rightly be attributed to the grace induced by habits of martial exercise, or to the dignity derived from consciousness of skill or valour: there was that sort of innate nobility of look which we are often weakly inclined to combine in our minds with nobility of station, and that peculiar sort of grace which is a gift, not an acquirement. To paint him to the mind's eye were very difficult, though to describe him were very easy; for though I were to say that he was a tall, fair man, with the old Saxon blood shining out in his deep blue eye, and in his full, short upper lip, from which the light brown moustache turned off in a sweep, exposing its fine arching line; though I were to speak of the manly beauty of his features, rendered scarcely less by a deep scar upon his forehead; or were I to detail, with the accuracy of a sculptor, the elegant proportion of every limb, I might, indeed, communicate to the mind of the reader the idea of a much more handsome man than he really was; but I should fail to invest the image with that spirit of gracefulness which, however combined with outward form, seems to radiate from within, which must live to be perfect, and must be seen to be understood.

Darnley Or the Field of the Cloth of Gold, Vol. 2 (Classic Reprint) George Payne Rainsford James, 2017-07-22 Excerpt from Darnley or the Field of the Cloth of Gold, Vol. 2 Thus every thing between them was explained, every thing was known: there was no coldness, there was no reserve, there was none of that idle and base coquetry Which delights in teasing a heart that loves. Constance de Grey loved, sincerely, openly, and she had too high an esteem for the man she had chosen, to suppose that the acknowledgment of that love could make it less worthy in his eyes. Happy indeed it was for them both that the most perfect confidence did exist between them, for Henry had conceived the project of marrying the young knight to Lady Katrine; and though the queen, with the instinctive perception of a woman in those matters, soon saw that such a plan would very little accord with the feelings of either party, and quickly-discouraged ii'; yet Henry, giving way to all his own impetuosity, hurried it on with precipitation, took every occasion to force

them together, and declared that he would have them married as soon as the court returned from the meeting with the French king at Guisnes. Darnley, Or the Field of the Cloth of Gold, Vol. 1 of 2 (Classic Reprint) George Payne Rainsford James, 2017-05-11 Excerpt from Darnley, or the Field of the Cloth of Gold, Vol. 1 of 2 Here have I bestowed more than a page and a half upon the description of a man's dress and derricanour, which. Under most circumstances, I should consider a most scandalous and illegitimate waste of time, paper, and attention but, in truth, I would fain, in the present instance, that my reader should see my traveller before his mind's eye, exactly as his picture represents him, m along the road on his strong black horse, with his chest borne ?ward, his heel depressed, his person erect, and his whole gure expressing corporeal ease and power. Darnley; or, The Field of the Cloth of Gold G. P. R. James, 2021-05-19
Darnley by G. P. R. James is a novel about the king of England, Henry VIII (1491-1547). The history of Great Britain (1506-1547), the gorgeous festivities of Midsummer (1520), as well as the character of King Henry VIII., are admirably conceived and described. Excerpt: To paint him to the mind's eye were very difficult, though to describe him were very easy; for though I were to say that he was a tall, fair man, with the old Saxon blood shining out in his deep blue eye, and in his full, short upper lip, from which the light brown moustache turned off in a sweep, exposing its fine arching line; though I were to speak of the manly beauty of his features, rendered scarcely less by a deep scar upon his forehead; or were I to detail, with the accuracy of a sculptor, the elegant proportion of every limb, I might, indeed, communicate to the mind of the reader the idea of a much more handsome man than he really was; but I should fail to invest the image with that spirit of gracefulness which, however combined with outward form, seems to radiate from within, which must live to be perfect, and must be seen to be understood.
