*The Golden Eagle and the Fiddle of Doom: 2 Protectors of Weapons* Fergal Joe, 2010-10-01 This story is about a man called Rhymes Ramose and the way he tried to destroy the world after a man called King Hovercraft killed his sister Hanneck Ramose. It also tells the story about how people tried to stop him from destroying the world for Rhymes Ramose holds the rest of us responsible for his sisters death. This is the second book in the series the way the last story began. The story begins when a plane crashes in a desert. The pilot asks a man called Captain John Coiners why a ship is left in the desert. The pilots name is Keith Black. John tells him that he was the captain of the ship and that the ship is called the Red Dragon. He also tells him the history about how they found the Fiddle of Doom and that his son Michael burnt a Golden Eagle and that Michael was put into prison. He tells Keith that he would do anything for his son. He tells Keith Black about a man called Treeon Littlewood and the story that he told him and the crew of the Red Dragon. The way the first book ended and the way the second book begins. Thousand Boil meets The Black Knight and everyone from the Underworld heads off to Africa to try and find the weapons that are buried in a Mountain called Mount Kina. Rhymes Ramose and his army have come to earth and are starting to take out the human race. They also meet a prince called Prince Indiana Jones who is the son of King Dave Jones. King Dave Jones has gone with Thousand Boil and his army to Africa. When they get there they meet up with two giants, their names are Big-foot and Horses-ash. They are the keepers of the gates and the protectors of weapons. They are standing outside Mount Kina and they are there to stop people from taking the weapons out of Mount Kina. However when they hear that the Black Knight is with Thousand Boil they let some of Thousand Boils army walk into the mountain. As soon as Thousand Boil sees the weapons he and his men take them out of the mountain and the story begins. You might be wondering where

this story came from. Well I will tell you. It came into my head after I was watching a program called Horizons. On the program I heard them talking about a desert that turns into a sea every now and again. So I thought to myself if a desert can turn into a sea then why not have a sea turn into a desert? Then I thought to myself, why would anyone want to go to a place like that? So I thought what if someone had burnt a rare bird like a golden eagle and was put into prison and the only way that they could get out was for someone else to find one to replace the one that was burnt. So I started to write the story then I thought it would be really boring telling a story like that. Then the Lord of the Rings came out and I got my thinking cap on and thought instead of having a ring with power why not have a fiddle with the power to take an immortal's soul. Then I started thinking what would be the best way to start to tell the story of the history of the fiddle of Doom so I decided to have it placed in a cave and for one of the crew of the Red Dragon to play it. Then I thought, why not have an immortal to tell the history behind the fiddle of Doom? Then along came Treeon Littlewood to tell the story. So I hope you like the story for if you do I will write another one for I am hoping to write three books on this subject. It has taken me about two years to write this story so I would like for someone to buy it so that my work will not be in vain. I would also like people to tell me what they think of it.

**The Eagle** Jack Whyte,2016-02-02 Beginning with The Skystone, the first in his riveting Camulod Chronicles, Jack Whyte has embarked on an ambitious and remarkable re-telling of the Arthurian cycle, giving us a fresh and compelling take on a story that has been beloved for centuries. The Eagle brings us at last to the heart of the tale, the creation of fabled Camelot and the love story that enshrined its glory. Whyte takes us into the minds and lives of Arthur, Guinevere, and Lancelot, three astonishing but fallible people who were bound together by honor, loyalty, and love. Three who created the glory that was Britain's shining dream...and, some say, caused its downfall. The Gaulish nobleman Clothar—known in our time as Lancelot—is drawn to the young High King's court by tales of honor and nobility, where he meets a man whose love of law matches his own. More, he finds in Arthur a life-long friend whose dream of uniting the people of Britain in peace Clothar embraces. And Clothar meets Arthur's queen, a wondrous beauty whose passion and ideals match her husband's. Together they work to bring Arthur's dream to life. But dark forces rise in opposition to Arthur's plans for creating this noble island nation and it is hard to tell friend from foe in the swirling chaos that ensues. Many tales have been told of the dream that shined and died. This one will astonish even the most jaded. *The Sword of David* Don McCarthy,2013-11-14 Founded in 1948, the Israeli Air Force has seen involvement in some of the most dramatic and important conflicts of post-War history. In action during the Suez crisis and on call during the Gulf War, the Force continued to see active deployment right through to the 2006 Lebanon War and beyond into recent conflicts in Gaza. This is a timely release therefore, setting recent events in historical context, and illustrating these key operations with a range of impressive colour photographs, many of which have never been published before. As we approach the Sixty Fifth Anniversary of the founding of the Force, it seems fitting that a photographic record should be published. ??Don McCarthy is an established and well-respected aviation historian and as such is particularly well placed to produce such a work. Controversial contemporary conflicts between Israel and Iran make the publication of this record particularly pertinent, illustrating the history of these on going disputes and the conflicts that prefigured them.

Included are images of iconic relics such as the historic Mirage and Skyhawk, as well as photographs of modern craft such as F-15s and F-16s. This library of images work to paint an engaging history of the Force, a presence in the skies for sixty five years.
