

Graf Spee

Eric Dorn Brose,Professor Department of History and Politics Eric Dorn Brose

In the Wake of the Graf Spee Enrique Dick,2014-12-16 This is an indispensable book for anyone wanting to know more about the before, during and after the Battle of the River Plate, the naval tactics that were employed, the games of diplomacy, the honour of the captains and crews, and the ground-breaking technology involved. The book takes a balanced view of pre-war and post-war events that shaped those years and of Argentina's willingness to take the crew of the Graf Spee in and offer them refuge, which proved to be beneficial to both communities. For those with an interest in social history, the book tells the fascinating story of the changes that the arrival of 200 young German sailors in the foothills of the Sierras de Córdoba meant for what in 1940 had been a small village, Villa General Belgrano, where their traditions still endure. The technical details of the Graf Spee are set out in an Appendix at the back of the book where readers with an interest in such things will be able to find a comprehensive description of her own fascinating story and details of her armaments and capabilities in both words and numbers. The illustrations have been carefully selected in an attempt to reflect what that era was really like and the context in which she was built. Contents include: The Kriegsmarine; Life on board; The outbreak of war; Battle stations; Buenos Aires to Capilla Vieja; Illustrious name, Illustrious ship and both the early and final years.

German Capital Ships and Raiders in World War II: From Graf Spee to Bismarck, 1931-1941 Eric Grove,2002

The German Pocket Battleship Admiral Graf Spee Stefan Draminski,2015-04-02 The Deutschland-class ships were the first heavy vessels of the German Navy after the First World War. In Germany they were classified as Panzerschiffe, but in other countries the term pocket battleships was very popular. The third and last vessel of this class was Admiral Graf Spee. She was laid down on 1 October 1932, launched on 30 June 1934 and commissioned on 6 January 1936. During the Spanish Civil War the ship patrolled coastal waters of this country. Before the outbreak of the Second World War, on 21 August 1939 the ship steamed out for the Atlantic. From 26 September she was fighting Allied shipping, sinking nine British vessels. On the morning of 13 December Graf Spee encountered a group of Allied warships (the heavy cruiser HMS Exeter and light cruisers HMS Ajax and HMNZS Achilles) near South American coast. The gun battle that ensued went to the history as the Battle of the River Plate. Both the Exeter and her German enemy were damaged during the course of the engagement. The commander of Graf Spee, Kapitän zur See Hans Langsdorff decided to break off the battle and enter the nearby port of Montevideo in Uruguay. According to the international law the German corsair could not stay in a neutral port longer than 72 hours. Convinced that massive British forces were concentrating in the vicinity and hence the escape was impossible, Langsdorff decided to save the crew and scuttle the ship. On 17 December Admiral Graf Spee steamed to the roadstead and there the explosive charges were fired. The German ship sunk in shallow waters and her commander shot himself three days later in a hotel in Buenos Aires. The wreckage was penetrated even during the war by British divers in order to recover more valuable items and obtain information about German technology. In the post-war years many single parts of the ship were recovered.

Admiral Graf Spee Mirosław Skwiot,Stefan Damiński,2013-06-19 The text part of this book describes technical specifications of the ship and her operational history in detail. This is accompanied by more than 100 color illustrations showing Admiral Graf Spee's appearance during the Battle of River Plate. Elements that are shown in detail include armament, rangefinders, radar, searchlights, catapult with aircraft, etc. In addition, superstructure's different camouflage schemes from the 1939 raid are shown. Blueprints in 1:350, 1:200, 1:100 and 1:50 scales (general views and details) are included on a separate sheet. This publication is an invaluable help to any modeler working on this ship's replica. **REVIEWS** Tackling Trumpeter's 1:350 kit? Fact-checking 1:700 offerings? River Plate 1939 Angus Konstam,2016-08-25 Days before the outbreak of World War II a handful of German commerce raiders put out to sea to prey on Allied merchantmen. Amongst them was the Panzerschiff ('armoured ship') Graf Spee, a formidable warship that boasted the firepower of a battleship but the size, speed and range of a cruiser. When World War II commenced, under the command of Captain Langsdorff the Graf Spee began a hunting spree across the South Atlantic and the Indian Ocean that eventual took her to the River Plate in search of her next victim – an Allied convoy. Instead she found three Royal Navy cruisers under the command of Commodore Harwood, eager to put an end to the 'pocket battleship' that had been terrorizing Allied merchant ships. Featuring full colour artwork, archive photographs and meticulous research, this comprehensive volume explores the thrilling story behind the Battle of the River Plate, an engagement that unquestionably demonstrated the effectiveness of British seapower and diplomacy on an international stage.

The Last Voyage of the Graf Spee Michael Powell,1976

The Battle of the River Plate Dudley Pope,2005-01-01 This tale of the Battle of the River Plate follows the machinations of the German war machine as Kapitän zur See Hans Langsdorff commands the pocket battleship Graf Spee on a mission to cripple British shipping. Through clever subterfuge and daring, the Graf Spee takes ship after ship, ultimately forcing the British Navy to send twenty ships in search of the elusive German vessel. Pope presents a true, enthralling account of the men, ships, and tactics that culminated in this naval action which so brilliantly began Britain's war at sea.

German Capital Ships and Raiders in World War II Eric Grove,2013-10-08 This is a compendium volume of three Battle Summaries or Naval Staff Histories produced soon after the war by the Naval Historical Branch of the Admiralty. Originally classified and designed for internal use only, these histories are published here for the first time. The documents in this book cover the actions during the period 1939-1941 that resulted in the sinking or immobilising of the German Warships Bismarck and Graf Spee, and record the struggle to rid the seas of the menace of the armed merchants raiders.

Graf Spee's Raiders Keith Yates,1995 Spee's ships survived for as long as they did is a reflection of the primitive state of communications and methods of detection available in 1914. Their demise was as much by chance and coincidence as it was by good planning and concerted action by the British. The book includes material on several German and British ship and squadron commanders and provides a detailed overview of the opening months of the war in the Indian, Atlantic, and Pacific Oceans. The fact that.

A Pictorial History of a German Pocket Battleship Panzerschiff Admiral Graf Spee 1934-1939, Battle of the River Plate, Wednesday 13 December 1939 Graham James Beeson, 2014

Pocket Battleships of the Deutschland Class Gerhard Koop, Klaus-Peter Schmolke, 2014-03-10 The warships of the World War II era German Navy are among the most popular subject in naval history with an almost uncountable number of books devoted to them. However, for a concise but authoritative summary of the design history and careers of the major surface ships it is difficult to beat a series of six volumes written by Gerhard Koop and illustrated by Klaus-Peter Schmolke. Each contains an account of the development of a particular class, a detailed description of the ships, with full technical details, and an outline of their service, heavily illustrated with plans, battle maps and a substantial collection of photographs. These have been out of print for ten years or more and are now much sought after by enthusiasts and collectors, so this new modestly priced reprint of the series will be widely welcomed.??This volume covers the three ships of a design so revolutionary that it defied conventional categories. Deutschland (later renamed Lützow), Admiral Scheer and Admiral Graf Spee were simply termed panzerschiffe (armoured ships) by the Germans, but they were known to their opponents by the far more evocative term Pocket Battleships.

Death At Sea Eric Dorn Brose, Professor Department of History and Politics Eric Dorn Brose, 2010-09-30 Death at Sea is the novelistic history of what happened to Graf Spee's squadron and the ships that Britain deployed in an anxiety-charged effort to eliminate the menacing German threat. Opposing naval tactics and gunnery skills combined with the fog of war, questionable leadership, and fatalistic personalities on both sides to determine the outcome.--

Hitler's Ghost Ships George Henry Bennett, 2012 The war mission of the German surface fleet included keeping the Royal Navy out of the Baltic. War against British commerce was the primary task of the German submarines, who hoped to strangle Britain's imports of food and war materials. Disguised Auxiliary cruisers could sidle up to merchant vessels undetected as they were flying a neutral flag, similar to 17th century pirate ships. Completion of the disguised ships was difficult and took its toll on the German dockyard workers and crews, sailing in waters dominated by the Royal Navy. The Battle Summaries chart how the Royal Navy dealt with the threat of these raiders of 70 years ago.

The Battle of the River Plate Gordon Landsborough, 2016-08-31 At dawn on 13 December 1939, smoke was seen on the horizon; HMS Exeter was told to close in and investigate. Two minutes later a dramatic signal was sent from the British cruiser I think it is a pocket battleship. It was. The Deutschland-class heavy cruiser Admiral Graf Spee, marauder of the South Atlantic shipping, had sailed into a trap. Three smaller British cruisers closed in on a German warship which, so Hitler had boasted, could out-sail any ship powerful enough to damage her, and out-gun any ship able to keep up with her an invincible ship. So began the Battle of the River Plate, story which has its duplicates in British naval history, but which nevertheless brought pride and inspiration into the hearts of a nation unwillingly at war once again. A terrible battle was fought that day off the coast of South America, a naval encounter in the finest Nelson tradition and true to that tradition, victory went to the men with the finest armament of all, courage. This edition will be presented with an Appendix containing the official despatch detailing the Battle of the River Plate.

Pocket Battleship Admiral Graff Spee 1932-1940 Gustavo Uruena A., 2008-06-11 Admiral Graf Spee was a Deutschland-class heavy cruiser (originally termed Panzerschiff or armoured ship, sometimes referred to as pocket battleship) which served with the Kriegsmarine of Nazi Germany during World War II. The vessel was named after Admiral Maximilian von Spee, commander of the East Asia Squadron that fought the battles of Coronel and Falkland Islands in World War I. She was laid down at the Reichsmarinewerft shipyard in Wilhelmshaven in October 1932 and completed by January 1936. The ship was nominally under the 10,000 long tons (10,000 t) limitation on warship size imposed by the Treaty of Versailles, though with a full load displacement of 16,020 long tons (16,280 t), she significantly exceeded it. Armed with six 28 cm (11 in) guns in two triple gun turrets, Admiral Graf Spee and her sisters were designed to outgun any cruiser fast enough to catch them. Their top speed of 28 kn (52 km/h; 32 mph) left only a handful of ships in the Anglo-French navies able to catch them and powerful enough to sink them.

German Pocket Battleships Roger Chesneau, 2013-07-04 □ Everything the ship modeller needs to know about building a famous warship □ Numerous detailed plans and colour illustrations □ Focuses on very popular modelling subjects which are represented by a wide selection of kits □ The 'ShipCraft' series provides in-depth information about building and modifying model kits of famous warship types. Lavishly illustrated, each book takes the modeller through a brief history of the subject class, using scale plans to highlight differences between sisterships and changes in their appearance over their careers, then moves to an extensive photographic survey of either a high-quality model or a surviving example of the ship. Hints on building the model, and on modifying and improving the basic kit, are followed by a section on paint schemes and camouflage, featuring numerous colour profiles and highly-detailed line drawings. The strengths and weaknesses of available kits of the ships are reviewed, and the book concludes with a section on research references - books, monographs, large-scale plans and relevant websites. For the first volume in this series, the author has chosen the German 'pocket battleships' of WW2, the best-known of which was the Graf Spee of Battle of the River Plate fame. This innovative and infamous class of surface raiders has long been a popular subject for ship modellers, many manufacturers producing kits of the Graf Spee and the rather different Admiral Scheer and Lützow. This book will show ship modellers how to turn their kits into something really special, but its unparalleled level of visual information will also appeal to the more general warship enthusiast. Roger Chesneau is a lifelong ship modeller and author of numerous naval books, including Ship Models in Plastic.
