Professor Grady and the Gravity Gun John Hardison,2021-01-14 Inspired by his own daughter's character and by arguments he had as a youth with an astronomer who believed gravity was a particle, not a force, Hardison has written Professor Grady and the Gravity Gun. The first in a series of books involving a teenage girl swept up by a time traveler from an alternate 19th century where debunked laws of physics are their hard reality. Hardison has an impressive collection of Star Trek memorabilia and is finishing a series of Star Trek short stories. He is also working on the second adventure for Melina and the professor as they slip over the speed of light and discover a universe very different from their own.

The Inventory 2: Gravity Andy Briggs,2016-10-06 In this action-packed sequel to Iron Fist, the nefarious Shadow Helix organization has possession of Newton's Arrow, a super-advanced gravity weapon stolen from the Inventory. *Well Played 1.0* Drew Davidson,2009-01-01 Video games can be well played in two senses. On the one hand, well played is to games as well read is to books. On the other hand, well played as in well done. This book is full of in-depth close readings of video games that parse out the various meanings to be found in the experience of playing a game. 22 contributors (developers, scholars, reviewers and bloggers) look at video games through both senses of well played. The goal is to help develop and define a literacy of games as well as a sense of their value as an experience. Video games are a complex medium that merits careful interpretation and insightful analysis

**20 Essential Games to Study** Joshua Bycer,2018-10-26 The purpose of this book is to look over the past 35 years of games to discuss titles whose design deserves to be studied by anyone with an interest in game design. While there are plenty of books that focus on the technical side of Game Development, there are few that study the nature of game design itself. Featuring a mix of console and PC offerings, I purposely left off some of the easy choices (Mario, Starcraft, Call of Duty, Overwatch) to focus on games that stood out thanks to their designs.

*Luke Skywalker and the Shadows of Mindor: Star Wars Legends* Matthew Stover,2011-06-28 Emperor Palpatine and Darth Vader are dead. The Empire has been toppled by the triumphant Rebel Alliance, and the New Republic is ascendant. But the struggle against the dark side and the Sith Order is not over. Luke Skywalker, Princess Leia, Han Solo, Lando Calrissian, and their faithful comrades have had little time to savor victory before being called on to defend the newly liberated galaxy. Powerful remnants of the vanquished Empire, hungry for retaliation, are

still at large, committing acts of piracy, terrorism, and wholesale slaughter against the worlds of the fledgling New Republic. The most deadly of these, a ruthless legion of black-armored Stormtroopers, do the brutal bidding of the newly risen warlord Shadowspawn. Striking from a strategically advantageous base on the planet Mindor, they are waging a campaign of plunder and destruction, demolishing order and security across the galaxy—and breeding fears of an Imperial resurgence. Another reign of darkness beneath the boot-heel of Sith despotism is something General Luke Skywalker cannot, and will not, risk. Mobilizing the ace fighters of Rogue Squadron—along with the trusty Chewbacca, See-Threepio, and Artoo-Detoo— Luke, Han, and Leia set out to take the battle to the enemy and neutralize the threat before it’s too late. But their imminent attack on Mindor will be playing directly into the hands of their cunning new adversary. Lord Shadowspawn is no freshly anointed Sith Chieftain but in fact a vicious former Imperial Intelligence officer—and Prophet of the Dark Side. The Emperor’s death has paved the way for Shadowspawn’s return from exile in the Outer Rim, and mastery of ancient Sith knowledge and modern technology has given him the capability to mount the ultimate power play for galaxy wide dominion. Dark prophecy has foretold that only one obstacle stands in his way, and he is ready— even eager—for the confrontation. All the classic heroes, all the explosive action and adventure, all the unparalleled excitement of Star Wars come breathlessly alive as the adventures of Luke Skywalker continue. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!
