*Alloglossoi* Albio Cesare Cassio, Sara Kaczko, 2023-10-24 The studies presented in this volume deal with numerous and often undervalued aspects of multilingualism in Ancient Europe and the Mediterranean. Primarily, but not exclusively, they explore the impact of the great transnational languages, Greek and Latin, on numerous indigenous languages: the latter mostly disappeared apart from a number of written texts, often not well comprehensible, but at the same time provided the dominant languages with loanwords, some of them destined to enduring success. Moreover, Greek and Latin were remarkably affected by their mutual contact, with the complication that Greek was notoriously far from monolithic, and in some areas its different dialects intermingled with each other and with the local languages. The case studies of this volume were conducted in the frame of a European HERA research on Multilingualism and Minority Languages in Ancient Europe, which covered a number of very diverse areas, with an emphasis on Sicily and Southern Italy, Illyria, Epirus, Macedonia, Thrace, Egypt and Asia Minor (also in medieval and modern times). This book makes indispensable reading for anyone with an interest in multilingualism and language contact in Ancient Europe.

*The Archaeology of Tribal Societies* William A. Parkinson, 2002-03-01 Anthropological archaeologists have long attempted to develop models that will let them better understand the evolution of human social organization. In our search to understand how chiefdoms and states evolve, and how those societies differ from egalitarian 'bands', we have neglected to develop models that will aid the understanding of the wide range of variability that exists between them. This volume attempts to fill this gap by exploring social organization in tribal - or 'autonomous village' - societies from several different ethnographic, ethnohistoric, and archaeological contexts - from the Pre-Pottery Neolithic Period in the Near East to the contemporary Jivaro of Amazonia.

*Communities in European History* Juan Pan-Montojo, Frederik Pedersen, 2007

*Analysis and Reform of Cultural Heritage Policies in South-East Europe* Rob Pickard, Florent Çeliku, Council of Europe. Directorate of Culture and Cultural and Natural Heritage, 2008-01-01 As part of the Institutional Capacity Building Plan, which is the first of the three components of the Regional Programme for Cultural and Natural Heritage in South-East Europe launched in 2003, the first stage of a transnational theme-based debate was organised following an assessment of requests from the countries/regions participating in the regional programme: Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Kosovo/UNMIK, Montenegro, Romania, Serbia and the former Yugoslav Republic of Macedonia. It was concerned with current heritage policies and legislation and aimed to take stock of the current position in the countries of South-East Europe. It also highlighted the need to undertake an in-depth analysis of certain key areas where difficulties still arise with regard to implementation.

**The Role of Metals in Ancient Greek History** M. Yu. Treister, 2018-07-17 The first in-depth study of the field in more than 20 years analyzes the role of various metals in the context of Greek economic life, politics, culture and art, traces the movement of metal from ore to finished objects, including works of art, and shows the relations between the regions where metals were extracted and the centres of metalworking, the structure of the workshops and the connections between them and the role of the workshops in economic life at different stages in Greek history. In doing so it adopts a multidisciplinary approach, defining the role of metals in the history of Greek society using the widest possible variety of sources: the excavated remains of workshops and hoards, archaeometallurgical finds; the results of studies of ancient mines and analyses of ancient metal objects; bronze plastics and jewelry, coins etc. The chronological span of the study is the 8th-1st centuries B.C., i.e. from the beginning of the main period of Greek colonization till the end of the Hellenistic era. The geographical scope of the work is the Greek oikumene. New to most scholars will be Treister's knowledge of objects and technologies in the eastern Greek and Roman world of the Northern Black Sea and Colchis. While this book does not pretend to be a definitive survey of the history of mining and metallurgy in the Greek world, it is a particularly useful interim report.

**Studies in Ancient Greek Dialects** Georgios Giannakis, Emilio Crespo, Panagiotis Filos, 2017-12-18 A new collective volume with over twenty important studies on less well-studied dialects of ancient Greek, particularly of the northern regions. The book covers geographically a broad area of the classical Greek world ranging from Central Greece to the overseas Greek colonies of Thrace and the Black Sea. Particular emphasis is placed on the epichoric varieties of areas on the northern fringe of the classical Greek world, including Thessaly, Epirus and Macedonia. Recent advances in research are taken into consideration in providing state-of-the-art accounts of these understudied dialects, but also of more well-known dialects like Lesbian. In addition, other papers address special intriguing topics in these, but also in other dialects, such as Thessalian, Lesbian and Ionic, or focus on important multi-dialectal corpora such as the oracular tablets from Dodona. Finally, a number of studies examine broader topics like the supraregional Doric koinai or the concept of dialect continuum, or even explore the possibility of an ancient Balkansprachbund, which included Greek too. This new reference work covers a gap in current research and will be indispensable for people interested in Greek dialectology and ancient Greek in general.

*Borders and Mobility Control in and between Empires and Nation-States*, 2022-10-24 In a modernist interpretation of migration controls, nation states play a major role. This book challenges this interpretation by showing that comprehensive migration checks and permanent border controls appeared much earlier, in early modern dynastic states and empires, and predated nation states by centuries. The 11 contributions in this volume explore the role of early modern and modern dynastic kingdoms and empires in Europe, the Middle East and Eurasia and the evolution of border controls from the 16th to the 20th century. They analyse how these states interacted with other polities, such as emerging nation states in Europe, North America and Australia, and what this means for a broader reconceptualization of mobility in Europe and beyond in the longue durée. Contributors are: Tobias Brinkmann, Vincent Denis, Sinan Dinçer, Josef Ehmer, Irial A. Glynn, Sabine Jesner, Olga Katsiardi-Hering, Leo Lucassen, Ikaros Mantouvalos, Leslie Page Moch, Jovan Pešalj, Lewis H. Siegelbaum, Annemarie Steidl, and Megan Williams.

**The Albanian National Awakening** Stavro Skendi, 2015-12-08 Professor Skendi, a native of Albania, traces the progress and setbacks of Albania's long struggle for national unity during this least-known period of its intricate history. He discusses the heritage of its people and examines in detail the developments that led to Albanian independence: national resistance to the decisions of the Congress of Berlin, later opposition to Turkey, and the struggle between the Albanians and the Young Turks. Consideration is given to such internal problems as geographic configuration, religious and political division, and to such external problems as Italo-Austrian rivalry, political interference from neighboring states, and the involvement of great powers. Originally published in 1967. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. **The Great Illyrian Revolt** Jason R. Abdale, 2019-06-30 The little-known story of a fierce rebellion against the Romans: "A very good read for anyone interested in ancient military history and historiography." –The NYMAS Review In the year AD 9, three Roman legions were crushed by the German warlord Arminius in the Battle of the Teutoburg Forest. This event is well known, but there was another uprising that Rome faced shortly before, which lasted from AD 6 to 9, and was just as intense. This rebellion occurred in the western Balkans—an area roughly corresponding to modern Croatia, Bosnia and Herzegovina, Slovenia, Montenegro, and parts of Serbia and Albania—and it tested the Roman Empire to its limits. For three years, fifteen legions fought in the narrow valleys and forest-covered crags of the Dinaric Mountains in a ruthless war of attrition against an equally ruthless and determined foe, and yet this conflict is largely unknown today. The Great Illyrian Revolt is believed to be the first book ever devoted to this forgotten war of the Roman Empire. Within its pages, we examine the history and culture of the mysterious Illyrian people, the story of how Rome became involved in this volatile region, and what the Roman army had to face during those harrowing three years in the Balkans.

**The Foundations of Roman Italy** Joshua Whatmough, 1971 A linguistic & archaeological attempt to construct a history of pre-Roman Italy. **Nationalism and the Politicization of History in the Former Yugoslavia** Gorana Ognjenovic, Jasna Jozelic, 2021-03-19 "This book is very timely: the instrumentalization of history for political goals has become a pressing issue and worrisome feature of many polities, to the point of challenging even the most consolidated democracies. Focusing on Yugoslavia's fragile successor states, the authors explore plurifold analytical levels, including local, regional, transnational, European and global perspectives. The authors comprehensively demonstrate how politicizing history, in the postwar and postcommunist societies of what was once Yugoslavia, has prevented both reconciliation and democratization." –Sabine Rutar, Leibniz Institute for East and Southeast European Studies, Germany "Ognjenovic and Jozelic focus here on the former Yugoslavia before and after its fragmentation to explore and evaluate the various uses of histories by nationalists, both those who promoted 'federal nationalism' and those who peddle specific local nationalisms in successor states. The book deals specifically with the Western Balkans, but these developments have their parallels in many other parts of the world, and the book will be useful well beyond the region on which the study is based." –Paul Mojzes, Professor Emeritus, Rosemont College, USA "The former Yugoslavia has become a battlefield for the 'Memory Wars', in spite of the wealth of judicially established facts and available evidences gathered about the atrocities in the region, and various initiatives aimed at dealing with the past and efforts at transitional justice. Focusing on three periods of Yugoslav history – the Second World War, socialist Yugoslavia and the Yugoslav wars of 1991–2001 – the contributors show that despite these efforts to deal with the past, sustainable peace and reconciliation across ethnic and religious groups remain a distant aim." –Marijana Toma, Center for Cultural Decontamination, Serbia This book analyzes how nationalists in the former Yugoslavia have politicized history to further their political agendas, retaining and prolonging conflict among different cultural and religious groups, and impeding the process of lasting reconciliation. It explores how narratives have been (mis)used, drawing on examples from all of the former Yugoslav republics. With contributors from a range of disciplinary backgrounds, it provides a vital assessment of how nationalists have attempted to (re)shape public collective memory and relativize facts.

**The Macedonian Question and the Macedonians** Alexis Heraclides, 2020-12-31 This book is a comprehensive and dispassionate analysis of the intriguing Macedonian Question from 1878 until 1949 and of the Macedonians (and of their neighbours) from the 1890s until today, with the two themes intertwining. The Macedonian Question was an offshoot of the wider Eastern Question – i.e., the fate of the European remnants of the Ottoman Empire once it dissolved. The initial protagonists of the Macedonian Question were Greece, Bulgaria and Serbia, and a Slav-speaking population inhabiting geographical Macedonia in search of its destiny, the largest segment of which ended up creating a new nation, comprising the Macedonians, something unacceptable to its three neighbours. Alexis Heraclides analyses the shifting sands of the Macedonian Question and of the gradual rise of Macedonian nationhood, with special emphasis on the Greek, Bulgarian and Serbian claims to Macedonia (1870s–1919); the birth and vicissitudes of the most famous Macedonian revolutionary organization, the VM(0)RO, and of other organizations (1893–1940); the appearance and gradual establishment of the Macedonian nation from the 1890s until 1945; Titos's crucial role in Macedonian nationhood-cum-federal status; the Greek-Macedonian name dispute (1991–2018), including the 'skeletons in the cupboard' – the deep-seated reasons rendering the clash intractable for decades; the final Greek-Macedonian settlement (the 2018 Prespa Agreement); the Bulgarian-Macedonian dispute (1950–today) and its ephemeral settlement in 2017; the issue of the Macedonian language; and the Macedonian national historical narrative. The author also addresses questions around who the ancient Macedonians were and the fascination with Alexander the Great. This monograph will be an essential resource for scholars working on Macedonian history,

Balkan politics and conflict resolution.

**Celtic Art in Europe** Christopher Gosden,Sally Crawford,Katharina Ulmschneider,2014-08-29 The ancient Celtic world evokes debate, discussion, romanticism and mythicism. On the one hand it represents a specialist area of archaeological interest, on the other, it has a wide general appeal. The Celtic world is accessible through archaeology, history, linguistics and art history. Of these disciplines, art history offers the most direct message to a wider audience. This volume of 37 papers brings together a truly international group of pre-eminent specialists in the field of Celtic art and Celtic studies. It is a benchmark volume the like of which has not been seen since the publication of Paul Jacobsthal's Early Celtic Art in 1944. The papers chart the history of attempts to understand Celtic art and argue for novel approaches in discussions spanning the whole of Continental Europe and the British Isles. This new body of international scholarship will give the reader a sense of the richness of the material and current debates. Artefacts of rich form and decoration, which we might call art, provide a most sensitive set of indicators of key areas of past societies, their power, politics and transformations. With its broad geographical scope, this volume offers a timely opportunity to re-assess contacts, context, transmission and meaning in Celtic art for understanding the development of European cultures, identities and economies in pre- and proto-history.

**The History of Croatia and Slovenia** Christopher Deliso,2020-11-06 This new addition to Greenwood's Histories of the Modern Nations series provides a comprehensive introduction to the intertwined histories of Croatia and Slovenia, two Balkan nations and former members of the Yugoslav Federation. The recent histories of Croatia and Slovenia have been relatively stable, as both countries have merged successfully into modern Europe. But how did these countries arrive at such a place? The History of Croatia and Slovenia provides factual overviews of these countries' political systems, geographical details, significant individuals, and more. The volume opens with the prehistoric and ancient roots of these states, though this history predates their modern ethnic and linguistic identities as we know them. Chapters cover the Roman period, followed by barbarian waves and the countries' subsequent absorption into the Venetian, Hungarian, and Holy Roman Empires. The modern period of national awakening in the nineteenth century, when the ethno-genesis of modern Croatia and Slovenia began, is covered in great detail. The volume additionally covers subsequent turbulent events such as WWI, WWII, the Holocaust, Communist Yugoslavia, and its civil wars of the 1990s, through the events of 2019. Written in approachable yet scholarly language, this volume is ideal for high school and university students, as well as any reader interested in Balkan or European history.
