Greenpeace USA.,Carl Deal

The Greenpeace to Amchitka Robert Hunter,2005-04-01 Greenpeace is known around the world for its activism and education surrounding environmental and biodiversity issues. With a presence in more than 40 countries across Europe, the Americas, Asia and the Pacific, Greenpeace is undoubtedly a dominant force in the realm of environmental activism. This is the story of how Greenpeace came to be. In September 1971, a small group of activists boarded a small fishing boat in Vancouver, Canada, and headed north towards Amchitka, a tiny island west of Alaska in the Aleutian Islands, where the US government was conducting underground nuclear tests. At that time, protests against nuclear testing were not common, yet the US tests raised genuine concerns: Amchitka is not only the last refuge for endangered wildlife, but is also located in a geologically unstable region, one of the most earthquake-prone areas in the world. The threat of a nuclear-triggered earthquake or tsunami was real. Among the people sardined in the fishing boat were Robert Hunter and Robert Keziere. The boat, named the Greenpeace by the small group of men aboard, raced against time as it crashed through the Gulf of Alaska, braving the oncoming winter storms. Three weeks was all they had to reach Amchitka in an attempt to halt the nuclear test. Ultimately, the voyage—beset by bad weather, interpersonal tensions and conflicts with US officials—was doomed. And yet the legacy of that journey lives on. In this visceral memoir, based on a manuscript originally written over 30 years ago, Robert Hunter vividly depicts the peculiar odyssey that led to the formation of the most powerful environmental organization in the world. Features 40 black and white photographs taken during the voyage by Robert Keziere.

Greenpeace Rex Weyler,2004-10-06 The founder of Greenpeace brings readers the story of the creation, adventures, clashes, objectives, and heroics of the world's largest direct-action environmental group and describes the influence of such legends as Gandhi, Einstein, Rachel Carson, and Martin Luther King, Jr., on the organization. 25,000 first printing.

Greenpeace Rex Weyler,2004 Greenpeace - the uniting of the 'green' and the 'peace' movements - is a pressure group that has changed the world and changed our perceptions of protest. Greenpeace founder Rex Weyler reveals what went on behind the epic Greenpeace protests.

Greenpeace Paul Brown,1995

Make It a Green Peace! Frank Zelko,2013-05-30 The emergence of Greenpeace in the late 1960s from a loose-knit group of anti-nuclear and anti-whaling activists fundamentally changed the nature of environmentalism—its purpose, philosophy, and tactics—around the world. And yet there has been no comprehensive objective history of Greenpeace's origins-until now. Make It a Green Peace! draws upon meeting minutes, internal correspondence, manifestos, philosophical writings, and interviews with former members to offer the first full account of the origins of what has become the most recognizable environmental non-governmental organization in the world. Situating Greenpeace within the peace movement and counterculture of the 1960s, Frank Zelko provides a much deeper treatment of the group's groundbreaking brand of radical, media-savvy, direct-action environmentalism than has been previously attempted. Zelko traces the complex intellectual and cultural roots of Greenpeace to the various protest movements of the 1950s and 1960s, highlighting the influence of Quakerism—with its practice of bearing witness—Native American spirituality, and the non-violent resistance of Gandhi. Unlike the more strait-laced, less confrontational Sierra Club and Audubon Society, early Greenpeacers smoked dope, dropped acid, wore their hair long, and put their bodies on the line—interposing themselves between the harpoons of whalers and the clubs of seal-hunters—to save the animals and achieve what they hoped would be a lasting transformation in the way humans regarded the natural world. And while it may not have achieved its most revolutionary goals, Greenpeace inarguably created a heightened awareness of environmental issues that endures to this day. Narrating the key campaigns and arguments among the group's early members, Make It a Green Peace! vividly captures all the drama, pathos, and occasional moments of absurd comic relief of Greenpeace's tumultuous first decade.

The Greenpeace Guide to Anti-environmental Organizations Greenpeace USA., Carl Deal, 1993 Since most Americans today consider themselves environmentalists, ecologically destructive industries are now creating elaborate front groups that masquerade as environmental organizations. Greenpeace Rex Weyler,2004 Greenpeace - the uniting of the 'green' and the 'peace' movements - is a pressure group that has changed the world and changed our perceptions of protest. From small beginnings, through anti-whaling voyages, action on seal hunting, presiticide spraying, supertankers, nuclear weapons and much more Greenpeace has become a cultural icon.

Shell, Greenpeace and the Brent Spar G. Jordan,2001-08-14 The decision by multinational Shell not to dispose of the Brent Spar oil facility in the North Atlantic was taken after several occupations of the structure by Greenpeace, and as a result of large scale pro-Greenpeace protest in the UK, Germany and other continental countries. This case is often cited as showing the power of single issue pressure groups and is presented as leading to a pivotal reconsideration by big business of the importance of environmental dimensions. However, detailed research proves that Shell changed its mind on the Brent Spar issue because of the corporate structure of the company which meant that some parts were reluctant to bear the bad publicity. Using this case study, Grant Jordan considers the role of scientific advice in shaping governmental decisions on matters such as BSE, GM foods, global warming - and the consequences of a divided scientific view. He looks at the use of the media by groups and companies attempting to control the political agenda.

Hairy Hippies and Bloody Butchers Juliane Riese,2017-05-01 In the popular imagination, no issue has been more closely linked with the environmental group Greenpeace than whaling. Opposition to commercial whaling has inspired many of the organization’s most dramatic and high-profile “direct actions”—as well as some of its most notable failures. This book provides an inside look at one such instance: Greenpeace’s decades-long campaign against the Norwegian whaling industry. Combining historical narrative with systems-theory analysis, author Juliane Riese shows how the organization’s self-presentation as a David pitted against whale-butcher Goliaths was turned on its head. She recounts how opponents successfully discredited the campaign while Greenpeace struggled with internal disagreements and other organizational challenges, providing valuable lessons for other protest movements.
