A Tale of Discovery Harry Katzan Jr.,2021-03-18 The COVID-19 virus continues to ravage the World population. Every social event appears to increase the incidence of infected people. The U.S.A. with three vaccines leads the world in preventative measures, vaccines, and medicines. After one year of study, there are 3 main open items: where did the virus come from, who made them, and what is the purpose of the virus – that is, if it is man-made. If the origin of the virus is natural, how does it develop? Is the source biological, as from 2-inch bats that supposedly pass through Chinese fresh food markets, or is it a result of deforestation? Another option is that the virus came from another galaxy, such as the Pinwheel Galaxy with a planet Zenex that is facing extinction. Do UFOs have anything to do with the spread of a virus? UFOs supposedly have lights that can be used for reconnaissance. Are there UFOs that do not have lights that function as robots and are guided with artificial intelligence, and drop the virus all over the World? Do UFOs with no lights, developed with artificial intelligence, have anything to do with the spread of a virus, such COVID-19, all over the world at the same time? As before, the team of Matt and the General, plus Ashley, Anna, and Sir Charles Bunday come to the rescue of the World through wisdom and resources. They save the day. The adventures take the team to Russia to extract a mathematician and a virologist. Related to the adventures of Matt and the General is the introduction of the SPACE FORCE.
