T-90 Standard Tank Steven J. Zaloga,2018-02-22 A highly illustrated study of the T-90, the backbone of the armoured units of Putin's Russia. In the wake of the T-72 tank's poor performance in the 1991 Gulf War, the Kremlin instructed the Russian tank industry to drop the discredited T-72 designation in favour of the T-90 Vladimir. The T-90 was in fact a further evolution of the T-72 family, but the name change represented an important break in Russian/Soviet tank design history. The T-90 has become the principal export tank of Russia, and is in service in large numbers in many countries including Algeria, India, and many of the former Soviet republics. Using detailed illustrations and full colour artwork, this book also describes the evolution of the T-90's many failed successors including the little known Bokser, Molot, and T-95, as well as its likely successor, the new T-14 Armata, and the wide range of specialized vehicles based on the T-90 chassis such as the formidable Terminator tank support vehicle.

The Secret Army Tadeusz Bór-Komorowski,2011-07-13 Tadeusz Komorowski was born in 1895 in Galicia, a region then ruled by the Austrians, and he served in the Austro-Hungarian Army in the First World War. Poland regained its independence in 1918, and Komorowski fought against the Russians in the Polish-Soviet War of 1919–21. When Germany invaded Poland in 1939, Komorowski was the commander of units defending the Vistula River, but he was pushed eastwards by the fierce advance. Despite being surrounded by German forces, he escaped to Cracow. Although he planned to escape to the West, he was ordered to stay and start a resistance movement. He stayed in Cracow until the summer of 1941, when he sent to Warsaw. The legend of ‘Bór’ was about to begin. Komorowski was appointed to lead the Home Army in June 1943. The Polish Resistance carried out sabotage and vital intelligence for the Allies, but their main task was to prepare for an uprising when the Nazis were in retreat to help liberate the country. The Polish Government-in-Exile gave the order to commence on 1 August 1944. Tragically, Stalin had plans for Poland after the war: Soviet troops sat outside Warsaw and left the Poles to their fate. The Resistance lasted, incredibly, 63 days. Komorowski was sentenced to death by Hitler, but the order was rescinded. The tale of Bór and the Uprising is the story of a proud nation and their fight against enemies and betrayal by allies. Customizing Your Motorcycle Chris Daniels,2018-02-23 Building a custom motorcycle has never been more popular, with even the major manufacturers keen to capitalize on the growing trend. A custom motorbike is the product of an owner using their own skills to produce an individual machine, and with the right tools and approach it is well within most people's means to take a standard machine, new or second-hand, and make it their personal statement. Providing clear and practical advice, this new book, Customizing Your Motorcycle - Shed-Built to Show Bike introduces the reader to the techniques and processes needed to customize any motorcycle. Eschewing the practice of using expensive off-the-shelf parts, it shows how the shrewd use of salvaged and alternative sources is not only economic but also results in a satisfyingly unique custom machine. Projects demonstrate how to make custom parts, while examples of how different custom bikes were built by the author show how they are designed and put together. The book covers: An introduction to the main styles on which today's custom scene was founded; Choosing a suitable bike and how to make decisions when buying second-hand; Workshop setup and tools; Components of a bike and custom parts; Basic improvements and the essential maintenance to make a safe and usable bike; Modifying frames and building seats, tanks and other components; Welding, cleaning and preparation for painting. Richly illustrated with 409 colour photographs.
