Dave Parsons, George Hall

Grumman F-14 Tomcat Dave Parsons, George Hall, Bob Lawson, 2011-07-17 For thirty-five years of active naval service, the Grumman F-14 Tomcat was the foremost air superiority fighter of the Cold War, with continuing service as a fighter-bomber in the Gulf Wars. Two hundred thousand sailors, both pilots and ground crew, served in F-14 squadrons with the Tomcat over its decades of flight. This book is a grand remembrance of this great aircraft by those who flew it. Hundreds of pilots have included their favorite stories of the missions and planes that brought them home. Two hundred exceptional color photographs show the F-14 on the deck, in the air, and over the sea.

Tomcat! Paul T. Gillcrist, 1994 TOMCAT The Grumman F-14 Story is an exciting oral history of the most versatile air supremacy fighter in the world . . . much of it written from the vantage point of the airplanes cockpit \nTold in an anecdotal format, this new book is richly marbled with the salt air of fleet experience. Perhaps the F-14 programs greatest success is its overwhelming acceptance by the youngsters in the fleet. Anecdotes about the Tomcat legend abound . . . especially in the chapters devoted to its employment by the fleet in the oceans of the world.\nOf particular interest are the chapters dealing with the sale of Tomcats to Iran and the subsequent integration of the airplane into Irans armed forces. On-the-scene eye witness accounts provide a unique perspective of this fascinating aspect of the Tomcat story.\nTOMCAT contains over 150 photographs, most in color and never before

published, and most of them taken by Tomcat aircrews with hand-held cameras. These provide a fascinating backdrop for the oral history contained in the book.

This is not a garden variety history about an airplane. It is a sometimes heart-stopping story of how a controversial airplane finally made it into the hearts and minds of the fleet . . . after stumbling at the starting gates of an outmoded defense acquisition system. It is the story of the best air supremacy fighter in the world

Rear Admiral Paul Gillcrist, USN (Retired), commanded a fleet fighter squadron on three carrier combat deployments to the Tonkin Gulf during which he flew 167 combat missions over Vietnam. For these he was awarded seventeen combat decorations. In his thirty-three year flying career as a fleet pilot and Navy test pilot as well, he flew 71 different U.S. and foreign tactical airplanes including the U.S. Air Forces F-104, F-105, F-106, F-15, F-16, YF-17 and F-20. He flew the Navys F-4, F-5, F-8, F-11, F-14 and F/A-18 as well as several key foreign tactical airplanes. During his carrier flying career, which spanned an amazing twenty-seven years, he commanded a fighter squadron, a carrier air wing and was the wing commander for all Pacific Fleet fighter squadrons. He flew from sixteen carriers, and in his last flying assignment accumulated over four hundred flight hours in the Tomcat culminating, at age 51, in becoming the first flag officer to land the Tomcat on an aircraft carrier - the U.S.S. KITTYHAWK on 21 October 1980. The author of FEET WET, Reflections of a Carrier Pilot, Admiral Gillcrist

is eminently qualified to write the F-14 story

Grumman F-14 Tomcat in US Navy Service Salvador Mafe Huertas, 2021-04-17 The F-14 Tomcat is more than just a naval plane, it has marked an era in the same way that aircraft like the F-4 Phantom II, the different models of the mythical Mirage, the F-86 Sabre, the P-51 Mustang, and the Spitfire did. The uniqueness of its mission and having a single user (in addition to Iran) were not an obstacle for this exceptional fighter to gain respect and a reputation that few fighter planes have had throughout the twentieth century.

Tomcat Alley David F. Brown, 1998 Tomcat Alley contains over seven-hundred images depicting the venerable F-14 Tomcat, bureau number by bureau number. Each U.S. Navy Tomcat is traced from date of delivery through February 1998. After a brief introduction, informative captions provide details concerning every Tomcat model, modification, and the fate of each aircraft including those stricken due to operational accidents, retired to the bone-yard, or resting as gate guards at military installations around the country. The majority of Tomcats are shown in full-color with images displaying every paint scheme worn by the F-14, including many water-based schemes applied during various tactical exercises and deployments. Images also include every squadron commanders aircraft, nose art, tail colors, over 150 patches and insignia, bicentennial schemes, and Tomcats which participated in Operation Desert Shield/Desert Storm. Additionally, the Su-22, MiG-23, and Hi-8 killers are depicted along with movie star Tomcats from Final Countdown, Topgun, and Executive Decision.

Grumman F-14 Tomcat End of the Line - Not the Legend Lou Benoit, 2023-07-15 The Grumman Corporation built 712 F-14 Tomcats, each bearing a story, along with the crews that flew them. The objective of this book was to locate the final disposition of all F-14s. The accounting covers those that crashed, which were scrapped, and those that remain as exhibits. Clearly learning the

details and a few histories of several F-14s was, in a word, haunting. Others are the known and accepted consequences common to Naval Aviation and fighter aircraft operations. The highest honor was to document the F-14 crew members whose lives were lost in service to the United States Navy or with Grumman Aerospace. In remembrance of their service and sacrifice in the line of duty to the United States Navy, a respectfully compiled list of the 68 F-14 pilots and RIO's was necessary. Lastly, a short chapter covering the Iranian Tomcats is open for review. Unfortunately, Iran has not been forthcoming with the status and statistics of their Tomcats, and a qualified accounting may never be known. If you want to know where your favorite F-14 Tomcat resides, where to find one on exhibit, and a few surprises - it's in this book.

Tomcat Rio Dave Baranek, 2020-09-29 From Topgun to Squadron Command You're in the cockpit of the legendary F-14 Tomcat fighter, blazing along at twice the speed of sound seven miles above the ocean and the carrier that hurled you off its deck. You're practicing dogfighting with "aggressors," guys on your side flying F-16s. You're patrolling the tense skies above Iraq, and with the push of a button you can launch the 100-mile Phoenix missile that can blow a foe to scrap before you even see him. You are an expert in fighter tactics and aircraft carrier operations, and it all leads to your command of an F-14 fighter squadron of more than three hundred people. Sounds like a week's worth of daydreams, but it's all real-life in the career of Dave "Bio" Baranek, and he shares it with you in the

exciting, superbly crafted new book, Tomcat Rio. Dave – callsign “Bio” – pulled his readers into the exciting world of the F-14 and the Navy’s TOPGUN program with his popular books Topgun Days and Before Topgun Days. Now he’s back with the rest of the story, as he reaches the top level of expertise and proves it, not just in graded competitions but also where it counts, where you shoot at them and they shoot at you. Dave also shares the challenges he faced. A deadly foe called complacency. Learning a whole new mission late in his career. The unexpected trials that come with leading a squadron in the dynamic environment of Naval Aviation. This third volume is full of adventures, lessons, and inspiration. If you are a casual reader, you’ll turn the last page as a dedicated Tomcat fan. To make it all even more real, Tomcat Rio includes dozens of Bio’s best and most acclaimed photos. Photographer George Hall hailed one shot as “one of the best Tomcat photos ever taken.” In words and pictures, Bio immerses you in rich detail. He pipes you aboard as a member of an F-14 squadron. You share the camaraderie of Type A personalities. You plan risky missions, going toe-to-toe against America’s most volatile foes. You can almost smell the pungent jet exhaust, almost feel the gut-wrenching G’s of a dogfight, as Tomcat Rio pitches you into the thick of it as only Bio can tell it. Strap in! You’re going for one fantastic ride.

F-14 Tomcat Pilot's Flight Operating Manual Vol. 1 United States Navy, 2009-10-19 PLEASE NOTE: THIS IS VOLUME 1 OF 2. YOU MUST PURCHASE BOTH BOOKS TO HAVE A COMPLETE SET. Developed as both an air superiority fighter and a long-range naval interceptor, Grumman's F-14 Tomcat was the U.S. Navy's primary fighter from 1974 until 2006. Over 700 were built. The F-14 flew its first combat missions shortly after its initial deployment in late 1974, flying in support of the American withdrawal from Saigon. In 1981 it drew first blood, as two F-14s from VF-41 downed two Libyan Su-22s. The plane compiled a notable combat record for the United States in both Gulf Wars and NATO actions in Bosnia. Planes sold to the Shah of Iran prior to his ouster remain the last F-14s in active service, as the U.S. Navy retired it in October 2006. This F-14 pilot's flight operating handbook was originally produced by the U.S. Navy. It has been slightly reformatted but is reproduced here in its entirety. It provides a fascinating view inside the cockpit of one of history's great planes.

F-14 Tomcat David F. Brown, 2019-03-28 It has been said that bombers make history; fighters make movies. In the case of the Grumman F-14 Tomcat, both are true. It made history as a fleet defender, reconnaissance platform, and strike fighter. The Tomcat was also featured in such Hollywood classics as Top Gun, The Final Countdown, and Executive Decision, followed by television appearances on JAG. This new illustrated look at the iconic Tomcat features a

concise, detailed look at its design and construction, followed by its service in the US Navy from 1975 to 2006. Also covered is a rare look at its use by the Imperial Iranian Air Force, and continued use by the Islamic Republic of Iran Air Force. All USN units that flew the Tomcat are featured, including squadron patches, markings, and nose art. Combat operations are discussed, including aerial combat over Libya, Iraq, and Afghanistan. Part of the Legends of Warfare series.
