Barrett Tillman

**TBF/TBM Avenger** David Doyle,2020 The Grumman-designed TBF Avenger was unquestionably the most successful torpedo bomber in the US fleet during WWII. Developed just prior to the US entry in WWII, the type made its combat debut at the Battle of Midway. Demand for the large carrier-borne aircraft, which could drop conventional bombs and depth charges in addition to torpedoes, soon outstripped Grumman's capacity. To supply the needed aircraft to the US Navy, the US Marines, and the Royal Navy, the Eastern Aircraft Division of General Motors was contracted to build duplicate aircraft, which were designated TBM. With numerous adaptations, both the TBF and TBM continued to serve militaries well after WWII. Through carefully researched photos, many of which have never before been published and which are reproduced in remarkable clarity, the history and details of this iconic aircraft are revealed and put the reader in the skies with this historic aircraft.

Training the Right Stuff Mark A. Frankel,Tommy H. Thomason,2016-08-28 This is a comprehensive study of the training aircraft used to transition the United States military into the jet age. After assembling the greatest air armada in history in World War II, the United States faced the challenges of the Cold War. High-performance jets replaced propeller fighters, and a new generation of pilots was needed. But military planners, reluctant to scrap the existing inventory of trainers, insisted these pilots earn their wings in

airplanes designed in the 1930s. The attrition rate among newly winged pilots, assigned to jets that often exceeded their abilities, was appalling. Finally, in 1949, a privately funded jet trainer, the T-33 was developed, followed by the T-28 in 1950, the T-34 in 1953, and T-37 in 1957. Gradually, pilot proficiency improved, but the cycle is recurring as new trainers and teaching techniques are needed to replace the aging aircraft and methods of the past.--Jacket.

Crossing the Line Alvin B. Kernan, 1997 Amid the host of personal memoirs published about World War II, Kernan's stands out as the classic description of an enlisted man's perspective of the great age of aircraft carriers. *Crossing the Line* conveys the realities of a sailor's life on a wartime carrier, relating the inveterate routines along with the moments of sheer terror that mobilized boys into fighting men. Kernan writes with unerring honesty of the enlisted man's struggle to survive with honor; the poor equipment, faulty tactics, and petty rules; the loneliness as well as the congenial interludes with crew mates; the escape sought in barroom brawls and brothels during liberty.

United States Navy Aircraft Since 1911 Gordon Swanborough, Peter M. Bowers, 1990 'United States Navy Aircraft since 1911' has been completely revised and updated and, like the earlier editions, will become the standard reference work covering all the aircraft of the US Navy, Marine Corps and Coast Guard.

*Torpedo* Roger Branfill-Cook, 2014-08-27 The torpedo was the greatest single game-changer in the history of naval warfare. For the first time it allowed any small, cheap torpedo-firing vessel to and by extension a small, minor navy to threaten the largest and most powerful warships afloat. The

*Ship Killer* Thomas Wildenberg, Norman Polmar, 2010 In this book, Thomas Wildenberg and Norman Polmar provide a definitive work on the development and use of the torpedo by the U.S. Navy. Their book begins with an overview of the early undersea weapons developed by Bushnell and Fulton, the spar torpedo of the Civil War and attempts to imitate the Whitehead torpedo, and then focuses on American torpedo development for use from submarines, surface warships and small combatants, and aircraft.--Publisher's description.

**Battle of Midway, June 3-6, 1942** United States. Office of Naval Intelligence. Combat Intelligence Branch,1943

TBF/TBM Avenger Units of World War 2 Barrett Tillman,1999-10-15 As its name suggests, the Avenger meted out severe retribution on the Japanese in the Pacific, participating in every major engagement through to VJ-Day. As a key weapon of World War II (1939-1945), the Avenger was so highly valued by the US Navy that its demand for the aircraft soon outstripped Grumman's production capacity, so General Motors [GM] was contracted to build the near identical TBM from September 1942 onwards. Over 1000 Avengers also saw action with the Fleet Air Arm in both the Atlantic and the Pacific through to VJ-Day, and two squadrons of RNZAF TBDs fought alongside American Avengers on Bougainville in 1944.

**Miracle at Midway** Gordon William Prange,Donald M. Goldstein,Katherine V. Dillon,1983 With the infamy of Pearl Harbor still fresh in their minds, the men of the U.S. Pacific Fleet waited for the Japanese Imperial Navy at Midway Island. This time, however, the element of surprise had shifted, and the American troops would be the victors of a battle that marked the turning point of the war in the Pacific. Like *At Dawn We Slept*, *Miracle at Midway* brings together eyewitness accounts from the men on both sides-those who

commanded and those who fought. The sweeping narrative takes you into the thick of the action and shows exactly how American strategies and decisions led to America's triumphant victor and the crushing defeat of Japan. Book jacket.
