Haunting Experiences Diane Goldstein,Sylvia Grider,Jeannie Banks Thomas,2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts.

Blood, Sweat & Gears. The Story of the Gray Ghost and the Junkyard Firebird David G.

Barnes,2014-10-14 In 1971, could a little group of unknown automotive engineers independently design and build a race car from an old 1964 Pontiac sedan and really compete against professional, factory-backed racing teams? *Blood, Sweat & Gears* is based on the true story of a small group of GM Pontiac Division

engineers who did just that - they independently created a race car in 1970 from an old 1964 Pontiac Le Mans with 80,000 miles on its odometer. Without factory support and on a shoestring budget, they seriously competed in the 1971 televised Trans-Am road racing circuit against professional, well-financed, factory-backed racing teams and won the hearts of fans and the press, who dubbed their car the Gray Ghost. The following year they did it again, starting with a wrecked Firebird from a junkyard, and shocked the racing world at the Mid-Ohio Sports Car Course. *Blood, Sweat & Gears* is an inspiring, fact-based underdog story of hard work, ingenuity and competitive American grit that has never before been fully told.

Hawaiian Legends in English A. Grove Day, Amos P. Leib, 2021-05-25 Over the past two centuries, a considerable number of Hawaiian legends have been translated into English. Although this material has been the subject of studies in anthropology, ethnology, and comparative mythology, no study has been made of the translations and the translators themselves. Nor has a definitive bibliography of published translations been compiled. The purpose of this volume is to provide an extensive, annotated bibliography of both primary translations and secondary retellings in English, together with a historical and critical study of the more important translations.

Legend of the Mighty Sparrow, Part 3 Bryan Fletcher, 2016-11-15 This science fiction adventure represents the ultimate survivor genre, a hero against all odds, against powerful special interests too big to fail, a system controlled by ultimate insiders who often seem hell-bent on obsession, the last war, escalation, and world economic domination to create a brave new world; another dystopia. And the story focuses on a black site scientist with an urgent mission: to reach the next underground bunker with unparalleled

destruction and equipment that smolders a place with sections that have damage beyond description, beyond all known languages from some unknown experiment, as the experiment may have fractured time or seriously damaged a local aspect of the universe. As people often say, the most important trait is location-location-location, a real estate term regarding a vital place or vulnerable point. And in this case, the concern is about a weapon of mass destruction, a favorite human pursuit since prehistoric times. And this weapon is not a mother of all bombs, not MOAB or the insidious neutron bomb, but a new-age experiment that directed a complex particle beam at a universal pressure point in spaceuniversal defect in space time or support aspect, well, similar to the way someone brings down a high-rise building by damaging the main support beam, and in this case, to collapse the universal wave function, as the universe may represent a bubble, a supreme algebraic bubble, a supreme bulkhead. And this secret military experiment, one without checks and balances, appears to have punctured the universe with a special warp bubble pierce and might initiate deflation at faster-than-light speed to deflate the universe, as space can move faster than light, which in this case will quickly collapse the universe to bring about the end of days, eschatology, the final events of history, and the ultimate human destiny.

Popular Ghosts Maria del Pilar Blanco, Esther Peeren, 2010-04-01 Located in the ambivalent realm between life and death, ghosts have always inspired cultural fascination as well as theoretical consideration.

The Stock Car Ghosts Steve Daily, 2021-04-13 The true story of two South Carolina stock car race promoters and their seven drivers who embark on an epic journey during 1955 and fly the flag for the USA by racing their stock cars on a tour of the UK. The group, and their seven stock cars, were brought

across the Atlantic by a flamboyant showman known as Digger Pugh. They find a very different culture and a London still peppered with flattened bombsites ten years after WW2. After many years of shortages and hardships, the British people were finding new hope and optimism and were due for some excitement in their lives. In 1954 stock car racing began in the UK and thousands flocked to see this new phenomenon started by Digger Pugh and some like-minded promoters. In the following year Pugh pulled off his biggest gamble by giving the new stock car fans their greatest show so far; an international England vs USA contest. Unfortunately, Digger Pugh's plans didn't run smoothly, so buckle up as it's a bumpy adventure from the early days of NASCAR through to the tour and an account of what became of those US race drivers known to the English fans as, The White Ghosts.

Tourism and Earthquakes C. Michael Hall, Girish Prayag, 2020-10-08 This book offers a comprehensive overview of the relationship between tourism and earthquakes through all stages of a disaster. It discusses the measures available to manage tourism after earthquakes and examines the means to mitigate the potential impacts of earthquakes on tourism. The chapters address important questions such as 'are tourists who come to earthquake regions immediately after an earthquake a benefit or a burden for recovery?' and

‘should priority be given to evacuate tourists after an earthquake hits?’. The volume provides insights into the ethical, commercial and socioeconomic issues facing tourism after a major earthquake. It will be useful to students and researchers in tourism studies, tourism planning and marketing, natural hazards, and destination and disaster management.

From Shaman to Scientist James Houran, 2004 The writers of *From Shaman to Scientist* take the approach that there is no such thing as the supernatural, only things we don't yet understand. The ghost experience is examined through case studies; forms and functions ghost hunters have taken throughout history; key historical figures and their influence on the research of ghostly phenomena: ghost hunting in the twenty-first century, including the exploding trend of Internet ghost-hunting organizations; and the advances in the theory and technology of the parapsychology field. For those who are skeptical about the reality of ghosts but want to understand how so many individuals claim to have anomalous experiences, this collection reviews the data, offers insight into logical explanations, and discusses why this is - and has been for centuries - such an important and intriguing issue.--BOOK JACKET.

Ghosts of the Triad Michael Renegar, Amy Spease, 2011-08-23 “A fantastic job of storytelling to the point that it literally sends shivers down the reader’s spine . . . entertaining and informative” (YES! Weekly). Don’t be fooled by the scenic beauty of North Carolina’s Piedmont Triad—the ghosts of the past haunt these rolling hills and unique cities. From the smallpox-stricken ghost that haunts Salem Tavern in Winston-Salem to the slain Revolutionary War soldiers who linger in the park surrounding Guilford Courthouse in Greensboro, these phantoms all have a tale to tell. Some ghosts even support education. Take Jane, the lonely spinster who haunts Aycock Auditorium at the UNC-Greensboro campus, or Herschel, High Point University’s ghost of the former Memorial Theater. And though Spookywoods Haunted Attraction in Kersey Valley often frightens and astounds, some of the resident ghosts aren’t just special effects. Join Camel City Spirit Seekers Michael Renegar and Amy Spease as they reveal the eerie and chilling stories from the heart of the Piedmont. Includes photos! “If you want some spooky ghost stories to get you in the mood for Halloween, Triad ghost-hunters/authors Michael Renegar and Amy Spease may have just what you’re looking for.” —The News & Record
