The Flyers George Barr McCutcheon,2004-02

The Flyers George Barr McCutcheon,2015-10-19 A cold, thick drizzle, blown by a biting wind that sent chills to the marrow, marred the early spring night, and kept indoors the few hardy members who had haunted the clubhouse since the season's opening a week before. Not more than a dozen loyal devotees to the sports of the open air lounged about the big clubhouse.

Oromo Democracy Asmarom Legesse,2000 This book reveals the many creative solutions an African society found for problems that people encounter when they try to establish a democratic system of governing their affairs. In much of what has been written about Africa ... Little is ever shown of indigenous African democratic systems, under which there is distribution of authority and responsibility across various strata of society, and where warriors are subordinated to deliberative assemblies, customary laws are revised periodically by a national convention, and elected leaders are limited to a single eight-year terms of office and subjected to public review in the middle of their term. All these ideals and more are enshrined in the five-century old constitution of the Oromo of Ethiopia, which is the subject matter of this book. In this book, Legesse brings into sharp focus the polycephalous or multi-headed system of government of the Oromo, which is based on clearly defined division of labor and checks and balances between different institutions. Revealing the inherent dynamism and sophistication of this indigenous African political system, Legasse also shows in clear and lucid language that the system has had a long and distinguished history, during which the institutions changed by deliberate legislation, and evolved and adapted with time.--Amazon.com.

Schools and Schooling Practices in Pakistan Rashida Qureshi, Fauzia Shamim, 2009 Schools are places where culture is transmitted to the new generation. Culture is produced, reproduced, and transformed in the process. Societies, therefore, pay close attention to the schooling experiences of their future generations. In Pakistani schools, the teaching and learning processes have long been criticized for their poor quality. This book presents research-based evidence of 'good practice' in teaching and teacher education which, on the one hand, challenges the state of despair by offering a ray of hope in improving the quality of school education in Pakistan. On the other hand, these critical accounts of innovative practices, grounded in the reality of schools and classrooms in varied contexts, invite the readers to think about the contexts and conditions that may need to be established for scaling up these and similar reform efforts for improving teaching and teacher education practices in Pakistan and similar settings elsewhere.
