The Art of Gundala Christiawan Lie,2019 Work from the Jakarta based Caravan Studio, conceived as a tribute to comicbook artist Hasmi and his character Gundala.

Telangana People's Struggle and Its Lessons Puccalapalli Sundarayya,1972 Sri Putchalapalli Sundarayya (1 May 1913 - 19 May 1985) was a renowned national liberation fighter. He was one of the founders of the Communist Movement in India and an indefatigable fighter for the rights of toiling masses of India. He led the glorious Telangana peasant armed struggle in the 1940s against the despotic rule of Nizam of Hyderabad and liberated many from the shackles of servitude under Vetti. Sundarayya provides a detailed description of the intricacies - both decision-making and the execution of plans by the various guerilla squads. The book provides a ringside view of the movement of squads, the network of communications and the police terror. It highlights the movement, the years in the forests fighting the Nizam's forces and then the Indian army. It provides a wealth of detail and any account of the Telengana struggle is incomplete without reference to this authoritative work.

STRUKTURAL 2020 Nina Setyaningsih, Sri Mulatsih, Neni Kurniawati, 2021-09-10
We proudly present the proceedings of 2nd International Seminar on Translation Studies, Applied Linguistics, Literature and Cultural Studies 2020 (*STRUKTURAL 2020*). It focuses on how disruptive era influences participants field of researches, especially in Humanities and Social Studies. As we know, the world today is changing and the world we are facing now is the one where everything is connected. Not only are our PCs, our tablets, our hand phones, and other devices connected but everything that happens in societies is also now “connected”. Today, even a robbery incident in a small village has a possibility to make a city in another part of the world collapse. This butterfly effect of social change may also give a big impact in our understanding and our field of study of social sciences and humanities. More than 70 manuscripts were presented at this conference with around 41 of them selected to be published in proceedings. We hope by this conference, discussions on how research on humanities and social studies is possible in a disruptive era will give a perspective for the social and

humanities studies development.

Mind Mapping Bhagavad Gita - I Venkata Shyam Kumar Gundala, 2023-12-27 Lord Krishna in the middle of the battle field gives the highest knowledge to Arjuna about doing his duty for the higher cause while remaining detached to the results. He dwells on different paths of spirituality that would enable people like us to attain permanent happiness by ultimately reaching Him / knowing His true nature. The Lord has taught this in a pattern, every few verses put together present to us an answer for a question or a particular concept; any one verse, one line or one part of the verse if taken in isolation completely misguides the readers. Therefore this work focuses on putting forth a concept in a way that the reader understands it in its true sense; this book primarily uses the technique of mind mapping to present Krishna's teachings using diagrams while grouping the verses based on a concept or relevant derived questions they answer together. These are questions every one of us might have asked ourselves in the journey of our life to the ultimate goal. It is represented in a way, so that it can be easily internalized by the readers to help them implement in their lives. Lord Krishna answered so many questions in the process of teaching Arjuna; this could be your go to book for any life questions and beyond.
