The Black Lizard Big Book of Black Mask Stories Otto Penzler, 2012-05-09 An unstoppable anthology of crime stories culled from Black Mask magazine the legendary publication that turned a pulp phenomenon into literary mainstream. Black Mask was the apotheosis of noir. It was the magazine where the first hardboiled detective story, which was written by Carroll John Daly appeared. It was the slum in which such American literary titans like Dashiell Hammett and Raymond Chandler got their start, and it was the home of stories with titles like “Murder Is Bad Luck,” “Ten Carets of Lead,” and “Drop Dead Twice.” Collected here is best of the best, the hardest of the hardboiled, and the darkest of the dark of America's finest crime fiction. This masterpiece collection represents a high watermark of America's underbelly. Crime writing gets no better than this. Featuring • Deadly Diamonds • Dancing Rats • A Prize Fighter Fighting for His Life • A Parrot that Wouldn't Talk Including • Dashiell Hammett's The Maltese Falcon as it was originally published • Lester Dent's Luck in print for the first time

Horror and Science Fiction Films IV Donald C. Willis,1997 This fourth title in a unique series that combines reference and analytical qualities in chronicling the horror and science fiction genres, *Horror and Science Fiction Films IV* brings the earlier three volumes in the series up to date, concentrating on the period from 1984-1994, as well as updating entries from the previous volumes and adding newly-discovered titles from 1900-1983. Entries in the main list include credits, cast, synopsis, and annotation. The introduction lists 1995 releases in the genres and 1996 releases through the summer, cites the more memorable films in the genres for both the current period and 1900-1984, and serves as an index to key titles in the main list, including long-lost titles such as the -obscure silent *Were Tiger* and the 1931 *The Phantom*. Willis includes many films from around the world that are not found in any other English-language film reference work. One appendix provides thumbnail descriptions of problem and peripheral films; another updates entries in the first three books with alternate titles; and a third appendix serves as an index to the approximately 7,000 films listed in the first three volumes in the series as well as in the current volume, thus bringing the total number of films covered in this series to roughly 11,000 titles.

Japanese Visual Culture Mark W. MacWilliams,2014-12-18 Born of Japan's cultural encounter with Western entertainment media, manga (comic books or graphic novels) and anime (animated films) are two of the most universally recognized forms of contemporary mass culture. Because they tell stories through visual imagery, they vault over language barriers. Well suited to electronic transmission and distributed by Japan's globalized culture industry, they have become a powerful force in both the mediascape and the marketplace. This volume brings together an international group of scholars from many specialties to probe the richness and subtleties of these deceptively simple cultural forms. The contributors explore the historical, cultural, sociological, and religious dimensions of manga and anime, and examine specific sub-genres, artists, and stylistics. The book also addresses such topics as spirituality, the use of visual culture by Japanese new religious movements, Japanese Goth, nostalgia and Japanese pop, cute (kawaii) subculture and comics for girls, and more. With illustrations throughout, it is a rich source for all scholars and fans of manga and anime as well as students of contemporary mass culture or Japanese culture and civilization.

The Greatest Cult Television Shows of All Time Christopher J. Olson,CarrieLynn D. Reinhard,2020-05-29 Reaching back to the beginnings of television, *The Greatest Cult Television Shows* offers readers a fun and accessible look at the 100 most significant cult television series of all time, compiled in a single

resource that includes valuable information on the shows and their creators. While they generally lack mainstream appeal, cult television shows develop devout followings over time and exert some sort of impact on a given community, society, culture, or even media industry. Cult television shows have been around since at least the 1960s, with Star Trek perhaps the most famous of that era. However, the rise of cable contributed to the rise of cult television throughout the 1980s and 1990s, and now, with the plethora of streaming options available, more shows can be added to this categorization. Reaching back to the beginnings of television, the book includes such groundbreaking series as *The Twilight Zone* and *The Prisoner* alongside more contemporary examples like *Crazy Ex-Girlfriend* and *Hannibal*. The authors provide production history for each series and discuss their relevance to global pop culture. To provide a more global approach to the topic, the authors also consider several non-American cult TV series, including British, Canadian, and Japanese shows. Thus, Monty Python's *Flying Circus* appears alongside *Sailor Moon* and *Degrassi Junior High*. Additionally, to move beyond the conception of "cult" as a primarily white, heteronormative, fanboy obsession, the book contains shows that speak to a variety of cult audiences and experiences, such as *Queer as Folk* and *Charmed*. With detailed arguments for why these shows deserve to be considered the greatest of all time, Olson and Reinhard provide ideas for discussion and debate on cult television. Each entry in this book demonstrates the importance of the 100 shows chosen for inclusion and highlights how they offer insight into the period and the cults that formed around them.
