*Popular Medicinal Plants in Portland and Kingston, Jamaica* Ina Vandebroek,David Picking,2020-12-05 This book highlights the results from over a year of ethnobotanical research in a rural and an urban community in Jamaica, where we interviewed more than 100 people who use medicinal plants for healthcare. The goal of this research was to better understand patterns of medicinal plant knowledge, and to find out which plants are used in consensus by local people for a variety of illnesses. For this book, we selected 25 popular medicinal plant species mentioned during fieldwork. Through individual interviews, we were able to rank plants according to their frequency of mention, and categorized the medicinal uses for each species as “major” (mentioned by more than 20% of people in a community) or “minor” (mentioned by more than 5%, but less than 20% of people). Botanical identification of plant specimens collected in the wild allowed for cross-linking of common and scientific plant names. To supplement field research, we undertook a comprehensive search and review of the ethnobotanical and biomedical literature. Our book summarizes all this information in detail under specific sub-headings.

Letters to My Daughter Lea Redmond,2017-07-25 Write Now. Read Later. Treasure Forever. Whether your daughter is still at home or out on her own, fill these twelve prompted letters with precious memories and hopes for a bright future. Each letter begins with a unique prompt like: I love being your parent because... My wishes for you are... I am proud of you because... This keepsake book of twelve prompted letters offers parents a unique way to send love, support, and advice to a daughter of any age. Each letter has a space to write when it was sealed and when it should be opened (will it be tomorrow or in 20 years?). Seal letters with the included stickers before giving this time capsule to your daughter!

Local Food Plants of Brazil Michelle Cristine Medeiros Jacob,Ulysses Paulino Albuquerque,2021-06-03 There has been growing academic interest in local food plants. This is a subject that lies at the frontiers of knowledge of various areas, such as environmental sciences, nutrition, public health, and humanities. To date, however, we do not have a book bringing these multi-disciplinary perspectives to bear on this complex field. This book presents the current state of knowledge on local Brazilian food plants through a multidisciplinary approach, including an overview of food plants in Brazil, as well as comprehensive nutritional data. It compiles basic theories on the interrelationship between biodiversity and food and nutrition security, as well as ethnobotanical knowledge of local Brazilian food plants. Additionally, this title provides various methods of learning and teaching the subject, including through social media, artificial intelligence, and through workshops, among others.

**Adsorption Analysis: Equilibria And Kinetics (With Cd Containing Computer Matlab Programs)** Duong D Do,1998-09-22 This book covers topics of equilibria and kinetics of adsorption in porous media. Fundamental equilibria and kinetics are dealt with for homogeneous as well as heterogeneous particles. Five chapters of the book deal with equilibria and eight chapters deal with kinetics. Single component as well as multicomponent systems are discussed. In kinetics analysis, we deal with the various mass transport processes and their interactions inside a porous particle. Conventional

approaches as well as the new approach using Maxwell-Stefan equations are presented. Various methods to measure diffusivity, such as the Differential Adsorption Bed (DAB), the time lag, the diffusion cell, chromatography, and the batch adsorber methods are also covered by the book. It can be used by lecturers and engineers who wish to carry out research in adsorption. A number of programming codes written in MatLab language are included so that readers can use them directly to better understand the behavior of single and multicomponent adsorption systems.

*Total Quality Management for Engineers* M Zairi,1991-10-30 Written for practitioners and students with an engineering background, this book bridges the gap between their understanding of the techniques of quality control and the wider definition of TQM which is now accepted as a key part of business philosophy. Analyzes the relevance of total quality management (TQM) to changes in the engineering profession in the light of its increased involvement in company practices. It presents a broad picture of TQM and its main aspects and explains why it is considered as the major thrust for future competitiveness.

It Happens Every Spring Catherine Palmer,Gary Chapman,2011-04-21 Meet the characters that live, work, dream, and love in the community of Deepwater Cove. Best-selling authors Gary Chapman and Catherine Palmer team up to show how four married couples, all in different stages in life, experience the joys and hardships of marriage as examined in Gary Chapman's *The Four Seasons of Marriage*. In book one, Steve and Brenda face a common problem among middle-age couples: empty nest syndrome. Steve works too much, and with their two children out of the house, Brenda feels lonely and unfulfilled. In order to save their marriage, the two must learn to reconnect. Readers are also introduced to many charming characters, like Cody, the mentally challenged homeless man that shows up on Steve and Brenda's porch; Pete, who owns the Rods 'N' Ends tackle shop; and Patsy Pringle, who owns the Just As I Am beauty parlor, where much of the action takes place. The series is based on the marriage principles found in Gary Chapman's non-fiction book *The Four Seasons of Marriage*. Similar in tone and light-hearted, quirky humor as Jan Karon's *Mitford* series, Fannie Flagg's books or *Steel Magnolias*. Each book has a study guide that talks about the four seasons of marriage and the healing strategies depicted in that volume's story.

*Management of Gastric Cancer* Paul H. Sugarbaker,2012-12-06 Gastric cancer has been one of the great malignant scourges affecting man kind for as long as medical records have been kept. Until operative resection pioneered by Bilioth and others became available, no effective treatment was feasible and death from cancer was virtually inevitable. Even with resection by total gastrectomy, the chances of tumor eradication remained small. Over recent years, however, the situation has been changing. Some changes have resulted from better understanding of the disease, early detection, and better management techniques with applied clinical research, but the reasons for other changes are poorly understood. For example, the incidence of gastric cancer is decreasing, especially in westernized societies, where it has fallen from one of the most common cancers to no longer being in the top five causes of cancer death. Still it remains the number one killer of adult males in Japan and Korea. Whether the reduced incidence in western societies is a result of dietary changes or methods of food preservation, or some other reason, is as yet uncertain. Improvements in outcome have been reported from mass screening and early detection; more refined techniques of establishing early diagnosis, tumor type, and tumor extent; more radical surgical resection; and resection at earlier stages of disease.

**Eco-Friendly Textile Dyeing and Finishing** Jamshed A Khan,2016-04-01 Years of human ignorance has diminished our natural resources and aged our planet. Now, people are making an effort to change the way they are treating the planet. Being more environmentally conscious about the impact materials used for fashion have on our planet is one-way designers can reduce waste and help enable a better world. By going eco-friendly can be less harmful to our natural resources. Not all fashion is following this eco-friendly trend, but more designers are embracing the trend toward eco-fashion than ever before. If the entire fashion industry became eco-friendly, it would make a huge difference for future generations because the fashion industry employs over a billion people globally. There is need for eco-friendly wet processing that is sustainable and beneficial methods. Number of sustainable practices has been implemented by various textile processing industries such as Eco- friendly bleaching; Peroxide bleaching; Eco-friendly dyeing and Printing; Low impact dyes; Natural dyes; Azo Free dyes; Phthalates Free Printing. There are a variety of materials considered environmentally-friendly for a variety of reasons. The industry is desperately in the need of newer and very efficient dyeing/finishing and functional treatments of textiles. There is growing awareness and readiness to adapt new perspective on industrial upgradation of Cleaner Production Programme, such new technologies help enterprises achieve green production and cost reduction at the same time. Green Production has become necessary for enterprises under the upgrade and transformation policy. The book *Eco-Friendly Textile Dyeing and Finishing* covers topics in the area of sustainable practices in textile dyeing and finishing.

**A Primer on Experiments with Mixtures** John A. Cornell,2011-09-26 The concise yet authoritative presentation of key techniques for basic mixtures

experiments Inspired by the author's bestselling advanced book on the topic, A Primer on Experiments with Mixtures provides an introductory presentation of the key principles behind experimenting with mixtures. Outlining useful techniques through an applied approach with examples from real research situations, the book supplies a comprehensive discussion of how to design and set up basic mixture experiments, then analyze the data and draw inferences from results. Drawing from his extensive experience teaching the topic at various levels, the author presents the mixture experiments in an easy-to-follow manner that is void of unnecessary formulas and theory. Succinct presentations explore key methods and techniques for carrying out basic mixture experiments, including: Designs and models for exploring the entire simplex factor space, with coverage of simplex-lattice and simplex-centroid designs, canonical polynomials, the plotting of individual residuals, and axial designs Multiple constraints on the component proportions in the form of lower and/or upper bounds, introducing L-Pseudocomponents, multicomponent constraints, and multiple lattice designs for major and minor component classifications Techniques for analyzing mixture data such as model reduction and screening components, as well as additional topics such as measuring the leverage of certain design points Models containing ratios of the components, Cox's mixture polynomials, and the fitting of a slack variable model A review of least squares and the analysis of variance for fitting data Each chapter concludes with a summary and appendices with details on the technical aspects of the material. Throughout the book, exercise sets with selected answers allow readers to test their comprehension of the material, and References and Recommended Reading sections outline further resources for study of the presented topics. A Primer on Experiments with Mixtures is an excellent book for one-semester courses on mixture designs and can also serve as a supplement for design of experiments courses at the upper-undergraduate and graduate levels. It is also a suitable reference for practitioners and researchers who have an interest in experiments with mixtures and would like to learn more about the related mixture designs and models.
