Sanskrit & Prakrit, Sociolinguistic Issues Madhav Deshpande, 1993 This volume brings together eight contributions of Professor Madhav M. Deshpande relating to the historical sociolinguistics of Sanskrit and Prakrit languages. The studies brought together here represent his continuing research in this field after his 1979 book: *Sociolinguistic Attitudes in India: An Historical Reconstruction*. The main thrust of these studies is to show that patterns of language, including grammatical theories are deeply influenced by political, religious, geographical, and other sociohistorical factors. This is true as much of ancient languages as it is for modern languages.

Kriya Yoga Unlocked Triloki Nath, This is a Kriya Yoga book intended to be read and practised by everyone, with/without initiation. Every word uttered by a Yogi has a special meaning that is totally unintelligible to even the highly intellectual people. This book is written in such a way that everyone can follow it up while trading the path of Kriya. People think that they are very intelligent, but if they try to understand very seriously, they realize perfectly that nothing is happening according to their intellect. Only those whose breath is not blowing in the left or right nostril are intelligent in this world. When breathing is faster, then in one day and one night respiration can flow up to 113,680 times. Normally during the same time, the figure is 21,600 times. During a day and night, if respiration is faster than usual, the breath can flow in and out 113,680 times. Normally, in the course of a day and night, there are 21,600 breaths. This figure is reduced by Kriya practice to 2,000 times. So, breathing 1,000 times in the day and 1,000 times in the night, in a normal course, provides greater Tranquility to a Yogi. One of his breaths takes about 44 seconds. Such a Yogi is matured in Kriya practice. Thoughts are inseparably related to breathing. So, when the number of breaths is reduced, thoughts are reduced proportionately. Eventually, with the tranquilization of breath, thoughts are dissolved. Thereby, the seeker can attain the After-effect-poise of Kriya, or eternal Tranquility, which is Amrita, nectar proper.

The Menace Discovered Stewart McGowan, 2017-04-04 Over two hundred years ago, the ruthless Guruko invaded Earth to enslave humanity. Ninety percent of the world's population was placed in chains and taken off world as slaves for the Guruko empire before the remaining humans could find the strength to retaliate. Now, humanity has risen from the ashes as the Earth Collective and have colonized many of the solar systems around their homeworld. Peace has reigned for centuries, but may be at an end when the elite strategist Captain George Sherman was forced to defend the Earth Collective's most remote system from a possible new invader. After the short victorious battle, George's picket fleet was approached by the leader of the attacking forces. They called themselves the Shrillen and claimed to have attacked in error. The alien informed George that the Guruko have been eliminated by a more threatening species known as The Menace, and requested their assistance with fighting this dangerous foe. George's instincts screamed at him that the aliens had an ulterior motive. Will his superiors heed his warning or will catastrophe strike again at the heart of mankind?
