**Alan Sepinwall**

Boy @ the Window Donald Earl Collins,2013-11 As a preteen Black male growing up in Mount Vernon, New York, there were a series of moments, incidents and wounds that caused me to retreat inward in despair and escape into a world of imagination. For five years I protected my family secrets from authority figures, affluent Whites and middle class Blacks while attending an unforgiving gifted-track magnet school program that itself was embroiled in suburban drama. It was my imagination that shielded me from the slights of others, that enabled my survival and academic success. It took everything I had to get myself into college and out to Pittsburgh, but more was in store before I could finally begin to break from my past. *Boy @ The Window* is a coming-of-age story about the universal search for understanding on how any one of us becomes the person they are despite-or because-of-the odds. It's a memoir intertwined with my own search for redemption, trust, love, success-for a life worth living. *Boy @ The Window* is about one of the most important lessons of all: what it takes to overcome inhumanity in order to become whole and human again.

*The American Villain* Richard A. Hall,2020-12-02 The American Villain: Encyclopedia of Bad Guys in Comics, Film, and Television seeks to provide one go-to reference for the study of the most popular and iconic villains in American popular culture. Since the 1980s, pop culture has focused on what makes a villain

a villain. The Joker, Darth Vader, and Hannibal Lecter have all been placed under the microscope to get to the origins of their villainy. Additionally, such bad guys as Angelus from Buffy the Vampire Slayer and Barnabas Collins from Dark Shadows have emphasized the desire for redemption—in even the darkest of villains. Various incarnations of Lucifer/Satan have even gone so far as to explore the very foundations of what we consider evil. The American Villain: Encyclopedia of Bad Guys in Comics, Film, and Television seeks to collect all of those stories into one comprehensive volume. The volume opens with essays about villains in popular culture, followed by 100 A-Z entries on the most notorious bad guys in film, comics, and more. Sidebars highlight ancillary points of interest, such as authors, creators, and tropes that illuminate the motives of various villains. A glossary of key terms and a bibliography provide students with resources to continue their study of what makes the baddest among us so bad.

Breaking Bad David P. Pierson, 2013-11-21 Breaking Bad: Critical Essays on the Contexts, Politics, Style, and Reception of the Television Series, edited by David P. Pierson, examines the social contexts, cultural politics, and visual, aural, and narrative style of AMC's original series Breaking Bad. This collection of

critical essays explores such topics as neo-liberalism, spatiality and temporality, modern science and its principles, the representation of masculinity, Latinos, and disabilities, the function of narrative teasers and songs, and the role of emotions as dramatic action in the series.

Masculinity in Breaking Bad Bridget Roussell

Cowlshaw, 2015-03-11 Following on author Peter Rollins' motto If it isn't popular, it isn't culture, this collection of new essays considers Vince Gilligan's award-winning television series *Breaking Bad* as a landmark of Western culture--comparable to the works of Shakespeare and Dickens in their time--that merits scholarly attention from those who would understand early the 21st century zeitgeist. The essayists explore the series as a critique of American concepts of masculinity, with Walter White discussed as a father archetype--provider, protector, author of a legacy--and as a Machiavellian warrior on the capitalist battleground. Other topics include the mutual exclusivity of intellect and masculinity in American culture, and the dramatic irony as White's rationales for his criminal life are gradually revealed as a lie. In round table chapters, contributors discuss the show's reception, fans who root for Team Walt, Skyler-hating and *Breaking Bad* as a feminist text.

*Global Trafficking Networks on Film and Television* César

Albarrán-Torres, 2021-03-07 This book draws on a multi-method study of film and television narratives of global criminal networks to explore the links between audiovisual media, criminal networks and global audiences in the age of digital content distribution. Mapping out media representations of the ongoing war on drugs in Mexico and the United States, the author delves into the social, cultural and geopolitical impacts of distribution and consumption of these media. With a particular emphasis on the globalized Mexican cartels, this book investigates three areas - gender and racial representation in film and television, the digital distribution of content through the internet and streaming services such as

Hulu and Netflix, and depictions of extreme violence in film, television and online spaces – to identify whether there are fundamental similarities and differences in how Hollywood productions reproduce stereotypes about race, gender and extreme violence. Some of the movies and television series analysed are *Breaking Bad*, *Ozark*, *Weeds*, *Rambo: Last Blood*, *No Country for Old Men*, *Sicario* and the Netflix series *Narcos*, *Narcos: Mexico* and *El Chapo*. Taking a unique interdisciplinary approach to the study of cartels in the media, this book will be of interest to students and scholars of media studies, film, television, security studies, Latin American and cultural studies.

**Breaking Down Breaking Bad: Unpeeling the Layers of Television's Greatest Drama** Eric San Juan,

Breaking Bad and Cinematic Television Angelo

Restivo, 2019-03-08 With its twisty serialized plots, compelling antiheroes, and stylish production, *Breaking Bad* has become a signature series for a new golden age of television, in which some premium cable shows have acquired the cultural prestige usually reserved for the cinema. In *Breaking Bad and Cinematic Television* Angelo Restivo uses the series as a point of departure for theorizing a new aesthetics of television: one based on an understanding of the cinematic that is tethered to affect rather than to medium or prestige. Restivo outlines how *Breaking Bad* and other contemporary “cinematic” television series take advantage of the new possibilities of postnetwork TV to create an aesthetic that inspires new ways to think about how television engages with the everyday. By exploring how the show presents domestic spaces and modes of experience under neoliberal capitalism in ways that allegorize the perceived twenty-first-century failures of masculinity, family, and the American Dream, Restivo shows how the televisual cinematic has the potential to change the ways viewers relate to and interact with the world.

**Philosophy and *Breaking Bad*** Kevin S. Decker, David R. Koepsell, Robert Arp, 2016-11-23 This volume considers the numerous philosophical ideas and arguments found in and inspired by the critically acclaimed series *Breaking Bad*. This show garnered both critical and popular attention for its portrayal of a cancer-stricken, middle-aged, middle-class, high school chemistry teacher's drift into the dark world of selling methamphetamine to support his family. Its characters, situations, and aesthetic raise serious and familiar philosophical issues, especially related to ethics and morality. The show provokes a bevy of rich questions and discussion points, such as: What are the ethical issues surrounding drugs? What lessons about existentialism and fatalism does the show present? How does the show grapple with the concept of the end 'justifying' the means? Is Walt really free not to 'break bad'? Can he be redeemed? What is the definition and nature of badness (or evil) itself? Contributors address these and other questions as they dissect the legacy of the show and discuss its contributions to philosophical conversations.

**Breaking Bad and Philosophy** David Richard Koepsell, Robert Arp, 2012 The hit television drama *Breaking Bad* is discussed by

professional thinkers who compare the major themes of the show with philosophical concepts and answer questions about injustice, retaliation and the potential of everyone to become a ruthless criminal. Original.

**Breaking Bad and Dignity** Elliott Logan, 2016-01-26 An ambitious interpretation of the critically celebrated and widely popular crime drama *Breaking Bad*, this book argues that not only should the series be understood as a show that revolves around the dramatic stakes of dignity, but that to do so reveals - in new ways - central aspects of serial television drama as an art form.

**Meat!** Sushmita Chatterjee, Banu Subramaniam, 2021-02-15 What is meat? Is it simply food to consume, or a metaphor for our own bodies? Can “bloody” vegan burgers, petri dish beef, live animals, or human milk be categorized as meat? In pursuing these questions, the contributors to *Meat!* trace the shifting boundaries of the meanings of meat across time, geography, and cultures. In studies of chicken, fish, milk, barbecue, fake meat, animal sacrifice, cannibalism, exotic meat, frozen meat, and other manifestations of meat, they highlight meat's entanglements with race, gender, sexuality, and disability. From the imperial politics embedded in labeling canned white tuna as “the chicken of the sea” to the relationship between beef bans, yoga, and bodily purity in Hindu nationalist politics, the contributors demonstrate how meat is an ideal vantage point from which to better understand transnational circuits of power and ideology as well as the histories of colonialism, ableism, and sexism. Hamilton, Anita Mannur, Elspeth Probyn, Parama Roy, Banu Subramaniam, Angela Willey, Psyche Williams-Forsen
