Private International Law and Global Governance Horatia Muir Watt, Diego P. Fernández Arroyo, 2014-12-18 Contemporary debates about the changing nature of law engage theories of legal pluralism, political economy, social systems, international relations (or regime theory), global constitutionalism, and public international law. Such debates reveal a variety of emerging responses to distributional issues which arise beyond the Western welfare state and new conceptions of private transnational authority. However, private international law tends to stand aloof, claiming process-based neutrality or the apolitical nature of private law technique and refusing to recognize frontiers beyond those of the nation-state. As a result, the discipline is paradoxically ill-equipped to deal with the most significant cross-border legal difficulties - from immigration to private financial regulation - which might have been expected to fall within its remit. Contributing little to the governance of transnational non-state power, it is largely complicit in its unhampered expansion. This is all the more a paradox given that the new thinking from other fields which seek to fill the void - theories of legal pluralism, peer networks, transnational substantive rules, privatized dispute resolution, and regime collision - have long been part of the daily fare of the conflict of laws. The crucial issue now is whether private international law can, or indeed should, survive as a discipline. This volume lays the foundations for a critical approach to private international law in the global era. While the governance of global issues such as health, climate, and finance clearly implicates the law, and particularly international law, its private law dimension is generally invisible. This book develops the idea that the liberal divide between public and private international law has enabled the unregulated expansion of transnational private power in these various fields. It explores the potential of private international law to reassert a significant governance function in respect of new forms of authority beyond the state. To do so, it must shed a number of assumptions entrenched in the culture of the nation-state, but this will permit the discipline to expand its potential to confront major issues in global governance.

The Lightstone David Zindell, 2007-05-01 On the island continent of Ea it is a dark time of chaos and war. Morjin, immortal fallen angel and Lord of Lies, seeks to enslave the entire world. His dreaded assassins are everywhere and land after land falls under his evil power. The one thing that has the potential to destroy him is an object that has been lost for ages: the fabulous Lightstone that legend tells was crafted by the ancient Star people. A call is sent out by one of the major rulers still free of Morjin's grip to all those who oppose the dreaded sorcerer. It is nothing less than a quest to find the Lightstone and give Men hope after ages of despair. It is a quest that none have seen the like of in ten generations. And most believe is doomed to fail. What hero is man enough, brave enough...or foolish enough to embark on such a mad quest? Valashu Elahad, the seventh and youngest Valeri prince of the royal house of Mesh is such a man. With his faithful companion Maram by his side Valashu will journey to the farthest reaches of Ea to try and reclaim this mystical object, to free the world of Morjin's evil and save his people from sure destruction. Along the way he will discover truths about friendship, courage...and love. And the terrible truth about the being who threatens to sunder his world.

Semitic Noun Patterns Joshua Fox, 2018-08-14 This is the first complete study of Semitic internal noun patterns since that of Jacob Barth, over a century ago. Drawing on the earlier work of Semitists and linguists, this work presents a comprehensive new synthesis. This diachronic-comparative study presents the internal patterns individually and organizes them systematically. This study investigates the special role of noun patterns in isolated nouns and gives a complete list of reconstructible isolated nouns. This diachronic-comparative study presents the internal patterns individually and organizes them systematically. The roles of the patterns in the derivation of nouns from roots, and in nominal inflection, are shown as part of a reconstructed system. This study investigates the special role of noun patterns in isolated nouns, and gives a complete list of reconstructible isolated nouns. The heart of the book is devoted to studies of all individual reconstructible internal patterns with their Semitic reflexes, including mono- and bisyllabics and patterns with ungeminated or geminated second or third consonants. The book reaches conclusions on the structure of the Proto-Semitic pattern system, including categories of reconstructible and non-reconstructible patterns, semantic groups of patterns, and relationships between different patterns. Further, patterns merge and split diachronically, appearing in different roles in the attested languages, where new pattern systems are formed.

Lord of Lies David Zindell, 2009-03-03 The seventh and youngest Valeri, Valashu Elahad, noble warrior and prince of the royal house of Mesh, has sought the mythical Lightstone in a quest to stop the dreaded Dark Angel Morjin from enslaving all of Ea. With his stalwart companions, Val braved great dangers and fought many battles in their search for this elusive totem. And find the sacred object they did. But sometimes fulfilling a quest doesn't bring serenity but instead madness untold. Now that the Lightstone has finally been found, Morjin will use all of his talents to get it back. Val's victory in Argattha was only the beginning of a war with Morjin. Val knows that he alone must protect the sacred vessel. But he is coming to understand just what powers he is confronting and he is not sure that he is strong enough to follow the path of righteousness. He wonders who he can trust to help him as he encounters treasonous plots and betrayal by those closest to him, evidence of Morjin's power to destroy him and take the Lightstone.

Conflicts in a Conflict Michael Mousa Karayanni, 2014 'Conflicts in a Conflict' outlines and analyzes the legal doctrines instructing the Israeli courts in private and civil disputes involving the Occupied Palestinian Territories of the West Bank and the Gaza Strip, since 1967 until the present day. This book's compelling thesis is the existence of a close relationship between conflict of laws doctrines as they developed over the years, and Israeli policies generally in respect of the Palestinian Territories.

Persian-English Dictionary F. Steingass, 2018-10-24 First published in 2004. This dictionary is a valuable resource for Persian to English translation and includes Arabic Words and Phrases to be found in Persian literature. The initial aim originally laid down for this Dictionary was to prepare a revised edition of Johnson's enlargement of Wilkins-Richardson's Persian, Arabic, and English Dictionary, by

reducing the Arabic element and increasing the Persian, so as to produce a volume of moderate dimensions and price, specially adapted to the wants of the English Student.

A Dictionary, Persian, Arabic, and English Francis Johnson,1852 Dispelling our most cherished myths about work-family balance, Suzanne Venker argues in The Two-Income Trap that women who want to get married and have children will find their home lives less chaotic and far more satisfying by making motherhood, not career, their primary focus. The premise of The Two-Income Trap: Why Parents Are Choosing to Stay Home is that childrearing is no longer recognized for the enormous undertaking it is. Having it all is an impossible goal for anyone, male or female. The needs of children dont allow two married parents the freedom to dedicate themselves fully to something else. Its time to shift our paradigm. There is value in pursuing both work and family; but prioritizing family over career, and being realistic with ones goals, is the only way women can be successful at both. The Two-Income Trap does two things: helps elevates the status of parents at home, and helps mothers who want to be employed create a life that works.
