Harlem Shuffle Colson Whitehead,2021-09-14 NEW YORK TIMES BESTSELLER • From the two-time Pulitzer Prize-winning author of *The Underground Railroad* and *The Nickel Boys*, this gloriously entertaining novel is “fast-paced, keen-eyed and very funny ... about race, power and the history of Harlem all disguised as a thrill-ride crime novel (San Francisco Chronicle). Ray Carney was only slightly bent when it came to being crooked... To his customers and neighbors on 125th street, Carney is an upstanding salesman of reasonably priced furniture, making a decent life for himself and his family. He and his wife Elizabeth are expecting their second child, and if her parents on Striver's Row don't approve of him or their cramped apartment across from the subway tracks, it's still home. Few people know he descends from a line of uptown hoods and crooks, and that his façade of normalcy has more than a few cracks in it. Cracks that are getting bigger all the time. Cash is tight, especially with all those installment-plan sofas, so if his cousin Freddie occasionally drops off the odd ring or necklace, Ray doesn't ask where it comes from. He knows a discreet jeweler downtown who doesn't ask questions, either. Then Freddie falls in with a crew who plan to rob the Hotel Theresa—the Waldorf of Harlem—and volunteers Ray's services as the fence. The heist doesn't go as planned; they rarely do. Now Ray has a new clientele, one made up of shady cops, vicious local gangsters, two-bit pornographers, and other assorted Harlem lowlifes. Thus begins the internal tussle between Ray the striver and Ray the crook. As Ray navigates this double life, he begins to see who actually pulls the strings in Harlem. Can Ray avoid getting killed, save his cousin, and grab his share of the big score, all while maintaining his reputation as the go-to source for all your quality home furniture needs? Harlem Shuffle's ingenious story plays out in a beautifully recreated New York City of the early 1960s. It's a family saga masquerading as a crime novel, a hilarious morality play, a social novel about race and power, and ultimately a love letter to Harlem. But mostly, it's a joy to read, another dazzling novel from the Pulitzer Prize and National Book Award-winning Colson Whitehead. Look for Colson Whitehead's new novel, *Crook Manifesto*, coming soon!

The Oxford Handbook of Screendance Studies Douglas Rosenberg,2016 The Oxford Handbook of Screendance Studies offers a full overview of the histories, practices, and critical and theoretical foundations of the rapidly changing landscape of screendance. Drawing on their practices, technologies, theories, and philosophies, scholars from the fields of dance, performance, visual art, cinema and media arts articulate the practice of screendance as an interdisciplinary, hybrid form that has yet to be correctly sited as an academic field worthy of critical investigation. Each chapter discusses and reframes current issues, as a means of promoting and enriching dialogue within the wider community of dance and the moving image. Topics addressed embrace politics of the body; agency, race, and gender in screendance; the relationship of choreography to image; constructs of space and time; representation and effacement; production and curatorial practice; and other areas of intersecting disciplines. The Oxford Handbook of Screendance Studies features newly-commissioned and original scholarship that will be essential reading for all those interested in the intersection of dance and the moving image, including film and video-makers, dance artists, screendance artists, academics and writers, producers, composers, as well as the wider interested public. It will become an invaluable resource for researchers and professionals in the field.

Remediating Sound Holly Rogers,Joana Freitas,João Francisco Porfirio,2023-09-07 Remediating Sound studies the phenomena of remixing, mashup and recomposition: forms of reuse and sampling that have come to characterise much of YouTube's audiovisual content. Through collaborative composition, collage and cover songs to reaction videos and political activism , users from diverse backgrounds have embraced the democratised space of YouTube to open up new and innovative forms of sonic creativity and push the boundaries of audiovisual possibilities. Observing the reciprocal flow of influence that runs between various online platforms, 12 chapters position YouTube as a central hub for the exploration of digital sound, music and the moving image. With special focus on aspects of networked creativity that remain overlooked in contemporary scholarship, including library music, memetic media, artificial intelligence, the sonic arts and music fandom, this volume offers interdisciplinary insight into contemporary audiovisual culture.

Zoomland Florentina Armaselu,Andreas Fickers,2023-12-31 Despite a variety of theoretical and practical undertakings, there is no coherent understanding of the concept of scale in digital history and humanities, and its potential is largely unexplored. A clearer picture of the whole spectrum is needed, from large to small, distant to close, global to local, general to specific, macro to micro, and the in-between levels. The book addresses these issues and sketches out the territory of Zoomland, at scale. Four regions and sixteen chapters are conceptually and symbolically depicted through three perspectives: bird's eye, overhead, and ground view. The variable-scale representation allows for exploratory paths covering areas such as: theoretical and applicative reflections on scale combining a digital dimension with research in history, media studies, cultural heritage, literature, text analysis, and map modelling; creative use of scale in new digital forms of analysis, data organisation, interfaces, and argumentative or artistic expressions. Zoomland provides a systematic discussion on the epistemological dimensions, hermeneutic methods, empirical tools, and aesthetic logic pertaining to scale and its innovative possibilities residing in humanities-based approaches and digital technologies.

Are You Entertained? Simone C. Drake,Dwan K. Henderson,2020-02-28 The advent of the internet and the availability of social media and digital downloads have expanded the creation, distribution, and consumption of Black cultural production as never before. At the same time, a new generation of Black public intellectuals who speak to the relationship between race, politics, and popular culture has come into national prominence. The contributors to *Are You Entertained?* address these trends to consider what culture and blackness mean in the twenty-first century's digital consumer economy. In this collection of essays, interviews, visual art, and an artist statement the contributors examine a range of topics and issues, from music, white consumerism, cartoons, and the rise of Black Twitter to the NBA's dress code, dance, and Moonlight. Analyzing the myriad ways in which people perform, avow, politicize, own, and love blackness, this volume charts the shifting debates in Black popular culture scholarship over the past quarter century while offering new avenues for future scholarship. The Routledge Companion to Remix Studies Eduardo Navas,Owen Gallagher,xtime burrough,2014-11-27 The Routledge Companion to Remix Studies comprises contemporary texts by key authors and artists who are active in the emerging field of remix studies. As an organic international movement, remix culture originated in the popular music culture of the 1970s, and has since grown into a rich cultural activity encompassing numerous forms of media. The act of recombining pre-existing material brings up pressing questions of authenticity, reception, authorship, copyright, and the techno-politics of media activism. This book approaches remix studies from various angles, including sections on history, aesthetics, ethics, politics, and practice, and presents theoretical chapters alongside case studies of remix projects. The Routledge Companion to Remix Studies is a valuable resource for both researchers and remix practitioners, as well as a teaching tool for instructors using remix practices in the classroom.

Creativities Bilton, Chris,Cummings, Stephen,ogilvie, dt,2022-06-07 What is creativity and how can we best nurture creativity in different contexts? Drawing on a wide range of cases from the arts, business, design, media and sports, Creativities encourages readers to discover, mix, and adapt their own version of creativity, rather than attempting to imitate or follow ‘best practice’.

Science, Technology, and Art in International Relations J.P. Singh,Madeline Carr,Renée Marlin-Bennett,2019-03-01 This volume brings together

19 original chapters, plus four substantive introductions, which collectively provide a unique examination of the issues of science, technology, and art in international relations. The overarching theme of the book links global politics with human interventions in the world: We cannot disconnect how humans act on the world through science, technology, and artistic endeavors from the engagements and practices that together constitute IR. There is science, technology, and even artistry in the conduct of war—and in the conduct of peace as well. Scholars and students of international relations are beginning to explore these connections, and the authors of the chapters in this volume from around the world are at the forefront.

Swim Pretty Jennifer A. Kokai, 2017-06-28 Drawing on cultural associations with bodies of water, the spectacle of pretty women, and the appeal of the concept of “family-friendly” productions, performative aquatic spectacles portray water as an exotic fantasy environment exploitable for the purpose of entertainment. In *Swim Pretty*, Jennifer A. Kokai reveals the influential role of aquatic spectacles in shaping cultural perceptions of aquatic ecosystems in the United States over the past century. Examining dramatic works in water and performances at four water parks, Kokai shows that the evolution of these works and performances helps us better understand our ever-changing relationship with the oceans and their inhabitants. Kokai sorts the regard for and harnessing of water in aquatic spectacles into three categories—natural, tamed, and domesticated—and discusses the ways in which these modes of water are engaged in the performances through an aesthetics of descension. Ultimately, this study links the uncritical love of aquatic spectacles to a disregard for the rights of marine animals and lack of concern for the marine environment.

That Sinking Feeling Stefan Wellgraf, 2023-08-11 Emotions, especially those of impoverished migrant families, has long been underrepresented in German social and cultural studies. *That Sinking Feeling* raises the visibility of the emotional dimensions of exclusion processes and locates students in current social transformations. Drawing from a year of ethnographic fieldwork with grade ten students, Stefan Wellgraf’s study on an array of both classic emotions and affectively charged phenomena reveals a culture of devaluation and self-assertion of the youthful, post-migrant urban underclass in neoliberal times.

The Psychology of Social Media Ciarán Mc Mahon, 2019-03-25 Are we really being ourselves on social media? Can we benefit from connecting with people we barely know online? Why do some people overshare on social networking sites? *The Psychology of Social Media* explores how so much of our everyday lives is played out online, and how this can impact our identity, wellbeing and relationships. It looks at how our online profiles, connections, status updates and sharing of photographs can be a way to express ourselves and form connections, but also highlights the pitfalls of social media including privacy issues. From FOMO to fraping, and from subtweeting to selfies, *The Psychology of Social Media* shows how social media has developed a whole new world of communication, and for better or worse is likely to continue to be an essential part of how we understand our selves.

The Harlem Charade Natasha Tarpley, 2017-01-31 Fans of *Chasing Vermeer* will love this clever mystery about art, artifice, and the power of community. WATCHER. SHADOW. FUGITIVE. Harlem is home to all kinds of kids. Jin sees life passing her by from the window of her family's bodega. Alex wants to help the needy one shelter at a time, but can't tell anyone who she really is. Elvin's living on Harlem's cold, lonely streets, surviving on his own after his grandfather was mysteriously attacked. When these three strangers join forces to find out what happened to Elvin's grandfather, their digging leads them to an enigmatic artist whose missing masterpieces are worth a fortune—one that might save the neighborhood from development by an ambitious politician who wants to turn it into Harlem World, a ludicrous historic theme park. But if they don't find the paintings soon, nothing in their beloved neighborhood will ever be the same . . . In this remarkable tale of daring and danger, debut novelist Natasha Tarpley explores the way a community defines itself, the power of art to show truth, and what it really means to be home.

Free Speech Beyond Words Mark V. Tushnet, Alan K. Chen, Joseph Blocher, 2020-02-15 The Supreme Court has unanimously held that Jackson Pollock’s paintings, Arnold Schönberg’s music, and Lewis Carroll’s poem “Jabberwocky” are “unquestionably shielded” by the First Amendment. Nonrepresentational art, instrumental music, and nonsense: all receive constitutional coverage under an amendment protecting “the freedom of speech,” even though none involves what we typically think of as speech—the use of words to convey meaning. As a legal matter, the Court’s conclusion is clearly correct, but its premises are murky, and they raise difficult questions about the possibilities and limitations of law and expression. Nonrepresentational art, instrumental music, and nonsense do not employ language in any traditional sense, and sometimes do not even involve the transmission of articulable ideas. How, then, can they be treated as “speech” for constitutional purposes? What does the difficulty of that question suggest for First Amendment law and theory? And can law resolve such inquiries without relying on aesthetics, ethics, and philosophy? Comprehensive and compelling, this book represents a sustained effort to account, constitutionally, for these modes of “speech.” While it is firmly centered in debates about First Amendment issues, it addresses them in a novel way, using subject matter that is uniquely well suited to the task, and whose constitutional salience has been under-explored. Drawing on existing legal doctrine, aesthetics, and analytical philosophy, three celebrated law scholars show us how and why speech beyond words should be fundamental to our understanding of the First Amendment.

Videocracy Kevin Allocca, 2018-01-25 From YouTube's Head of Culture and Trends, a rousing and illuminating behind-the-scenes exploration of internet video's massive impact on our world. Whether your favorite YouTube video is a cat on a Roomba, “Gangnam Style,” the “Bed Intruder” song, an ASAPscience explainer, Rebecca Black’s “Friday,” or the “Evolution of Dance,” Kevin Allocca's *Videocracy* reveals how these beloved videos and famous trends--and many more--came to be and why they mean more than you might think. YouTube is the biggest pool of cultural data since the beginning of recorded communication, with four hundred hours of video uploaded every minute. (It would take you more than sixty-five years just to watch the vlogs, music videos, tutorials, and other content posted in a single day!) This activity reflects who we are, in all our glory and ignominy. As Allocca says, if aliens wanted to understand our planet, he'd give them Google. If they wanted to understand us, he'd give them YouTube. In *Videocracy*, Allocca lays bare what YouTube videos say about our society and how our actions online--watching, sharing, commenting on, and remixing the people and clips that captivate us--are changing the face of entertainment, advertising, politics, and more. Via YouTube, we are fueling social movements, enforcing human rights, and redefining art--a lot more than you'd expect from a bunch of viral clips.

The Number Ones Tom Breihan, 2022-11-15 Beloved music critic Tom Breihan's fascinating narrative of the history of popular music through the lens of game-changing #1 singles from the Billboard Hot 100. When Tom Breihan launched his *Stereogum* column in early 2018, “The Number Ones”—a space in which he has been writing about every #1 hit in the history of the Billboard Hot 100, in chronological order—he figured he’d post capsule-size reviews for each song. But there was so much more to uncover. The column has taken on a life of its own, sparking online debate and occasional death threats. The Billboard Hot 100 began in 1958, and after four years of posting the column, Breihan is still in the early aughts. But readers no longer have to wait for his brilliant synthesis of what the history of #1s has meant to music and our culture. In *The Number Ones*, Breihan writes about twenty pivotal #1s throughout chart history, revealing a remarkably fluid and connected story of music that is as entertaining as it is enlightening. *The Number Ones* features the greatest pop artists of all time, from the Brill Building songwriters to the Beatles and the Beach Boys;

from Motown to Michael Jackson, Prince, and Mariah Carey; and from the digital revolution to the K-pop system. Breihan also ponders great artists who have never hit the top spot, like Bob Dylan, Bruce Springsteen, and James Brown. Breihan illuminates what makes indelible ear candy across the decades—including dance crazes, recording innovations, television phenomena, disco, AOR, MTV, rap, compact discs, mp3s, social media, memes, and much more—leaving readers to wonder what could possibly happen next.
