*HAUNEBU: THE SECRET FILES* David Childress,2020-01-01 David Childress, popular author and star of the History Channel show Ancient Aliens, brings us the incredible tale of the German flying disk known as the Haunebu. Although rumors of German flying disks have been around since the late years of WWII it was not until 1989 when a German researcher named Ralf Ettl living in London received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft—craft which we would classify today as UFOs or flying saucers. Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe. What the Ralf Ettl document dump shows us is what many have suspected for a long time: that WWII did not end in the manner in which we have been told, and a remnant of the Nazi military—particularly the SS—continued to operate flying saucers and submarines around the world in the decades after the end of the war. This activity—involving a flying saucer known as the Haunebu—was particularly notable in South America, but it ultimately involved all the continents of the world including Antarctica. Join Childress as he shows us the secret files involving the Haunebu, the Vril craft, the Andromeda craft, and others. Includes a 16-page color section. Over 120 photographs and diagrams.

*Haunebu I & II, Prelude to War* George & Georgene Brown,2021-10-11 Flying Saucers, Nazis and Pirates, oh my! Want to know what really happened in New Mexico in the late '40s. Why are there so many UFO sightings today? How do the UFOs go faster than our military planes, even underwater? Find the answers to these and many more questions. During WWII, the German Chancellor daydreamed that a middle Earth Society gave him the plans for anti-gravity ships. He then gave his top generals the plans to implement and use against the Allies. Unfortunately, the ant-gravity craft was too technically complex for the Nazis to construct safely. Eventually, both Nazi prototypes were destroyed, but the Russians decided to make a quick buck off the German piles of junk after the war. They sold the Nazi flying saucer plans and related junk to a retired Canadian Major General Phillip Rogers. His company Advanced Design and Experimental Aircraft Company built the first flying saucer since WWII. Unfortunately, the Nazis designed their craft small, so Phillip Roger's had to employ three little people to fly it. Nevertheless, their exploits led them worldwide and eventually ended up at Roswell, New Mexico, in July 1947. After his first catastrophe, Phillip Rogers builds the Haunebu II. He turns the flight over to active duty United States Army Colonel Ron Steel. During construction and testing, Ron and his crew battle a rogue Nazi unit headed up by General Percy Odenthal. It all concludes in the final battle in the Antarctic. It is now a coalition of countries headed up by Canada and their beautiful Prime Minister, Adrian Barbeau. Follow the United States Navy in an all-out war to rid the world of the 4th Reich.

**Haunebu V & VI, Prisoners of War** Georgene Brown,George W Brown,2023-09-08 Yikes, more Nazis, flying saucers and pirates. This time, the Advanced Design and Experimental Aircraft Company implements two spies who look like Ron Steel and Adrian Barbeau. This pair, David Newton and Marsha Brewer go into battle against Percy Odenthal to thwart the 4th Reich. Phil Rogers and Ron Steel hatched this idea in an effort to destroy the resources of the 4th Reich and sink the infamous USS Bloodmore, captained by Eugene S. Py-rate, an ex-US Navy Admiral who was scapegoated and now hates the United States and Canada and everything they stand for and swore allegiance to Percy Odenthal. General Reynolds, Odenthal's right-hand man, makes every effort to capture the fake Ron Steel and Adrian Barbaeu. This adventure culminates in a battle to rid the world of the Nazi 4th Reich. But with a surprising outcome!

**Nazi Moonbase** Graeme Davis,2016-04-21 In the dying days of World War II, Nazi Germany spent increasingly large amounts of its dwindling manufacturing capability on the construction of a small fleet of flying saucers capable of travel beyond the atmosphere. While these saucers were too few in number to affect the eventual outcome of the war, they did allow for a small, but fanatical Nazi group to escape Germany, first to Antarctica, and then on to the moon! For the first time, the history of the Nazi space program has been revealed - with a focus on the design, construction, and layout of the moonbase. Using detailed maps, the entire moonbase is reconstructed, noting the locations of various important features, such as weapon emplacements, the Vril generator, the air recyclers and water extractors. The book also covers the various attempt by the allies to overcome this last Nazi stronghold through both subterfuge and outright battle.

*Haunebu II* Ulises Pastor Barreiro,2022-09-19 Esta obra literaria del género de ciencia ficción, es producto de un gran trabajo en equipo. Reúne la literatura del escritor Barreiro quien nos narra una bella novela que toca el tema de la Ufología. Es una novela que tiene 24 capítulos, muy interesantes. La novela comienza en la Alemania nazi de 1939, cuando Europa estaba en pleno conflicto bélico con sus estados vecinos. La tapa

de la obra fue realizada por el dibujante Juan Saenz Valiente, Los dibujos interiores estuvieron a cargo de Maximiliano Murad quien nos va narrando al comienzo de cada capitulo desde una antropología visual parte de lo que vendrá. Fue un solitario y magnífico testigo, de un sorprendente suceso extraordinario que nunca podría olvidar. El hombre vio como aquella gran bola de fuego perdía altura. Hasta que luego no la vio más por el espeso bosque; entonces oyó un estruendo, producto del impacto de aquel aparato metálico contra la superficie. El cual provoco un gran fogonazo a lo lejos. El solitario espectador, que no estaba lejos de donde se había estrellado el objeto, decidió acercarse hasta el lugar de los hechos. La curiosidad lo había invadido y hecho preso del fisgoneo decidió ir hacia allá.

The Paranormal Phenomena Michael Hur,2016-02-20 As Bible believing Christians a question should be asked. Does the Bible confirm the existence of paranormal realities as they pertain to UFOs, ghosts, ancient outer-space travel, teleportation, time travel, shadow governments, and more? The answer to that question is yes it does. However what are the Bible's teachings regarding these subjects? Are they, the same as what mainstream media, and new age teachers are telling us or could it be that the Bible gives a different, and largely untold explanation to what they are. In this book called The Paranormal Phenomena you will read, and discover various Bible passages from the King James Authorized English Bible itself as it reveals many realities of the supernatural, and the paranormal events of this world.

**Andromeda: The Secret Files** David Hatcher Childress,2021-11-01 David Childress, popular author and star of the History Channel show Ancient Aliens, brings us the amazing story of the German Andromeda craft, designed and built during WWII. Along with flying disks, the Germans were making long, cylindrical airships that are commonly called motherships—large craft that house several smaller disk craft. It was not until 1989 that a German researcher named Ralf Ettl, living in London, received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft—including the Andromeda. Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe. What the Ralf Ettl document dump shows us is what many have suspected for a long time: that WWII did not end in the manner in which we have been told, and a remnant of the Nazi military—particularly the SS—continued to operate aircraft and submarines around the world in the decades after the end of the war. Much of this activity has been attributed to UFO activity, but Childress lifts the veil shrouding some of these cases and shows that Andromeda and Haunebu craft were involved in many of these incidents over the decades. Join Childress as he shows us the secret files involving the Andromeda, Haunebu, and Vril craft. Chapters include: Gravity's Rainbow; The Motherships; The MJ-12, UFOs and the Korean War; The Strange Case of Reinhold Schmidt; Secret Cities of the Winged Serpent; The Green Fireballs; Submarines That Can Fly; The Breakaway Civilization; more. Includes a 16-page color section. Over 120 photographs and diagrams.

**Vril: Secrets of the Black Sun** David Hatcher Childress,2024-03-04 Childress reveals numerous secrets of the Black Sun in this final volume in his series about the Fourth Reich. David Childress, popular author and star of the History Channel show Ancient Aliens, unveils the amazing story of the German flying disks, designed and built during WWII. It was not until 1989 that a German researcher named Ralf Ettl, living in London, received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft—including the Vril, Haunebu and Andromeda. This volume closes with how the SS operates today in the Ukraine and how the Wagner second in command, Dmitry Utkin, killed in the fiery crash of Yevgeny Prigozhin's private jet between Moscow and St. Petersburg in August of 2023, had SS tattoos on his shoulders and often signed his name with the SS runes. Chapters include: Secrets of the Black Sun; The Extra-Territorial Reich; The Rise of the SS; The SS Never Surrendered; Secret Submarines, Antarctica & Argentina; Secret of the Vril; The Marconi Connection; Spectre, the SS, and 007; Yellow Submarine; Ukraine and the Battalion of the Black Sun; more. Includes an 8-page color section. Over 120 photographs and diagrams.

Antarctica and the Secret Space Program David Childress,2020-05-20 David Childress, popular author and star of the History Channel show Ancient Aliens, brings us the incredible tale of Nazi submarines and secret weapons in Antarctica and elsewhere. He looks into the strange life and death of Rudolf Hess, as well as the mystery of James Forrestal and the secret group called MJ-12. He examines Operation Highjump led by Admiral Richard Byrd in 1947 and the battle that he apparently had in Antarctica with flying saucers. Through "Operation Paperclip," the Nazis infiltrated aerospace companies, banking, media, and the US government, including NASA and the CIA after WWII. He reveals that the Nazis had built secret bases in a variety of places during WWII, including Greenland, the Canary Islands, Tibet and Antarctica. Childress discusses the secret U-boat fleet that patrolled the Atlantic and Arctic Oceans for decades after the war. He looks into the secret German space program and its flying disks and tubular aircraft; the secret technology involved, including anti-gravity propulsion technology; underground and under ice bases; strange things happening in South America; and secret bases on the Moon and Mars. Childress looks at the possible merger of Nazi assets in Arctic with the Americans' and the use of Antarctica as a space base for traffic to secret space stations in orbit and below the surface of the Moon. The author looks at military space programs such as Solar Warden, Lunex and Project Horizon. Does the US Space Force have a secret space program that maintains huge ships in orbit around the Earth and employs hundreds of astronauts as crew for these vehicles? Includes a 16-page color section.

**UFOs** Mohamed Cherif,2015-05-30 During the last seventy years, governments around the world especially The Western ones like USA, UK, Italy and France pretends to know nothing about the extraterrestrials .Now we see news talking about them, Hollywood movies, documentaries talking about them, new planets like our earth by NASA Do you think this is normal and innocent?Of course Not In this book you'll find what you can never see or heard about it in the so called: scientific magazines, television channels like National Geographic and any other independent documentaries or even websites.Here you can find the truth easily, step by step and chapter by chapter you'll see evidences about space visitors, theirs missions, theirs targets, who helps them, who cooperates with them and who has the great interest with them and the great question: Why?

**Nazi UFOs** S.D. Tucker,2022-10-24 Nazi UFOs tells the strange tale of how, following the first alleged flying saucer sightings made in the USA in 1947, a series of fantasists and neo-fascists came forward to create a media myth that the Nazis may have invented these incredible craft as a means for winning the Second World War, a plan which was tantalisingly close to completion before the Allies conquered Berlin in 1945. Today, the fantasy of Nazi UFOs has grown into an entire mythology in books, on TV and online. Did Germany back-engineer anti-gravity craft, and even a full-blown time-machine, by stripping technology from a crashed alien saucer? Did the SS secretly invent 'Green' technology for use in their star ship engines, and was this planet-saving discovery later suppressed at the behest of a sinister Big Oil conspiracy? Did Himmler try to develop 'lightning weapons' for use in aerial combat? By contrasting the fake military-industrial pseudo-histories of Nazi UFO theorists with details of real-life Nazi aerospace achievements, the author demonstrates both how this modern-day mythology came about and how it cannot possibly be more than fractionally true. For the first time, this fake 'alternative military history' is laid out in full. This book features an appealing cast of con-men and spies, complete madmen, real-life Nazis and completely made-up ones, operating right across the globe from South America to wartime Europe and Japan. A good example may be the 'mad professor', Viktor Schaubergger, who actually genuinely did manage to gain a personal audience with Adolf Hitler in order to try and convince him that he had discovered and then exploited some amazing new source of natural 'free energy' which could make objects (such as saucers, in the opinion of some) float. Hitler dismissed his plan, but it does nonetheless show how close some bizarre schemes came to being implemented in Nazi Germany.

**Wandering Stars** Frederick Guttmann, The magnifying glass on the UFO case with historical records. What happened in Roswell? Did the UFO issue have anything to do with the Kennedy assassination? What happened in the Bermuda Triangle? Are there secret bases for the study of Flying Saucers? Is there archaeological evidence of the extraterrestrial presence in prehistory? Has there been contact with other civilizations in the cosmos? Have beings from space intervened in the course of our history? Do governments hide information? Do aliens have any plans for Earth? Wandering Stars is an interesting work that recalls the history of

flying saucers throughout our known history and encompasses topics such as: prehistoric visits by astronauts, UFO appearances in the Bible, cases of sightings of strange lights and devices down the ages, then the Adolf Hitler thing and alien flying discs, also the secrets of governments, underground bases, reversed alien technology and contact with other civilizations. Finally, he talks about the secret space projects and galactic battles behind the NASA missions.
