The Hawker Hurricane Francis K. Mason,1962

Hawker Hurricane Survivors Gordon Riley,2015-10-19 A comprehensive catalog of the remaining World War II fighter planes, including anecdotes and photos. With 2015 being the 75th anniversary of the Battle of Britain—arguably the Hawker Hurricane's "finest hour"—it is appropriate to tell the story of the surviving Hurricanes from around the world. Building on research originally started thirty years ago, Gordon Riley has delved into the archives to amass new information—and in the process managed to identify positively one Hurricane that had proved elusive for more than forty years. Today a number of Hurricanes are being privately restored globally. However, the oldest in existence, a veteran of both the British Expeditionary Force to France in 1939 and the Battle of Britain, is displayed in the Science Museum in London, and the youngest—the very last Hurricane ever built—is still flying with the RAF Battle of Britain Memorial Flight. This book documents each aircraft by country of origin and mark by mark from the day it left the factory up to the present day. Some have incredible histories whereas others served in very mundane, but still essential, second-line roles until they were disposed of. Where possible each aircraft is illustrated with a present-day photograph along with others taken throughout its life. From the serious enthusiast to the casual museum or air show visitor, if you have an interest in the Hurricane, this is the book for you. "Heavily illustrated and well produced and will serve as an excellent guide not only for historians but also warbird enthusiasts." —Air Classics

Hawker Hurricane and Sea Hurricane Tony O'Toole,Martin Derry,Neil Robinson,2014-12-01 This fully illustrated volume examines the legendary RAF fighter with full details on its WWII service and design modifications. The Hawker Hurricane was aeronautical engineer Sidney Camm's masterpiece. The fighter entered Royal Air Force service in 1937 and quickly became one of the most important aircraft in Britain's military arsenal—especially in the first three years of the Second World War. It served in every wartime theatre, from Norway and France, to the Battle of Britain, the defense of Malta, the campaigns in the Western Desert, the Russian Front, and in the Far East where it saw service until the end of hostilities. Martin Derry offers a concise yet informative history of the Hurricane's development, operational career and design improvements, including many contemporary photographs with detailed captions; a 16-page color illustration section offering profiles and 2-views of 48 separate aircraft; and finally a section prepared by master maker Tony O'Toole, listing and illustrating the plastic model kits of the Hurricane available in all scales.

Hawker Hurricane Mk I–V Martyn Chorlton,2013-02-20 At the outbreak of World War II, only 111 Squadron and a handful of others were equipped with the Hurricane. Thanks to sudden massive orders and a well-organized Hawker sub-contracting production to Gloster and General Aircraft, more squadrons rapidly became operational. Cutting their teeth during the Battle of France, it was during the Battle of Britain that the type excelled and came to form the backbone of Fighter Command. While the Hurricane was steadily overtaken by the Spitfire in the fighter defence role, it remained the fighter of choice in North Africa and the Far East. Despite a large number being shot down in these far-flung conflicts, many received hasty repairs and returned to the fray while more fragile designs were permanently grounded. The Hurricane may not have been the prettiest or, the best-performing aircraft but, as Francis Mason stated: 'The Royal Air Force was glad to get the Spitfire...it had to have the Hurricane!'

Hawker Hurricane Melvyn Hiscock,2003-12-18 Directly descended from some of the fastest, most beautiful and most effective military aircraft of the 1930s, the Hawker Hurricane was the RAF's first monoplane fighter, and the hero of the Battle of Britain. Melvyn Hiscock's photographic study takes us under the skin of the aircraft, to the very first principles of the design and construction of this beautiful fighter. Using archive and specially taken photographs, many shot behind the scenes at AJD Engineering - Hurricane restoration experts - the author shows in detail how the Hurricane is put together, revealing details rarely seen and providing an invaluable resource for the modeler and the aviation enthusiast.

Hurricane John Dibbs,Tony Holmes,Gordon Riley,2017-05-18 2017 marks the 80th anniversary of the remarkable Hawker Hurricane formally entering service. The RAF's first monoplane fighter, it dragged the Air Force into a position where it could defend Britain in her 'hour of need'. The true workhorse of the RAF, the Hurricane came into its own in the hot summer months of 1940 valiantly defending the skies above Britain. Outnumbering Spitfires three to one, the Hurricane also downed far more enemy aircraft. Without the obvious elegance of the Me 109 or the Spitfire, the Hurricane was nonetheless beloved by its pilots for its ability to simultaneously take a battering and inflict serious damage from its remarkably stable gun platform. This stunning new book reveals the Hurricane in all its glory – from fascinating first-hand accounts from the men who flew her to the truly breathtaking images from John Dibbs of the Hurricanes still in flight today. This lavish, fully illustrated edition is a must-have for all fans of aviation history.

Hurricane Aces 1939-40 Tony Holmes, 1998-01-15 The Hawker Hurricane was the Raf's first monoplane fighter, and it dragged the air force into a position where it could defend Britain in its 'hour of need'. Prior to the Battle of Britain, a number of squadrons equipped with the fighter had seen action firstly in the 'Phoney War', and then during the disastrous campaign in France. Pilots like 'Cobber' Kain had achieved impressive scores in the face of overwhelming Luftwaffe forces, and although the RAF lost no less than 386 Hurricanes during the Blitzkrieg, it gave many pilots valuable experience. Hawker fighters outnumbered Spitfires during the Battle of Britain by three to one, and downed far more aircraft. Overseas, a handful of pilots put up stiff resistance against Germany's Italian ally in Libya and Egypt, and also over Malta.

Hawker Hurricane, 1940

The Hawker Hurricane - The Supermarine Spitfire Mantelli - Brown - Kittel - Graf, 2017-03-05 The Hawker Hurricane was the first modern British fighter before the outbreak of World War II. Until 1941 the Hurricane was the most widely used combat aircraft from the Royal Air Force and the one that bore the brunt of the first clashes with aircraft of the Luftwaffe in the skies of France and Britain. Almost 3,000 aircraft of this type were delivered to the USSR, for the law Rentals & Loans, but the Soviet pilots were generally very critical of the fighter Hawker, considered inferior, not only to the German fighters, but also its. First fighter monoplane of the RAF, the first aircraft equipped with eight machine guns, was the plane means available in greater numbers to counter the waves of attack by the Luftwaffe during the Battle of Britain. Available in twenty-six departments in the early summer of 1940, to August, there were thirty-two against nineteen Spitfire. Piloted by aces like Douglas Bader that made him a legend, the Hawker Hurricane Mk I, although less than the Bf 109-E, however, he proved to be a horse race, and especially at high altitudes could be more maneuverable and thus, to this, more suitable bomber hunter. His majesty the Spitfire. This airplane is an air legend, a real brand, and his image is inextricably linked to the British victory in the Battle of Britain. It is one of the few, perhaps the only one, whose name evokes some images even in a profane things of historical aviation. Excellent defensive machine, heavily armed, very agile, climbing fast, but the lack of range and of sufficient load capacity has not helped in the war below. The Spitfire name was suggested by Sir Robert MacLean, director of Vickers-Armstrongs at the time, who called his daughter Ann a little spitfire, a saying Elizabethan to indicate a person impetuous.

The Hawker Hurricane I, 1982

The Hawker Hurricane Mantelli - Brown - Kittel - Graf, 2016-02-07 The Hawker Hurricane at the time could not have been better expressed in deeds what was his name. Born as Fury Monoplane, sought to continue the project monoplane version of Fury, one of the best and finest hunting among the older generation. Created by Sidney Camm of HG Hawker Engineering Company, created in 1933 around the new engine RR PV 12 and responsive to the specific F.5/34, which called for a hunt with 8 light machine guns, really an impressive increase compared to the two normally course at the time. Consider that the first specification for an Italian fighter monoplane spoke of a plane armed with a single machine gun (but 12.7), increased to two only later. After this specification were issued the F.36/34 and the new Hurricane flew November 6, 1935, soon surpassing the 483 km/h (300 mph), with the PV 12 that according to the latest specification was to get to 1,025 hp to 4,500 m, a far cry from the Kestrel that potentiate, for example, the first Bf-109. The Hurricane monoplane, in a shiny metallic gray livery, was actually a mixture of new technologies - in aerodynamic terms - like the wing monoplane, retractable by the providential wide track, closed cockpit, radio, but the reality behind the fuselage 'cockpit was in welded steel tubes covered with wooden structures which were given the painted canvas, remained so in the future. The Hurricane was a formidable fighter for 1937, when he entered the service had no equal in the world. But you could not ignore that its structure only partially metallic, and its thick wing were not entirely acceptable for the evolution necessary for the following years: even with upgraded engines, it would not be possible to significantly exceed the speed Hurricane base.

Hawker Hurricane Ron Mackay, 2018 The Hawker Hurricane has rightly earned its place in military aviation annals. Although only preceding the Spitfire by four months in its prototypic launch, the Hawker machine was available in measurably greater numbers by the Battle of Britain, a very critical stage of WWII for Britain and its Empire. Its rugged qualities saw use in the Mediterranean and Far East Theaters, and on the Russia Front. It adapted equally well to naval operations as a CAM-ship protector for Allied convoys and then as the first truly modern British fighter design to operate off the Fleet Air Arm's aircraft carriers. The solid wing structure lent itself naturally to the carriage of bombs and heavier-scale weaponry such as the 40 mm cannon that dealt out a fair measure of punishment. The few airworthy examples are a poignant reminder of Britain's WWII aviation prowess. Part of the Legends of Warfare series.

The Hurricane Story Peter R. March, 2020-07-10 The Hawker Hurricane won lasting fame in the service of the RAF during the Battle of Britain. Over 11,700 examples were eventually built of this versatile and deadly combat aircraft, fulfilling an incredible number of contrasting roles. Its design, development and production are described in detail, as are the Hurricane's widely varied operational roles during the Second World War, both at home and overseas. Full details are given of production figures, production variants, and operational service with all RAF and RN squadrons and units.

HAWKER HURRICANE RICHARD A. FRANKS, 2020

Hawker Hurricane Peter Jacobs, 1998 The RAF expansion programme in the years leading up to World War II saw the emergence of two superlative fighters, the Supermarine Spitfire and the Hawker Hurricane. This is an examination of the workhorse of the RAF Fighter Command. Although best known for its successes in the Battle of Britain, the Hurricane served throughout the war, with great success over the Western Desert and Malta. This account covers the Hurricane's design, development, and operational career.
