Hawker Sea Fury- Wbt Kev Darling,2002-05 The photos in this edition are black and white. The Hawker Sea Fury is a bit of a mystery to most aircraft enthusiasts. If they're familiar with Hawker and Sydney Camm's designs, this plane - the Royal Navy's last prop-driven fighter - is known to them, though not with much detail. Reno racing fanatics also know the Fury and the Sea Fury, but to air racing fans the Hawker design is just an airframe on which to hang the most powerful piston engine and biggest propeller possible. Warbird Tech Volume 37.

Gentlemen and Tarpaulins Andrew Davies,Teacher of History J D Davies,J. D. Davies,1991 This is the first scholarly study of the Royal Navy during the reigns of Charles II and James II. Historians have long viewed the Restoration Navy through the eyes of Samuel Pepys, the greatest diarist and naval administrator of the age. Perceptive and intelligent as Pepys was, he presented only a one-sided view of the Navy, that of a bureaucrat attempting to reorganize it. J. D. Davies assesses this traditional picture of the Restoration Navy in the light of recent scholarship, using the evidence not only of Pepys but of his contemporaries. He examines the reactions of naval personnel to the demands imposed by Pepys, and analyses the structure of the service. He also explores the lives and attitudes of the men (the 'tarpaulins') and their officers - the quests for promotion, enrichment, and glory; the very different problems posed by peace and war; the nature of life at sea; and the role of the Navy in national life. *Gentlemen and Tarpaulins* provides a fascinating glimpse into the history of the Royal Navy.

A Delivery of Furies Victor Canning,1987

Ol' Shakey Gene Fish,2016-09-25 After a lifetime of flying, with experience ranging from novice airman to Director of Training and Standards and pilot examiner for a top name in aviation training organization, there's little Gene Fish hasn't seen. Ol' Shakey: Memories of a Flight Engineer shares some of the most memorable stories of Gene's career as a Flight Engineer flying in the Douglas C-124 Globemaster II, nicknamed Ol' Shakey - an aircraft that had a habit of keeping the flight crews on their toes dealing with quirky malfunctions. From a colorful layover at Midway Island to kite-flying at Pope Air Force Base, to overspeeding propellers, Gene's stories will entertain military personnel, aviators and anyone who is enthusiastic about the romance of flying - and gives a glimpse of the reality behind that romance.

Great Moments in Flying Joseph Conner,2020-05-05 From Golden Valley Aero NewsDecember 1982 Joseph B. Conner Joe writes Conner's Corner every month. He has been writing for Livermore Valley Airmen's Association's newsletter for several years, and his stories are now included in Golden Valley Aero News. Joe works for Lawrence Livermore National Laboratory and commutes by car from Tracy, California. In Joe's stories, we learn about Fidelia, the Varga he uses when he cruises around the valley on his excursions. Fidelia is not just any Varga. To Joe, she is a real she, an airplane with soul and personality. Reading Joe's stories, you get this feeling that he is talking about a real live being. Conner's Corner describes real events, things that have happened to Joe on his flights. They are cute stories so well told by Joe in his easygoing, talking style. Many of them have an undertone of philosophy that adds a pleasant color to the events Joe is describing. He writes in such a manner that the reader actually gets the feeling of being the pilot or passenger. Most enjoyable reading.

Florida Warplanes Harold A. Skaarup,2010-11-01 This aviation handbook is designed to be used as a quick reference to the classic military heritage aircraft that have been restored and preserved in the state of Florida. The aircraft include those flown by members of the United States Air Force, the United States Navy, the United States Army, the United States Marine Corps, the United States Coast Guard, the Air and Army National Guard, and by various NATO and allied nations as well as a number previously operated by opposition forces in peace and war. The interested reader will find useful information and a few technical details on most of the military aircraft that have been in service with active flying squadrons both at home and overseas. 160 selected photographs have been included to illustrate a few of the major examples in addition to the serial numbers assigned to American military aircraft. For those who like to actually see the aircraft concerned, aviation museum locations, addresses and contact phone numbers have been included, along with a list of aircraft held in each museum's current inventory or on display as gate guardians throughout the State of Florida. The aircraft presented in this edition are listed alphabetically by manufacturer, number and type. Although many of Florida's heritage warplanes have completely disappeared, a few have been carefully collected, restored and preserved, and some have even been restored to flying condition. This guide-book should help you to find and view Florida's Warplane survivors.
