Heads Jesse Jarnow, 2016-03-29 *Heads: A Biography of Psychedelic America* uncovers a hidden history of the biggest psychedelic distribution and belief system the world has ever known. Through a collection of fast-paced interlocking narratives, it animates the tale of an alternate America and its wide-eyed citizens: the LSD-slinging graffiti writers of Central Park, the Dead-loving AI scientists of Stanford, utopian Whole Earth homesteaders, black market chemists, government-wanted Anonymous hackers, rogue explorers, East Village bluegrass pickers, spiritual seekers, Internet pioneers, entrepreneurs, pranksters, pioneering DJs, and a nation of Deadheads. WFMU DJ and veteran music writer Jesse Jarnow draws on extensive new firsthand accounts from many never-before-interviewed subjects and a wealth of deep

archival research to create a comic-book-colored and panoramic American landscape, taking readers for a guided tour of the hippie highway filled with lit-up explorers, peak trips, big busts, and scenic vistas, from Vermont to the Pacific Northwest, from the old world head capitals of San Francisco and New York to the geodesic dome-dotted valleys of Colorado and New Mexico. And with the psychedelic research moving into the mainstream for the first time in decades, Heads also recounts the story of the quiet entheogenic revolution that for years has been brewing resiliently in the Dead's Technicolor shadow. Featuring over four dozen images, many never before seen—including pop artist Keith Haring's first publicly sold work—Heads weaves one of the 20th and 21st centuries' most misunderstood subcultures into the fabric of the nation's history. Written for anyone who wondered what happened to the heads after the Acid Tests, through the '70s, during the Drug War, and on to the psychedelic present, Heads collects the essential history of how LSD, Deadheads, tie-dye, and the occasional bad trip have become familiar features of the American experience.

Lyle XOX Lyle Reimer, 2019-03-05 Canadian makeup and mixed media artist Lyle Reimer has nearly 125,000 Instagram followers who visit his account @Lylexox to experience the fantasy and undeniable creativity of his self-portrait personas, which fuse facial sculpture, makeup, and found objects, accompanied by hilarious fictional backstories. Lyle Reimer has captivated Instagram fans with his strangely beautiful self-portraits where his face serves as a blank canvas for decorative facial

collages that bring his otherworldly online personas to life. His love of makeup, fashion, and storytelling is evident in his Instagram posts where he styles the makeup, wigs, and assembles his elaborate facial sculptures made up of found and recycled objects. Always pushing the boundaries of beauty, Reimer explores a multiplicity of characters à la Cindy Sherman, combined with the subversive edge of performance artist Leigh Bowery, and the glamorous theatrics of Moulin Rouge! In his debut book, designed by the renowned art director Fabien Baron, Reimer has curated a collection of his favorite Instagram personas. For Reimer's spectacular facial collages, inspiration comes from the most quotidian things--from feathers, soy sauce packets, Pellegrino water labels, bleached turkey bones, and mattress foam to ripped pages from Vogue and deconstructed Gucci purses--to create beautiful pieces of facial art. Truly a must-have for makeup and beauty aficionados and those interested in online popular culture, this one-of-a-kind volume captures Reimer's work as he breaks the boundaries of beauty, embraces self-expression, and celebrates the ever-changing nature of an individual's sense of style.

The Artist's Complete Guide to Drawing the Head William Maughan, 2013-08-14 In this innovative guide, master art instructor William Maughan demonstrates how to create a realistic human likeness by using the classic and highly accurate modeling technique of chiaroscuro (Italian for “light and dark”) developed by Leonardo da Vinci during the High Renaissance. Maughan first introduces readers to the basics of this centuries-old technique, showing how to analyze form, light, and shadow; use dark pencil, white pencil, and toned paper to create a full range of values; use the elements of design to enhance a likeness; and capture a sitter's gestures and

proportions. He then demonstrates, step by step, how to draw each facial feature, develop visual awareness, and render the head in color with soft pastels.

Head-Driven Phrase Structure Grammar Carl Pollard, Ivan A. Sag, 1994-08-15 This book presents the most complete exposition of the theory of head-driven phrase structure grammar (HPSG), introduced in the authors' Information-Based Syntax and Semantics. HPSG provides an integration of key ideas from the various disciplines of cognitive science, drawing on results from diverse approaches to syntactic theory, situation semantics, data type theory, and knowledge representation. The result is a conception of grammar as a set of declarative and order-independent constraints, a conception well suited to modelling human language processing. This self-contained volume demonstrates the applicability of the HPSG approach to a wide range of empirical problems, including a number which have occupied center-stage within syntactic theory for well over twenty years: the control of understood subjects, long-distance dependencies conventionally treated in terms of wh-movement, and syntactic constraints on the relationship between various kinds of pronouns and their antecedents. The authors make clear how their approach compares with and improves upon approaches undertaken in other frameworks, including in particular the government-binding theory of Noam Chomsky.

Heart versus Head Peter Karsten, 2000-11-09 Challenging traditional accounts of the development of American private law, Peter Karsten offers an important new perspective on the making of the rules of common law and equity in nineteenth-century courts. The central story of that era, he finds, was a struggle between a jurisprudence of the head, which adhered strongly to English precedent, and a jurisprudence of the heart, a humane concern for the rights of parties rendered weak by inequitable rules and a willingness to create exceptions or altogether new rules on their behalf. Karsten first documents the tendency of jurists, particularly those in the Northeast, to resist arguments to alter rules of property, contract, and tort law. He then contrasts this tendency with a number of judicial innovations--among them the sanctioning of 'deep pocket' jury awards and the creation of the attractive-nuisance rule--designed to protect society's weaker members. In tracing the emergence of a pro-plaintiff, humanitarian jurisprudence of the heart, Karsten necessarily addresses the shortcomings of the reigning, economic-oriented paradigm regarding judicial rulemaking in nineteenth-century America. Watch Your Head Kathryn Mockler, 2020-11-17 A warning, a movement, a collection borne of protest. In *Watch Your Head*, poems, stories, essays, and artwork sound the alarm on the present

and future consequences of the climate emergency. Ice caps are melting, wildfires are raging, and species extinction is accelerating. Dire predictions about the climate emergency from scientists, Indigenous land and water defenders, and striking school children have mostly been ignored by the very institutions – government, education, industry, and media – with the power to do something about it. Writers and artists confront colonization, racism, and the social inequalities that are endemic to the climate crisis. Here the imagination amplifies and humanizes the science. These works are impassioned, desperate, hopeful, healing, transformative, and radical. This is a call to climate-justice action. Edited by Madhur Anand, Stephen Collis, Jennifer Dorner, Catherine Graham, Elena Johnson, Canisia Lubrin, Kim Mannix, Kathryn Mockler, June Pak, Sina Queyras, Shazia Hafiz Ramji, Rasiqra Revulva, Yusuf Saadi, Sanchari Sur, and Jacqueline Valencia Proceeds will be donated to RAVEN and Climate Justice Toronto.
