Experimental and Theoretical Performance of Coaxial Plasma Guns Charles J. Michels, Albert E. Johansen, 1966

Slaves to Darkness John French, 2020-02-04 Book 51 in the global best selling Horus Heresy series. The end is nearly here.....what lies ahead? After a long and gruelling conflict, the traitors at last close upon Terra. But time is dwindling for an attack. Both Guilliman and the Lion are returning with all haste, and their armies could turn the tide. The hosts of the Warmaster must unite, for only then can they attack the Throneworld itself. While Mortarion is sent on ahead as the fleet's vanguard, it falls to Lorgar and Perturabo to marshal Fulgrim and Angron, both now elevated to daemonhood and perhaps beyond even the will of the Warmaster to command. But Horus lies wounded and as the greatest battle the galaxy has ever know looms, it is up to Maloghurst to hold his fractious Legion together and to wrench Horus himself from the edge of oblivion.

Analytical and Experimental Investigation of the Coaxial Plasma Gun for Use as a Particle Accelerator Edward L. Shriver, 1972 The coaxial plasma accelerator for use as a projectile accelerator is discussed. The accelerator is described physically and analytically by solution of circuit equations, and by solving for the magnetic pressures which are formed by the $\mathbf{j} \times \mathbf{B}$ vector forces on the plasma. It is shown that the plasma density must be increased if the accelerator is to be used as a projectile accelerator. Three different approaches to increasing plasma density are discussed. When a magnetic field containment scheme was used to increase the plasma density, glass beads of 0.66 millimeter diameter were accelerated to 7 to 8 kilometers per second velocities. Glass beads of smaller diameter were accelerated to more than twice this velocity.

The Unremembered Empire Dan Abnett,2014-07 The unthinkable has happened Terra has fallen to the traitor forces of Warmaster Horus! Nothing else could explain the sudden disappearance of the Astronomican's guiding light at the heart of the Imperium, or so Robute Guilliman would believe. Ever the pragmatist, he has drawn all his forces to Ultramar and begun construction of the new empire known as Imperium Secundus. Even with many of his primarch brothers at his side, he still faces war from without and intrigue from within with the best of intentions, were the full truth to be known it would likely damn them all as traitors for all eternity.

As he and his Primaris brethren support the Dark Angels in fighting a trauma-scarred force of t'au seemingly hellbent on destroying their own allies, their true quarry soon becomes clear: the shadowy instigator of a psychic curse that could plunge a string of Imperial planets into madness. As worlds burn in the fires of battle, an unthinkable pact is struck, and Lieutenant Farren begins to peel back

layer after layer of deceit to discover an appalling truth. Can he hope to emerge from this web of lies without losing his honour – or come to that, his life?
