**Killzone: Ascendancy** Sam Bradbury,2011-02-24 'There is no poetry or romance in war, it is brutal and ugly and terrifying and it turns men into animals - shrieking, screaming and running while destroying all in their path. It is survival' Visari, the vicious Helghast dictator, is vanquished, lying dead at the feet of ISA forces soldiers Sev and Rico. Yet the battle is far from over. Visari's death has wreaked havoc in the Helghast Empire, leaving a legacy of destruction. His last act of violence - a nuclear bomb - has decimated the Special Forces. Sev and Rico must complete their mission alone. They will fight to the death to keep the ruthless Helghast troops at bay. Based on Sony's bestselling game Killzone 3

*Wehrmacht Combat Helmets 1933–45* Brian C Bell,2012-12-20 The German Stahlhelm is perhaps the most recognizable image of World War II. Manufactured in its millions, it was used or copied by many countries. It is still one of the most collected relics of the war; but despite its relative availability, prices have reached levels that challenge collectors to protect themselves by acquiring in-depth knowledge. This book, by a collector of 30 years' standing, offers a detailed masterclass in the patterns, component parts and finishes of the combat helmets used by the German Army, Navy and Air Force. It is illustrated with a superb selection of rare period photos, colour photos of collected examples, and striking colour paintings.

*The Helmet of Navarre* Runkle B.,2016-03-24 The Helmet of Navarre is a historical novel by American writer Bertha Runkle published in 1901. It first appeared in serial form in the magazine The Century Magazine in 1900. Later, she adapted the novel for the stage. The book came out with a great shouting, a banging of drums, blaring of trumpets, and tons of advertising, and it was not a book that one could easily ignore, for great black letters heralding its power, its beauty, and its great worth stared at one from the pages of every newspaper and magazine. In fact, a line in large letters upon the paper wrapper of the very book itself, quoted a contemporary to the effect that any writer of any age might rejoice in its equal. For this reason many read it who would not have otherwise done so, and the effect, on the whole, was very agreeable.

**The History of the Steel Helmet in the First World War** Michael J. Haselgrove,Branislav Radovic,2006 This illustrated two-volume set is a further detailed look at the helmets of all nations using an identifiable helmet during the First World War, and contains over 1,000 full colour, detailed photos and over 200 period bw photos. Featured are rare and unique helmets, some previously unseen. The text includes a short history of the belligerent countries setting the helmets and their development in context as well as details and dimensions of all helmets.

*SS Helmets* Michael D. Beaver,Kelly Hicks,2006 This book, by noted SS and helmet scholars Mike Beaver and Kelly Hicks, presents the combat and parade helmets worn by the SS from its earliest days to the end of wartime production. The examples shown are genuine artifacts of the Third Reich, and most are shown here for the first time. Some of the finest collections and sources globally have been solicited in the construction of this book. The value of these SS helmet resources from the world over cannot be overstated in terms of their contribution toward collector knowledge - as well as the safety and survivability of this historical hobby. The photographic selection, and excellent quality of photo-representation, brings to life the heraldry and visual impact of these iconic objects. The reader will not only understand and become well versed in the recognized variations of SS helmets, but will also have a feel for the historical context in which they were used.

*The M-1 Helmet of the World War II GI* Pieter Oosterman,2010 The development and combat use of the U.S. World War II era, fixed bail M-1 helmet is covered in this all new volume. Years of research has resulted in this well-balanced and complete work, which includes previously unknown material and unique examples of the M-1 helmet. Much attention is given to the many specific manufacturing details, contract numbers and dates involved in the production of M-1 and M-2helmets. Each variation has been carefully photographed and presented. Also, ten mannequin ensembles represent the GI during basic training, through the fighting in Italy, Normandy, Holland, the Ardennes and Germany. The museum section of the book contains a wealth of rare liners, unit painted helmets, rank marked helmets, camouflaged helmets, paratrooper helmets, battlefield found helmets and much more!

MKII helmets of the Second World War and their use in the Italian Campaign Daniele Piselli,2020-01-06 The collecting of MKII helmets from the second world war has seen a considerable increase in interest among collectors recently. The enthusiast approaching this sector of militaria collecting for the first time has very few tools available that can at least point him in the right direction. So, taking stock of the knowledge I have acquired and with the help of various collector friends, I thought it might be useful to publish this guide on MKII helmets in the second world war and their use during the Italian Campaign. There is certainly a lot more to discover but this is a starting point. A tip, before making a purchase, always ask the opinion of other collectors because a trained eye can definitely help you in this jungle of post war use, fakes, tampering... and beautiful helmets that still know how to tell their story. A big thank you goes to Francesco Braneschi, it is also thanks to him that this research came about, to his passion and to our constant exchanges of opinion on this sector of the militaria. In an attempt to understand something more I cannot fail to thank Marco Visani, super adviser with his infinite bibles. A thankyou also to those who contributed with their time, photographs, information, and much more: Alessandro Zentile, Antonio Bonanno, Aaron Delaney, Brendon Ellis, Cristian Rubiola, David Yeomans, Dennis van Vugt, Fabio Ortolani, Francesco Saverio Giovagnoli, Giovanni Righini , Ivo Beute, Leonardo Biserni, Mark Kozowy, Massimo Costa, Paolo Zamma, Peter Young, Steven Britton and the Boys of the Combat Road association. Thank you. And finally, thank you to Fabio Roncella for his essay on the battle of Montegabbione, our roots are in history. Buona lettura! Daniele Piselli

*Normandy 44* Dan Tylisz,2011 \* A must-have book for all German militaria and helmet collectors, and anyone interested in camouflage In the first volume of this new series by Militaria Magazine, collectors will discover a new aspect of helmet camouflage in the individuality and sometimes moving aspect of 'battlefield found' helmets. Impressive by their historical dimension, camouflaged helmets, whether the plain result of personal initiative or produced by teams of experienced artists, often reproduce the colours and patterns applied to tanks and guns. The wide array of more than 150 original German helmets shown here is only a glimpse of their huge variety, but it captures the general trends in World War II German equipment camouflage, from the crude and elementary mottling with issue or civilian paints to the imaginative and complicated patterns evolved within sedentary units. The veteran soldier also completed his work by adding various texturing elements. Most of these helmets originate from private collections and were found on the Normandy battlefield. Here, they are photographed in natural light, to enhance the actual efficiency of their camouflage finish. The first in a series, this book is an ideal reference source for historians, collectors, modellers and gamers alike.

*Spiked Helmets of Imperial Germany* W. Randall Trawnik,Wm. Randall Trawnik,2005 This monumental, two volume set, several years in preparation, includes over 400 color photographs, illustrations and period images from the finest collections in the United States and Europe. For the first time, collectors will see a comprehensive full color photographic lexicon picturing helmets from every unit of the Imperial German Army of 1914. Many of the photographs exhibit helmets of such rarity that they have never been seen outside a select group of advanced collectors. Carefully selected, each photograph and illustration affords the reader information not to be found elsewhere. Presented in a clear and easy to understand format, the detailed text covers evolution of the Pickelhaube from 1842 until 1918, helmet nomenclature, front plates of the Active, Reserve and Landwehr regiments, and identification tables for officer and other ranks helmets. Without a doubt, these are the most extensive and comprehensive books on this subject ever published in English. The information presented here will make this book essential for the novice and advanced collector, military historian and restorer.
