Soviet T-10 Heavy Tank and Variants James Kinnear,Stephen Sewell,2017-06-29 When it was introduced into service in 1953, the T-10 represented a return to the “classic” Soviet heavy tank. Although considered a major threat to NATO tank forces, it also represented the end of an era. All gun heavy tanks like the T-10 would eventually be made effectively redundant by later models like the T-62 which had powerful next generation armament and new ammunition types. The tank was gradually withdrawn from service in the 1970s, though the last tanks would only leave Russian service, by decree of the President of the Russian Federation, in 1997. As such the T-10 outlived the Soviet state that had created it. Never exported outside of the Soviet Union and rarely used in combat, the T-10 has remained a mysterious tank, with many of its variants unknown in the West until very recently. This study, written from original Russian and Ukrainian primary source documents that have only recently been made available, uncovers the history of this enigmatic tank using 130 stunning contemporary and modern photographs of the T-10 as well as full colour side-view artwork.

The Shema and John 10 Brury Eko Saputra,2019-05-08 The Shema is arguably the most important creed the Jews, including the Christian Jews, ever have. Its importance can also be seen in the texts of the New Testament. This book attempts to explore the Shema’s influence over the Gospel of John, especially the oneness language of that Gospel. Using John 10 as a sample, this book argues that the Shema helps us to understand the richness of the text, both theologically and contextually.

Team 10 East Lukasz Stanek,2014-05-15 This volume coins the term “Team 10 East” as a conceptual tool to discuss the work of Team 10 members and fellow travelers from state-socialist countries—such as Oskar Hansen of Poland, Charles Polónyi of Hungary, and Radovan Nikšić of Yugoslavia. This new term allows the book’s contributors to approach these individuals from a comparative perspective on socialist modernism in Central and Eastern Europe and to discuss the relationship between modernism and modernization across the Iron Curtain. In so doing, Team 10 East addresses “revisionism” in state-socialist architecture and politics as well as shows how Team 10 East architects appropriated, critiqued, and developed postwar modernist architecture and functionalist urbanism both from within and beyond the confines of a Europe split by the Cold War.
