Helios ,1991

Proud Helios Melissa Scott,2012-09-04 The free flow of traffic to the Gamma Quadrant is vital to the recovery and survival of the planet Bajor and to Federation interests as well. When a mysterious cloaked ship begins raiding wormhole shipping, cleaning out holds and killing entire crews, Commander Benjamin Sisko of Deep Space Nine™ acts at once to stop the menace. Commander Sisko has unexpected aid: the cloaked vessel has been striking Cardassian ships as well, and the Cardassian commander Gul Dukat intends to destroy the ship at all costs. Their unlikely alliance works well -- until two of Sisko's crewmen are captured by the raiders. Gul Dukat will stop at nothing to gain his victory; now Sisko must locate the predator ship, hold off the Cardassians long enough to rescue his people -- and prevent an interstellar war!

Helios Shane Hibdon,2020-05 A twist in our history you never knew was there. Stories of ancient ruins, mystical beings, sorcery, and sacrifice. The story of how the Sun bestowed its power unto one man, Lukaz (Light-Bringer). Many things are happening on earth, all at once. An alien confederation approaches the blue planet, surrounding its skies with a vast Darkness that encases the earth entirely. A Figure, who had been fleeing these very beings

encounters Lukaz. Both are weakened but gain strength throughout the journey as the Light-Bringer finds his purpose. Will light replace Darkness? Will he save planet earth, or will it all be too late?

Phaethon Euripides,2008-11-12 In classical mythology, Phaethon is the child of the sun god Helios, who tries to drive his father's chariot and is killed in the attempt. Euripides explains how this happened: Helios had seduced Phaeton's mother - already betrothed to another - and as the price of her seduction had promised to grant her a favour. As an adult Phaethon claims the promise and asks to drive his father's chariot, with disastrous consequences... Only a quarter of Euripides' original version of Phaethon has survived. Alistair Elliot has translated these surviving 327 lines and reconstructed the rest, staying as faithful as possible to Euripides' time and way of thinking. The result is something very like finding a lost Euripides play, unperformed since the fifth century BC and amounting to a new masterpiece.

Helios Beginnings Tawa Witko,2016-08-18 Andrew Harrison lived a difficult life, wrought with pain, anguish and addiction. Give Me A Reason Lisa Oliver,2022-12-20 Throughout the eons of time it was said that when it came to Fated Mates, the Fates never made a mistake. Could Helios and Bruno prove to be the exception to that rule? Ancient Greek God of the Sun, Helios might also be the God of Sight, but even he couldn't predict what would happen when he finally caught a glimpse of the light he'd been looking for - the one that let him know his search for his mate was over. The problem was when he chased up the source of that light, his intended one was on a date with someone else. Even when the date ended badly, Helios's efforts to help weren't appreciated. Bear shifter, Bruno Carpenter, was an ex-soldier, a current police officer, and on a date from hell. When he gets mugged he is shocked to feel his body responding to a male who suddenly appeared in the alley beside him. What was worse was that the same man started talking about them being mates. Bruno decided he must have been hit on the head harder than he

thought. Unfortunately, the attack on Bruno was just part of a bigger picture - one that Helios could see thanks to his newly made Bruno App (thank you Zeus). But as Helios and Bruno spend time together, the chances of Helios having a future with the man the Fates deemed perfect for him get smaller and smaller. Is the mating of Helios and Bruno doomed to fail? Will they be the exception that proved the rule? And what does that saying even mean? Give Me A Reason is the thirteenth book in the Gods Made Me Do It series, but it can be read as a standalone.

Helios Carlos Herrera,2023-02-23 In the not too distant future, mankind has managed to establish colonies on different planets and moons of the solar system. The most prosperous of these is Helios, a colony located on the moon. By the year 2075, mankind had made great strides in space exploration. The colonization of other planets and the creation of space stations had allowed humanity to expand beyond Earth. The Helios colony, in particular, had become one of mankind's greatest achievements. Located on the moon of planet Earth, this space station used solar-powered technology to provide the colonists with all the basic necessities for life in space. However, life on Helios was not easy. The lack of gravity and prolonged exposure to solar radiation had taken a toll on the colonists' health, and the isolation from the rest of the world had created a sense of claustrophobia and loneliness. Despite these challenges, the colony thrived, and the colonists began to see Helios as their home. But soon, something happened. A series of catastrophic events shook the colony, bringing the colonists to the brink of disaster. Now, a group of survivors must band together to face the dangers and fight for the survival of their home. Can they overcome the challenges ahead, or is the colony of Helios doomed to destruction, which has become the center of life and economy in the solar system?
