The Henschel Hs 129 Richard A. Franks,2021

U.S. Strategic Bombing Survey: Henschel & Sohn, Kassel, Germany, Dates of Survey May 25-26, 1945 United States. War Department,1947

Henschel Hs 129 Denes Bernad,2006-09 When German planners decided that they needed an aircraft dedicated to a ground-attack role to disrupt and destroy troops on the ground in World War II, the twin-engined Henschel Hs 129 (nicknamed 'Panzerknacker', meaning tank cracker) was the result of their development efforts. This book covers the Hs 129's development and operational career and also provides numerous photos and illustrations detailing its camouflage schemes. Photos of the type in service and specially commissioned line drawings and color artworks illustrate all of the Hs 129's variants, including those that never left the drawing board. Many of these images are previously unpublished, making this book an essential addition to the limited range of publications available on this important aircraft type.

Henschel Hs 123. All Versions Mariusz Lukasik,2017-05-19

Henschel Hs 126 Srecko Bradic,2017-10-31 Henschel Hs 126 was a two-seater, all-metal hinged monoplane with fixed landing gear. The first prototype - Hs 126 V-1 (D-UBYN) - had its flight-test in August 1936. It was powered by a 12-cylinder liquid-cooled JUMO 210 C engine. By the end of 1937 ten preproduction Hs 126 A-0's were delivered. Aircrafts were produced at the Henschel-Werke plant and also at AGO Flugzeugwerke. Hs 126 had exceptional short landing performances. Armament consisted of two machine guns cal. 7.92 mm: pilot's fixed MG-17 in front (with 500 rounds) and defense MG-15 in the observer cockpit (with 975 rounds). For the optional close support missions it was capable to carry bombs on two side racks (2✦10 kg or 2✦50 kg). It also had radio equipment and, after gaining combat experience, some machines were equipped with side armor plates of 8 mm steel.The first combat employment of several Hs 126's took place in Spain, where they were used as tactical reconnaissance within Aufklärungsguppe 35, and where they received the code name Super Pavo. Losses in the Spanish civil war were minor. Some Henschels were also sold to Greece, Bulgaria and Estonia.At the beginning of World War II (invasion of Poland) the Hs 126's were the backbone of reconnaissance units of the Luftwaffe. From 29 staffeln this machine was deployed in 23 of them (267 Hs 126's were in combat units, of which 234 were combat-ready). However, the Polish campaign showed that Hs 126 was a vulnerable airplane. Germany lost about 41 of them to a AA fire and Polish fighter actions, and another 40 were seriously damaged.The Hs 126 participated in missions over all WW2 fronts: from Africa, the Soviet Union, and West Europe to the Balkans. On the 1st of June 1941, Hs 126's were still used by operational combat units as well as flying schools. However, rising losses resulted in withdrawing the type from combat units, but it was still presented in big numbers. For example, in March 1942 from 35 Aufklärer Staffeln on East Front 16 operated Hs 126's. On the first day of Operation Barbarossa, Germany lost 13 Hs 126's and by the December 1941 they lost 381 of them. Germans tried to accompany Hs 126's with fighter escorts during missions but this did not help much. For this reason from autumn 1941 the obsolete Henschels were replaced by the more modern Fw 189.It is worth noting that the Hs 126 played a role in the rescue of Benito Mussolini on 12th of September 1943. It made a reconnaissance mission to spot landing positions for gliders.By March 1944 only 174 Hs 126's still remained in the Luftwaffe, some of which were in service with the following combat squadrons on the Eastern Front: 13./NSGr-11 with a base in Estonia, 2./NSGr-12 with a base in Estonia/Lithuania and 2./NSGr-7 with a base in the Balkans. At that time, used as night light bombers. Behind the front line the Hs 126 was used as daytime light bomber and scout to fight the partisans, as well as communication planes in which role they served until the end of the war.Today not many parts of the Hs 126 are preserved as most were lost to the Soviet Union.

Johannes Brahms & George Henschel George S. Bozarth,Johannes Brahms,2008 George Henschel is known for his highly informative Personal Recollections of Johannes Brahms, in which he published memoirs of his times with Brahms and a selection of Brahms's letters to him. The present volume incorporates these recollections and letters, and supplements them with letters from Henschel to Brahms, additional Brahms memoirs from other sources, Henschel's contacts with Verdi and Wagner, and extensive annotations that enlighten the reader. Includes a CD of Henschel's recordings.

Dinner with Lions Dr. Detlev Henschel, A mixed team of a safari owner, an Africa Greenhorn and two Bushmen take a hike in an isolated mountain massif in the Namib Desert, Namibia, Africa. The trail there and beyond by rough off-road terrain and the time around the campfire is spiced up by African stories of the last 12 years of safaris. This reading has nothing to do with a soft-washed farm holiday far away from African reality! Safari owner and tour guide (Doc) Henschel is planning a trekking expedition on the Brandberg, Namibia, Africa with his friend and absolute outdoor newbie Stefan 'BeeTwo' as well as two Damara Bushmen friends Collin 'Uiseb' and 'Jonny B Good'. The isolated and 600 square kilometers and 2500 meters high Brandberg massif is located in the middle of the oldest desert in the world (80 million years), the Namib. This safari through little-used off-road tracks to the 'mountain' and beyond is spiced up by stories of the past 12 years Namibia. Henschel introduces the reader to another world where usual stereotypes and perceptions are inapplicable. In Namibia, many tribes live with their own cultures and languages, including the 'whites' who, of course, see themselves as Africans. Namibia is desert land, but with 6,000 different plant species it has three times more than Germany and one third of the USA. In addition, Namibia has the entire spectrum of African game, which 'runs around freely there', everywhere! Namibia has ancient deserts, sparse Savannah and dense jungles. It is a land where adventures are born. This reading has nothing in common with a soft-washed 5-star-African-farm-holiday far from the all-day African reality! 58 colored pictures

Going Solo on the Baltic Sea Dr. Detlev Henschel, Scientist (Dr.) Henschel has jumped out of the Rat Race of an excellently paid, secure job. Just like this! From one day to the next, without any social safety net and fully comprehensive insurance, which is so much being loved by the Germans. To flare out his Free Fall in an increasingly uncertain society, his ‘personal parachute’ is a kayak into the sunset. This adventure brings him in 91 days from the German northern Flensburg to the top end of the Baltic Sea, the Arctic Circle. Due to the aversion of the past years, his personal ‘purification ritual’ is to live only on nature, to ‘get rid of the accumulated dirt’, as he says himself, so was the plan. This expedition will be an outdoor paddle experience living from the land on the brink of sheer survival. His book on edible wild plants, which describes his diet on the voyage, immediately became a bestseller in Germany. (This accumulated knowledge over decades, he has now summarized in an Outdoor & Survival non-fiction book ‘SAVE YOUR ASS! No matter how!’ in German only. His adventures together with his cohabitant Katrin can be seen on his YouTube Channel 1life4outdoor) The original idea of the kayaking expedition was to do the entire Baltic Sea and live solely off the fat of the land like a ‘budding Viking’ – a pure minimalist Thoreau life. He dubbed the project ‘Shin-ken Sho-bu’ as a nod to his first year in Japan: ‘Doing things with deadly seriousness’, which, as it turned out, couldn’t have been more apt: halfway through the trip, a cross-eyed motorboat captain ended up crushing him against the wall in a Swedish lock. The resulting bone splinters and cervical spine syndrome kept him side-lined for a year before he could eventually resume the expedition. Detlev had to rethink his original plan. After all, dreams meet reality out at sea and there is an adventure lurking around every corner! Loneliness, hunger, self-doubt and the monotony of paddling were his constant companions on the ninety-one-day voyage, not to mention the pain of sitting for hours on end, the torments of the unpredictable Baltic Sea, the icy Northern European weather and his frequent lack of energy, even for the cozy nightly campfire. Especially in our fast-moving, jaded times, Detlev’s ironic, self-critical and frank account and the descriptions of his bare-knuckle experiences make for a riveting read – not only for paddlers but also anyone who is fed up with life and the daily grind, still has dreams and might like to see them materialize one day. Detlev has been on a number of unusual expeditions since and coined his ‘RoNin doc’ philosophy: ‘Applied Philosophy – Requiem’.

Herbie Glazier's Requiem David Henschel,2018-06-22 Herbert Herbie Glazier is dying. It's his own damn fault, starting to smoke before he was ten-years-old, and continuing the awful habit until told by his doctors there was little time left. Then he stopped smoking. With that in mind, he and his one still-living childhood friend revisit the old neighborhood. Herbie takes inventory of his errant youth while hearing judgmental voices of his ancestors. Strong family values, and that well-known Jewish guilt, mix to inform Herbie's memories of childhood adventure and his growing up. Facing his own demise, he is inspired to ponder his life experiences and attempt to explain himself in a lasting document, a journal, dedicated to his family and descendants. His thought doing so was just that he wanted to be remembered. This moving and witty novel explores the escapades of Herbie and his gang of seven Jewish youths bent on creating disarray in their St. Louis, Missouri neighborhood in the 1950s. David Henschel and his wife, Susan, live in St. Louis County, Missouri. He was a freelance photographer and photojournalist for nearly thirty years. His independence allowed him to choose subjects for his photojournalism, which provided unusual perspectives into world subjects and events.
