*The New American High School* Ted Sizer, 2013-05-22 The late Theodore Sizer's vision for a truly democratic public high school system. Our current high schools are ill-designed and inefficient. We have inherited a program of studies that in its overall structure has not changed in over a century. The question is What's next? Theodore Sizer, the founder of The Coalition of Essential Schools, was a passionate advocate for the American school system. In this, his last book, he offers a vision of what a future secondary education might look like. In a book that tells the story of his own odyssey, Sizer gives shape to a much-needed agenda for improving our high schools. Includes a vision for the future of our High Schools from one of America's greatest leaders of educational reform. Written by Theodore Sizer, founder of The Coalition of Essential Schools and author of landmark book *Horace's Compromise*. This final book from the late Theodore Sizer reveals the man and his vision for our secondary education system.

*High on Design* Robert Klanten, Santiago Rodriguez Tarditi, Gestalten, 2020 Today, weed is en vogue and has evolved into a good-looking business. *High on Design* showcases the new brands, designs and creators behind this revolution. While cannabis is a recreational drug still strongly associated with Western subculture, it has recently become a huge industry. Over the past few years, consuming the herb and using its derivatives have become legal in several countries, and a wave of entrepreneurs has come through, looking to generate and bank on a new generation of consumers. Through insightful texts, *High on Design* reflects on the novel aesthetics, people, and trends of contemporary cannabis culture, and provides a wider view of the phenomenon. Addiction, crime, science, the marketing of weed as a booster of creativity and a medical aid, and the use of hemp in clothing are all considered.

*High on New York*, 1986 Eighty-four color photographs present Manhattan from vantage points previously denied to photographers.

**High Weirdness** Erik Davis, 2019-11-05 An exploration of the emergence of a new psychedelic spirituality in the work of Philip K. Dick, Terence McKenna, and Robert Anton Wilson. A study of the spiritual provocations to be found in the work of Philip K. Dick, Terence McKenna, and Robert Anton Wilson, *High Weirdness* charts the emergence of a new psychedelic spirituality that arose from the American counterculture of the 1970s. These three authors changed the way millions of readers thought, dreamed, and experienced reality—but how did their writings reflect, as well as shape, the seismic cultural shifts taking place in America? In *High Weirdness*, Erik

Davis—America's leading scholar of high strangeness—examines the published and unpublished writings of these vital, iconoclastic thinkers, as well as their own life-changing mystical experiences. Davis explores the complex lattice of the strange that flowed through America's West Coast at a time of radical technological, political, and social upheaval to present a new theory of the weird as a viable mode for a renewed engagement with reality.

**Catholic High Schools** James L. Heft S. M., 2011-10-21 Catholic high schools in the United States have been undergoing three major changes: the shift to primarily lay leadership and teachers; the transition to a more consumerist and pluralist culture; and the increasing diversity of students attending Catholic high schools. James Heft argues that to navigate these changes successfully, leaders of Catholic education need to inform lay teachers more thoroughly, conduct a more profound social analysis of the culture, and address the real needs of students. After presenting the history of Catholic schools in the United States and describing the major legal decisions that have influenced their evolution, Heft describes the distinctive and compelling mission of a Catholic high school. Two chapters are devoted to leadership, and other chapters to teachers, students, alternative models of high schools, financing, and the key role of parents, who today may be described as "post-deferential" to traditional authorities, including bishops and priests. Written by an award-winning teacher, scholar, and recognized educational leader in Catholic education, *Catholic High Schools* should be read by everyone interested in religiously-affiliated educational institutions, particularly Catholic education.

**Hell and High Water** Rebecca Theim, 2013-10-11 The genesis and aftermath of the print edition's death knell. In May 2012, the New York Times broke a story that the internationally acclaimed, locally beloved, Pulitzer Prize-winning New Orleans Times-Picayune would become a three-day-a-week publication. The profitable newspaper slashed its veteran newsroom, antagonized the city, state, and nation, and jeopardized its vaunted reputation—all in an effort to create a new blueprint for American newspapers in the increasingly digital world. Here is the insider's account of the outrage, betrayal, and aftermath of the death of the daily edition of the Times-Picayune.

**Refugee High** Elly Fishman, 2023-10-03 A year in the life of a Chicago high school with one of the nation's highest proportions of refugees, told with "strong novel-like pacing" (Milwaukee Magazine) A stunning and heart-wrenching work of nonfiction.—Chicago Reader Winner of the Studs and Ida Terkel Award For a century, Chicago's Roger C. Sullivan High School has been a home to immigrant and refugee students. In 2017, during the worst global refugee crisis in history, its immigrant population numbered close to three hundred—or nearly half the school—and many were refugees new to the country. These young people came from thirty-five different countries, speaking more than thirty-eight different languages. Called "a feat of immersive reporting" (National Book Review), and "a powerful portrait of resilience in the face of long odds" (Publishers Weekly), *Refugee High*, by award-winning journalist Elly Fishman, offers a riveting chronicle of the 2017–8 school year at Sullivan High, a time when anti-immigrant rhetoric was at its height in the White House. Even as we follow teachers and administrators grappling with the everyday challenges facing many urban schools, we witness the complicated circumstances and unique needs of refugee and immigrant children: Alejandro may be deported just days before he is scheduled to graduate; Shahina narrowly escapes an arranged marriage; and Belenge encounters gang turf wars he doesn't understand. Heartbreaking and inspiring in equal measure, *Refugee High* raises vital questions about the priorities and values of a public school and offers an eye-opening and captivating window into the present-day American immigration and education systems.

*High Line* Joshua David,Robert Hammond,2011-10-11 How two New Yorkers led the transformation of a derelict elevated railway into a grand--and beloved--open space *The High Line*, a new park atop an elevated rail structure on Manhattan's West Side, is among the most innovative urban reclamation projects in memory. The story of how it came to be is a remarkable one: two young citizens with no prior experience in planning and development collaborated with their neighbors, elected officials, artists, local business owners, and leaders of burgeoning movements in horticulture and landscape architecture to create a park celebrated worldwide as a model for creatively designed, socially vibrant, ecologically sound public space. Joshua David and Robert Hammond met in 1999 at a community board meeting to consider the fate of the High Line. Built in the 1930s, it carried freight trains to the West Side when the area was defined by factories and warehouses. But when trains were replaced by truck transport, the High Line became obsolete. By century's end it was a rusty, forbidding ruin. Plants grew between the tracks, giving it a wild and striking beauty. David and Hammond loved the ruin and saw in it an opportunity to create a new way to experience their city. Over ten years, they did so. In this candid and inspiring book--lavishly illustrated--they tell how they relied on skill, luck, and good timing: a crucial court ruling, an inspiring design contest, the enthusiasm of Mayor Bloomberg, the concern for urban planning issues following 9/11. Now the High Line--a half-mile expanse of plants, paths, staircases, and framed vistas--runs through a transformed West Side and reminds us that extraordinary things are possible when creative people work together for the common good.

*The Good Girl* Ashley Rose,2020-01-25 When my life fell apart last year, I became the girl that everyone needed me to be:The good

girlfriend. The good daughter. The good student. I've been keeping it together. But I've lost track of who I need to be--for myself. Because I can't be everything for everyone else. Not when the attacks keep coming. They tried to destroy me once and I fought back. And they haven't given up. But I'm not the new girl anymore. They have no idea what this good girl is capable of doing if they push me too far ...

Going to Scale with New School Designs Joseph P. McDonald, Emily J. Klein, Margaret Riordan, 2009-08-08 Americans have been trying to redesign the American high school since it was first invented. One of the latest approaches—funded by the Bill and Melinda Gates Foundation—is to find inventive high school designs that work well in one location and can be replicated in others. The authors of this book followed a design team from Big Picture Learning, recording the challenges it faced and the strategies it employed in pursuit of this goal. Their accessible and entertaining account of Big Picture's work is laced with stories about “scaling up” by other school design teams and in other enterprises beyond high school, and includes commentary throughout by Greg Farrell, founder of Expeditionary Learning Schools Outward Bound and Howard Wollner, former senior vice president of Starbucks. Based on careful research, the book is both a practical guide to a new dimension of school reform and an engaging read for anyone interested in school change. The book is organized according to the eight challenges of going to scale with new school designs, complete with advice for how to address them: 1.; Fidelity Challenge. Balancing fidelity and adaptation. 2.; Teaching Challenge. Teaching and learning the design. 3.; Ownership Challenge. Instilling shared ownership of the design. 4.; Communication Challenge. Communicating effectively across contexts. 5.; Feedback Challenge. Using experience in new settings to improve the design. 6.; Resource Challenge. Obtaining and managing resources. 7.; Political Challenge. Negotiating the politics of local adoption. 8.; Mindset Challenge. Coping with the difference that difference makes.
