Towards a new order in the global automotive industry: How Asian companies catch up to their western peers Daniel Wäldchen,2014-02-01 The global automotive industry faces the most influential changes since the revolutionary introduction of mass production a century ago. Latecomer firms from Asia are challenging the western incumbents. They can change the rules of the game in the industry by leapfrogging several steps in their development process. This study seeks to contribute to the discussion of latecomer firms by gaining insights into the catch up processes of five automotive companies in the passenger car segment, namely BYD (PRC), Chery (PRC), Geely (PRC), Tata Motors (India) and Mahindra & Mahindra (India). Based on learning theories and the core processes of car manufacturers, the author develops a catch up framework in order to compare automotive latecomers. The Korean manufacturer Hyundai serves as an example for a successful catch up, and provides a contextual framing for catch up processes in the automotive sector. An analysis of empirical data provides evidence for the evaluation of the catch up status of the five challenger firms. The author emphasizes the influence of institutional settings in China and India and the role of business groups that can act as facilitators for the catch up process. Finally, the study clusters the catch up strategies of the five observed companies in order to compare their approach.

Catch up processes in the global automobile industry Daniel Wäldchen,2012-11-22 Master's Thesis from the year 2012 in the subject Business economics - Miscellaneous, grade: 1,2, Berlin School of Economics and Law, language: English, abstract: This thesis seeks to contribute to the discussion on latecomer firms by gaining insights into the catch up processes of five automobile companies in the passenger car segment, namely BYD (PRC), Chery (PRC), Geely (PRC), Tata Motors (India) and Mahindra & Mahindra (India). Based on learning theories and the core processes of automobile manufacturers, the thesis develops a catch up framework to systematically compare automobile latecomers. Korean automobile manufacturer Hyundai serves as an example for successful catch up and provides a contextual framing for catch up processes in the automobile sector. An analysis of empirical data provides evidence for the evaluation of the catch up status of the five challenger firms. The author emphasizes the influence of institutional settings in China and India and the role of business groups which both can act as facilitators for the catch up process. Finally, the thesis clusters the catch up strategies of the five observed companies in order to compare their approach. The results indicate that the observed automobile latecomers have not achieved a sophistication level comparable to incumbents in terms of capabilities. However, opportunities to accelerate

the capability building process exist. Latecomers can leapfrog through partnering, acquisitions or changing the rules of the game in the industry.

La Honda Bob Dougherty,2007 Less than 45 miles from San Francisco and Silicon Valley, La Honda is an isolated rural community nestled in the majestic coastal redwood forests of the Santa Cruz Mountains. Pioneers in the late 19th century were loggers and ranchers who competed against grizzly bears and mountain lions for food. Outlaws like the Younger brothers (partners with Jesse James) used La Honda's isolation to avoid justice. Gradually the community became a mountain retreat for cityweary San Franciscans, and in the 1960s, La Honda was home to One Flew Over the Cuckoo's Nest author Ken Kesey and his psychedelic Merry Pranksters. Today's La Honda is an enigma--its size and character have barely changed while the rest of the San Francisco Peninsula has exploded around it.

Automotive Engineering International ,2003

Business Strategy in a Semiglobal Economy Panos Mourdoukoutas,2015-03-26 This groundbreaking text provides both theory and strategy for operating in a semiglobal economy in which international businesses must compete in highly globalized and highly localized markets at the same time. Unlike the traditional transnational and matrix corporate models, a semiglobal corporation organizes its operations according to the global/local content of its value propositions rather than according to geographical regions, products, or contribution to the parent company's performance. As an example of a semiglobal corporation, the Honda Motor Company has a global vision when it comes to highly global bundles like car engines, and a local vision when it comes to highly localized car financing and servicing. Designed as a supplementary text for courses in international business, development economics, marketing, and strategic planning, Business Strategy in a Semiglobal Economy raises important challenges to the conventional models of business organization and the competitive strategies that proceed from them.

АвтоМир No06/2016 ИД «Бурда»,2017-04-29 «АвтоМир» – единственный в России еженедельный автомобильный журнал. Самые свежие новости из мира автомобилей.
