365 Sports Cars You Must Drive John Lamm, Steve Sutcliffe, Larry Edsall, James Mann, Kris Palmer, 2020-10-27 365 Sports Cars You Must Drive puts you in the driver's seat of a century's worth of sports car legends (and a few rather less legendary), each presented with a fun and informative profile and fact-and-spec box. It's the ultimate gearhead's bucket list and poses the challenge: How many have you driven? Whoever coined the phrase getting there is half the fun must have owned a sports car. And the wag who suggested that it's the journey not the destination? Probably driving a Lotus or MG at the time. From towering icons like Ferrari, Lamborghini, Porsche, and Corvette to everyman sportsters from Triumph, MG, Sunbeam, and Miata to oddballs like Crosley, Sabra, and DB, sports cars inspire passion and strong opinions as few other vehicles on the road can. In one beautiful book, long-time Road & Truck magazine chief photographer John Lamm, along with other top motoring

contributors, gives the reader illustrated profiles of every sports car you've ever dreamed of driving! Now, imagine if you could drive a different sports car—any sports car—every single day for a year. Which would you choose?

**Honda Acura NSX Ultimate Portfolio** R.M. Clarke, 2010-12-01 Honda announced the NSX in 1989. It was a technical tour de force, but despite the car's excellence it did not have the pedigree from makers like Porsche and Ferrari. In 2005, with worldwide production down to a couple of hundred cars per year and the resulting high production costs, Honda decided that it was not financially viable to continue manufacturing the NSX.
