**The Perfect Horoscope** John Willner,2001-03-20 The majority of horoscopes in current use are terribly wrong. Why? Because spiritual birth times, which are essential to producing an accurate horoscope according to Edgar Cayce, occur up to four-and-a-half hours before physical birth. That difference leaves aspects between planets about the same, but shifts all house cusps backward by up to one or two signs. Compared with most of today's faulty horoscopes, these perfect horoscopes match

personas with awesome precision and provide greatly enhanced forecasting capabilities. This revolutionary book on astrology shows you how to (1) arrive at spiritual birth times, (2) apply two other fundamentals of astrology currently omitted from most horoscopes, and (3) verify your now totally functional horoscope. Topics covered in this book include: Who in recorded history may have been responsible for the mistakes of astrology, and its subsequent fall from grace o How to calculate accurate, soul-chosen horoscopes; What steps can be taken to verify a soul chosen horoscope; Why progressions-not transits-mark the stepping-stones of life; When horoscopes can be used to confirm fundamentals and reject damaging false ideas (such as the first breath theory); Which concepts will change as we move from the Piscean Age of tolerant opinions to the Aquarian Age of benevolent intelligence.

**Analysing Horoscope through Modern Techniques** M.S. mehta, This book has specially been written taking into considerations needs of students to comprehend astrology and be able to give correct predictions in shortest possible time. The author has made step by step approach to explain intricacies of astrology. The book contains rules for foreign travel, owning houses and assessment of intelligence and wealth, career counseling and pitfalls in marriages etc. and above all how to assess the personality and character.

Delineating a Horoscope Raj Kumar, Astrology is a great science based on sound principles and theory of karma through cycles of rebirth. A horoscope is basically a map of zodiac indicating position of planets in various signs/ Nakshatra at the time and place of birth. The delineation of a chart is the science and art of deciphering it as per the knowledge, intuition of the astrologer and divine help available to him. Therefore the first requisite is to have sound knowledge of nature and characteristics of houses, signs, Nakshatra and planets and their inter-relation.

Next comes the basic tools like dasha, transit, yoga and divisional chart and their application in delineating a horoscope. Lagna is the single most important factor in delineating a horoscope. It is the very being of the native, his élan vital & basic potential. Unless the seed of a specific quality or event is contained in this basic potential, other planetary indications will not find suitable opportunities for manifestation. Lagna also determines the numbering of houses with lagna being the first. With the change in lagna, the significations of any planet will change drastically, as his house & lordship changes, although the sign & constellation of the planet remain unchanged.
